NIAGARA ON FIRE

Great Cataract is to be Illuminated With Electricity.

WILL SHOW RAINBOW COLORS

Nearly Fifty Large Searchlights Will Be Employed With Color Scintillators To Produce Wonderful Color Effects By Brilliant Light.

BUFFALO, Aug. 20.—The night illumination of the mighty torrent at Niagara Falls is now assured and the plan for lighting the mist and water is unquestionably the greatest feat ever conceived in electrical illumination. The great falls, bathed in dazzling light surpass in grandeur and spectacular effect anything of its kind ever seen before.

W. D. A. Ryan, illuminating engineer, has the work in charge and the falls were illuminated for the first time the night of August 15th, 1907. The lighting scheme for this enormous undertaking is on a scale never attempted before and a new invention the Color Scintillator, is utilized for producing color effects which make the falling water far more beautiful and impressive by night than by day.

A battery of nearly fifty searchlights several of them the largest of their kind and capable of throwing a beam of white light 125 miles, are located below the falls. A portion of the projectors are set down near the water's edge opposite Goat Island so as to play a rising illumination on both the American and Canadian Falls. Another battery is placed on the high ground on the Canadian side to throw a plunging light on the falling water and flying mist. The projectors are powerful enough to cover every inch of the torrent with a brilliant white light. All alone the big searchlights are an exhibition worth traveling far to see, but when used in connection with the new scintillators the wonderful effect which can be produced beggars description.

The color scintillator consists of a net work of steam pipes which will be used to augment the cloud effects of the flying mists. In front of the big light projectors are mounted wheels containing large gelatin disks which are revolved slowly. With the changing of the color disks the beams of light are variegated with kaleidoscopic effect producing a color scheme on the mist and water only excelled by the Great Northern Lights. This apparatus was but recently perfected by the engineers of the General Electric Company and has never been used before here or abroad although it was given a thorough test a few months ago. The color attachments tint the waters carmine crimson, orange, yellow, green, blue violet of the purest shades and the rising clouds of mist blend the colors into hues and tints like a glorious sunset. It is even possible to produce an artificial aurora borealis and the colored beams reaching far into the sky, will be visible in Toronto and Rochester in such volume as to cause comment. The program for illumination will be changed every night and in the winter time the color effects on the ice, snow and frost coated trees of the surrounding country will be spectacular indeed.

The entire proposition is to illuminate Niagara in a distinct and dignified manner on a scale in keeping with the surroundings. The possibilities of the apparatus installed are limited only by the imagination of the manipulators. It is possible to produce colored figures, snakes and dragons, flags and a thousand and one different novelties. The apparatus possesses the spectacular effect of fire-works on a grand scale without the fire hazard and danger.

For many years it was planned to illuminate the great falls but no scheme was deemed practical until the General Electric Company submitted plans to utilize two batteries of searchlights with the new color scintillators.

What One Enjoys.
At Otto Sund's pretty and cozy resort "The Commercial," one finds all that the inner man desires in the refreshment line and of the best quality too. To pass a little time in such a neat place and spend it in pleasant conversation with genial friends, probably a little business talk, is, to say the least, enlivening. Courteous treatment is another thing that is appreciated and one receives it from Otto himself who takes charge during the day and from his pleasant night manager both of whom dispense the best to be had. "The Commercial," 509 Commercial street, is well known and widely patronized.

Why Fret and Worry

when your child has a severe cold. You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for Colds, Coughs, Whooping Cough and Bronchitis.

Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup on my children for five years. Its results have been wonderful." Sold by Hart's Drug Store.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs. Many thousands of women have realized this too late to save their health, barely in time to save their lives. To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study. If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs. It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration, and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female system. It is an excellent remedy for derangements of the Kidneys in either sex.
