WASTE IN THE NORTHWEST

Preservations Of Forest Must Come Through State Regulations—Government Will Soon Have To Begin Transplanting.

SAN FRANCISCO, Aug. 9.—Years of waste, careless methods and a short sighted policy in order to gain immediate profits has brought the United States to the eve of a lumber famine, was the declaration made by Secretary of Agriculture Wilson, who arrived here yesterday from the Northwest. Although the federal government is doing all in its power to ward off the peril, having set aside 150 million acres of forest reserve lands, the prospective famine, according to Secretary Wilson, can be prevented only by the individual holders of forest lands or by state laws.

"The waste has been incalculable," said Secretary Wilson, "and the increased cost of lumber at present heralds an impending famine. The loss by forest fires alone amounts to hundreds of thousands of dollars every year."

In reply to a question as to the probability of the federal government taking some action for perpetuating the forests by replanting, Secretary Wilson said that it will have to come to that in time, but the checking of the present peril rests with the state and through state laws. The greater part of the eastern and middle West country now looks to the Pacific coast for its lumber and if the coast states wish to maintain this profitable industry in the future they will have to pass suitable laws governing forests.

A STEP TO SUCCESS.

Alaska And Yukon Have Furnished It For Many a Man.

SEATTLE, Aug. 9.—Pride and professional ethics have prevented many from making fortunes, but when the Alaska-Yukon-Pacific Exposition which will be held at Seattle in 1909, demonstrates how many of the fortunes of Alaska and Yukon have been made, the public will see that the rules that are good for the southland hardly apply to the land of the Midnight Sun.

For instance there is now not a hundred miles from Seattle an American lawyer who made seventy-five thousand dollars in Dawson in the early days by means that were unprofessional indeed. He was a good lawyer, but he did not seem to get any practice, and it soon came to a matter of guessing from where the next meal should come. So he decided to go north.

Thinking he might have to do things of which he would not care to be reminded afterwards he changed his name on going north. On reaching Dawson he looked around and soon located a crying need.

At that time Dawson had no garbage system. The town was growing by leaps and bounds, and garbage was a matter that had to be attended to at once. On credit he hired a couple of teams and drivers, and started a daily collection of refuse, garbage, etc. In a few weeks he had every house, store and building in town on his list of patrons and in a couple of months more his income had crept up to a princely sum. For two years he continued his work, and then he sold out and left for the United States. At Seattle he again changed back to his own name and starting to practice achieved a great success.

Men Past Sixty in Danger.

More than half of mankind over 60 years of age suffer from kidney and disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for 20 years, although I am now 91 years old." T. F. Laurin, Owl Drug Store.

REVOLUTIONIST ARRESTED.

HAVANA, Aug. 9.—Saguierro, alleged chief of a band of revolutionists in Santiago province has been arrested. He is alleged to have been concealed in a house in Santiago City. Of all the bands reported lately his is probably the only one which really existed and even this never consisted of more than six men. When it was disbanded Saguierro sought refuge in the city with three others who were also arrested.

KINGSTON, Ja., Aug. 9.—Summonses taken out by plaintiffs and defendants in the insurance actions, asking for better treatment regarding the fire and great earthquake, were answered in the local court yesterday. The most important point made was that the insured must prove the origin of the fire at the trial of the cases.

FINGER NAIL SCRATCH RESULTS IN DEATH

A short time ago you may have read of the remarkable case where a simple scratch of the finger nail caused death by blood poisoning. At first it was only an annoying itch caused by summer rash. This was scratched by the finger nail to relieve the itch, but the skin was torn open, the irritation became worse and finally resulted in a fatal case of blood poisoning.

Do not scratch or rub the itch or irritation caused by summer rash, mosquito bites, hives, prickly heat or any form of skin disease or itch. D. D. D. Prescription, the best known remedy for eczema and all forms of skin diseases, externally applied, will at once stop the irritable itch. It soothes and cools the skin and permanently cures the itch or disease. Infants and children are saved many hours of agony and torture from the unbearable itch if a few drops of D. D. D. is applied to the afflicted parts. Remember—the itch is instantly relieved. Call at the store of Charles Rogers, Astoria, Or., and you can get a bottle. Try it.
