500 Postal Telegraph Operators Have Walked Out in Chicago.

SPOKANE AND PORTLAND OFFICES MAY STRIKE

Postal Strikers Demand a 25 Per Cent Increase and a Shorter Day and Night-Resolution That Every operator Should Possess Union Card--Took Long Debate.

SITUATION THROUGHOUT THE WEST IS GETTING MORE SERIOUS

STRIKERS DECLARE THAT THEY ARE TYING UP EVERYTHING SO THAT PUBLIC SENTIMENT WILL BE ON THEIR SIDE--CHIEF OF POLICE INFORMS STRIKE LEADERS THAT THERE MUST BE NO VIOLENCE--DENVER IS COMPLETELY TIED UP.

CHICAGO, August 9.—The operators of the Postal Company, 500 in number, struck tonight a few minutes after 6 o'clock. With 1100 men out from the offices of the Western Union throughout the city, there are in all told 1600 men on a strike in this city.

The walkout followed a decision of a meeting held by the union this afternoon at which a resolution was unanimously passed declaring every operator in the city having a union card should be called out. A debate on this motion occupied the entire time of the meeting and an adjournment was taken as soon as a decision reached. A short time after the meeting ended, demands were presented to the Postal officials asking for a 25 per cent increase in wages, an eight-hour day and recognition of the union. If these were not passed upon a strike was to follow.

It was generally understood the demands could not be acted on at once and no move was evidently intended to bring about a strike at the present time. It was said by some of the operators present at the meeting that it is the intention to cripple telegraph facilities in every direction, and to do it so completely that the public sentiment would be brought to bear heavily upon the two telegraph companies and in this manner force a settlement between them and the operators.

The general situation throughout the west became more serious as the day waned. In addition to Kansas City, Helena and Salt Lake, which went out this morning and Denver, went out this afternoon. It is reported El Paso is out. Tonight it is declared that Spokane and Portland, Or., are on the verge of a walkout.

The strike throughout the day has been marked by no trouble of any kind. Chief of Police Shipley informed the leaders of the strike this afternoon that he would not allow any picketing

or violence and he was informed none was intended and every effort is to be made to keep the men peaceable.

DENVER, August 9.—At 2:15 p. m. this afternoon the entire complement of operators of the Western Union of this city went on strike. Men to the total of 83 walked out. The Western Union is completely tied up. The union has presented demands that the pay of a first-class man be placed on the same basis as the Chicago operators. This means an advance from \$77 to \$82.50 per month. Also an eight hour day instead of nine hours and a seven hour night instead of seven and a half hours is asked for.

DALLAS, Texas, August 9.—The Western Union operators here walked out at 8:30 tonight.

PORTLAND, Aug. 9.—At a largely attended meeting tonight of the telegraph operators of both the commercial and Western Union companies, a resolution was unanimously passed to the effect that Local No. 92 of the Commercial Telegraphers' Union of American would follow National President Small's instructions with reference to going on a strike in sympathy with other cities. The following telegraph was sent to President Small at Los Angeles:

"The meeting tonight voted unanimously to follow your instructions, but demand that you sanction the action of locals already out. We await your command. Hard to hold radical members."

The telegraphers state that upon orders from President Small a practically complete walkout will result.

OMAHA, August 9.—The telegraph operators of the Western Union and the Postal at a meeting this afternoon decided not to strike until ordered out by President Small of the national body.

In a dingy building on San Fernando street is the headquarters of La Libertan, the Mexican sons of liberty, which is a party organized to overthrow the present government of Mexico.

Back of the publication is a junta composed of 15 members which controls a membership of more than 30,000 Mexican laborers calling themselves patriots.

The objects of the organization is to overthrow the Diaz government, the assassination of President Diaz, and of President Roosevelt and the conversion into a dictatorship with Ricardo Magon as the head and members of the local junta as his advisers.

In La Revolucion the killing of President Diaz and of President Roosevelt is advocated. They are condemned by the junta because they are accused of having entered into a conspiracy to oppress the Mexican laborers in this country and rob them of their just dues as wage earners.

President Roosevelt is also accused of being in incendiary language of being in conspiracy with President Diaz to perpetuate the Diaz government.

TRYING TO STAY STRIKERS

President Small is Instructing Locals to Remain at Work Until Instructions Are Sent--Western Union Will Fight Strike in New York.

CHICAGO, August 9.—About 35 operators tonight are attempting to transmit business for both companies which under normal conditions requires fully 1500 men to handle. Other Western Union offices involved are Salt Lake, with 36 operators, Helena 40, Kansas City 330, Dallas 105, Fort Worth 40, Colorado Springs 10, Denver 83 and El Reno, Oklahoma.

In New Orleans only the operators of the Postal have left the keys. The situation is somewhat improved owing to a telegram from President Small of the national organization who has telegraphed all locals to remain at work until further instructed. In Kansas City only a few of the wire chiefs and three women remained.

NEW YORK, August 9.—The Western Union will fight the strike of telegraph operators wherever it is called. A strike among the 3000 operators in New York is imminent though the sentiment among the employes is said to be divided. A special meeting of the local union is called for Sunday to consider the failure of the two companies to live up to the agreement with United States Commissioner Neill.

KANSAS CITY, August 9.—The entire force of the Western Union operators, excepting the chief operators, numbering about 150 employes, went out shortly after 1 o'clock this afternoon. Up to 2 o'clock this afternoon the Postal operators were working, and there were no indications that the men in that office would go out.
