**OIL THROUGH PIPE**

**Southern Pacific Will Carry Fuel 250 Miles.**

**PIPERIBBLED LIKE GUN BARREL**

**Completion of Line Means That Oil Burners Will be Extended Further South—Distribution of Oil Will be Cheaper When Line is Finished.**

CHICAGO Aug. 18.—Contracts have been let by the Southern Pacific Company for the building of an oil pipe line 250 miles long from its oil properties in Kern County, to a point near Port Costa on San Francisco Bay. A novel feature of the line will be the character of the pipe used. This pipe is rifled on the same principle as a gun barrel, the idea being that the twisting motion given to the oil will make pumping easier. Experiments have in fact demonstrated that the rifled pipe will carry a stream of 20,000 barrels of fuel oil every twenty-four hours, and make it possible to locate the pumping stations about 25 miles apart a much greater distance than those heretofore used. The rifled pipe is the invention of two Southern Pacific engineers.

With the completion of this pipe line it is possible that the use of oil burning locomotives will be further extended by the Southern Pacific, which now uses nothing else on its Sunset route. The elimination of smoke, dust and cinders, as well as the economies effected in the use of oil as compared to coal, are the advantages gained both from the viewpoint of the traveler and the railroad. The building of the new California pipe line will enable the Southern Pacific to distribute oil very much cheaper than it can now be done by tank cars, and the project of bringing a large supply of fuel oil so close to San Francisco will have an important industrial influence in California, which as a manufacturing state has always been hampered by lack of cheap fuel.

**LEE WILLARD COMPANY.**

The Lee Willard Company left for Tillamook at 4 o'clock this morning where they will remain for one week. They will return after that time to continue their engagement here. During the County Fair at Tillamook they will entertain the people there and it is hoped that they will be appreciated as they deserve. Mr. Willard and his splendid company have made many friends in Astoria and there is no question but that they will repeat their Astoria success in Tillamook. The Willard Company is not a barn storming troupe by any means, but a well selected company of capable players whose painstaking efforts to pleasure must be appreciated. Last night they produced "In Old Vermont State" which was heartily enjoyed by a good sized audience. Mr. Willard made a few remarks between acts in his usual happy manner before the curtain that were enjoyed. Astorians will wait anxiously for their return.

**A DISAPPOINTMENT.**

Sunday's Returns at Canneries Gratifying—Yesterday's a Disappointment. A good catch was the result of Saturday's fishing and as a consequence the canneries and cold storage plants were working Sunday in several instances. The returns on Sunday were about double of any day during the past week. A visit to several of the canneries showed a force working up the fish received, in anticipation of yesterday's returns. The class of fish received was also better than previously brought in. It was not considered as a run but judging from the results obtained during the last week—spasmodic. The fish were taken in different localities and the catch was pretty evenly distributed. Up-river was well represented particularly from the seining grounds the fish though being smaller were plentiful. Yesterday the returns were but one-half of that of Sunday on an average. The lower river fell off while the up-river sent in good returns, yet the total catch was but about as had been received during the past week. This being the last week of the season much interest is being taken and today's results are disappointing.
