ONE PIANO NUMBER WITH EACH \$5.00 SALE AT WISE'S

WISE
sells
"High Art"
Clothes

Fall styles are here.

We do not like
To make remarks
On other dealers' styles,
But, lord! we see
Such rigs sometimes!
We can't repress our
smiles.

We don't think that most men dress badly. Sometimes they make mistakes, that's all. Every man wants to dress correctly; a great many do.

We don't make the styles. It's our business to select the best from the designs that are offered each season. If "Best" were a comparative term, we would say that we select the very best clothing from the very best manufacturing tailors.

"The Best Clothes that are made." That was the first stone in the foundation of our business. Then we made the price of our clothing—the Best Clothing—the same as that of the ordinary kind. Most men know our policy. If you haven't learned it, we would like to meet you the next time you need a suit or a hat or a negligee shirt, or anything that the best kind of a clothing store should carry.

TERSE TALES OF THE TOWN

At the Hospital—
No new cases were reported at St. Mary's Hospital yesterday.

New Citizen To Be—
John Martin Maack, a native of Germany, filed his first papers applying for citizenship, yesterday.

New Book at Library—
"Science and Health" is the title of a new book received at the library, a donation from the Christian Science Gathering, of Astoria.

In the Police Court—
Two would-be pugilists forfeited their bail of \$10 each and one drunk got two days in the city jail as a result of Judge Anderson's labors in the police court yesterday.

W. C. T. U. Picnic—
The W. C. T. U. will give a picnic to Fort Clatsop, Thursday, the 22nd. The steamer Pilot will leave the Telephone dock at 9:30. 3Fare for the round trip, 50 cents. Children attended by their parents, 25 cents. 8-20-31.

On a Camping Trip—
Dr. W. A. Logan and wife and W. A. Elgner and wife left this morning for Jewell. The party are well prepared for a two weeks' camping trip and no doubt will have a pleasant time. What will the poor suckers do, who have toothache, while Doc is gone?

Buttermilk Will Be Scarce—
Al Johnson and wife, his brother, Chris Johnson and wife and Lud Carlson, wife and son, returned last night from Jewell, where they have been spending a two weeks' outing. The party thoroughly enjoyed the trip especially "Al" who took advantage of the trip to try to use up the buttermilk supply of that section. Buttermilk is "Al's" strong suit and he surely shows it in that respect on this trip.

A Canard—
A supposed case of attempted suicide was reported on the streets yesterday and when the case was looked up by a reporter it resolved itself into what appeared to be a bluff. A physician well known in Astoria was hurriedly called to the gas works to attend a man named Bidwell who it was reported had committed suicide. The physician examined the residue of what the suicide had taken and remarked that if he took much of it he would become a fat man. He was in no danger and there was no need for the physician's services.

Orino Laxative Fruit Syrup is sold under a positive guarantee to cure constipation, sick headache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can any one do. T.

FISH LICENSES ARE BEING GRANTED

FISHERMEN ARE CHARY ABOUT TAKING NO. 13 LICENSE—WARDEN VAN DUSEN IN SOUTHERN OREGON.

H. B. Van Dusen, master fish warden, is in Southern Oregon on business connected with the fish hatcheries. He left down the coast and will probably visit the Alsea station and approve its selection by the local superintendent there. He will make other inspection visits to the stations on the Coquille and Yaquina Bay hatcheries.

At the present time there are many applicants coming into the fish warden's office for licenses and to date yesterday there had been received 134 applications for gill net licenses and 209 applications for set net licenses. Most of the licenses are granted to fishermen on the streams of Southern Oregon.

In the list of licenses there is no No. 13. No fisherman will have this license so the department issues none. This is superstition and goes to show of what vital importance the fishermen regard it.

CIVIL SERVICE EXAMINATIONS.

Secretary C. L. Snyder, secretary of the twelfth civil service district, located at San Francisco, has notified the local officers of the custom house that examinations for several departments of the civil service will soon be held. The examination will cover positions for every branch of the service.

An examination for the position of marine engineer, customs service, will be held at the custom house in this city on September 18, 1907. For application blanks and full information relative to the examination, qualifications, duties, salaries, etc., address secretary board of Civil Service Examiners, Custom House, Astoria.

Hay Fever and Summer Colds.

Victims of hay fever will experience great benefit by taking Foleys Honey and Tar, as it stops difficult breathing immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. T. F. Laurin, Owl Drug Store.

W. U. BELIEVES IN ASTORIA

COMPANY WILL INSTALL IN THIS CITY AN ABSOLUTELY MODERN OFFICE AT CONSIDERABLE EXPENSE—RESULT OF ADVERTISING

The fact that the Western Union Company is to move its office from its present location to No. 160 Twelfth street, alongside the new Weinhard-Astoria Hotel, October 1, has more significance than appears on the surface of the statement. The Western Union will not only change its location but will spend several thousand dollars in doing so and in fitting up the office and the A. D. T. wires in the city. The office will be one of the most modern on the coast when completed and there will be an addition of the American District Telegraph of 150 boxes in this city and the present boxes will be rewired and renewed.

R. T. Reed, superintendent of the Northwest or second district of the Western Union, comprising the States of Oregon, Washington, Idaho, and Montana, would not spend all that money in fitting up a new office if he was not well assured that Astoria is going to grow into a big city. He will have an office here that will be second to none on the coast. Mr. Reed, by virtue of his position, is familiar with all the railroad manipulations throughout the country; if he isn't, the head offices of the company are. Wherever a new railroad goes there the Western Union key-men are found. Where the terminals of railroads occur there the Western Union has a large enough office to handle all the business.

It is known that Mr. Reed has recently been in communication with several of the railroad interests which are building towards Astoria and his orders for

a new office on recommendation of C. W. Lamar, the local manager of the company, and it is well to assume that the improvements here with the Western Union, are only made to meet those of the railroad companies.

When Mr. Reed was in Astoria on a recent visit he remarked to Mr. Lamar in connection with the moving of the office:

"The company is making this change because it firmly believes in the future of this city and is merely preparing for the time when it will have to meet more business. Astoria is on the front page of progress and the company is willing to carry out its part. It will not be responsible here with a small office when the city is growing and prosperity is on every side."

Mr. Reed had not been in Astoria and only came after continued invitation by Mr. Lamar and being furnished clippings from newspapers concerning the future of this city. This is one of the best ways of advertising and if every manager of an outside company would furnish its publicity bureau or superintendent with newspaper clippings concerning Astoria there would be more frequent visits from the big men and later on improvements as a result of these visits. It is certainly a good way to advertise and Mr. Lamar's system has shown results.

The office will be finished throughout in oak. The plans that are being drawn now provide for as convenient and as efficient office as the San Francisco office of the company. There will be a waiting room for customers and telegram desks fitted out with blanks, check books and all other documents needed for transacting business over the lines. There will be a thoroughly modern A. D. T. system and employes enough to provide prompt service to all parts of the city.

Warning.

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. T. F. Laurin, Owl Drug Store.

For The Little People.

Every parent in this city should investigate, at once, the new and appreciable shoe for the youngsters, at Charles V. Brown's Commercial street house. They are called the "E. C. Scuffer" and are the very epitome of good wear and real comfort. They are going like wild-fire and the kids themselves are after them because they look so "comfy."

"Regular as the Sun"

is an expression as old as the race. No doubt the rising and setting of the sun is the most regular performance in the universe, unless it is the action of the liver and bowels when regulated with Dr. King's New Life Pills. Guaranteed by Charles Rogers, druggist. 25c.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed: The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Charles Rogers, druggist. 50c.

Morning Astorian, 50 cents per month, delivered by carrier.
