**Hugo Colelle Drowned But He is Heard From Again.**

**ON BOARD CLYDE STEAMER**

**It is Now Supposed That When He Went Swimming he Was Led Out to Sea and Was Picked up by Steamer—Was Good Swimmer.**

NEW YORK, August 21.—A remarkable story of a man who went for a swim, disappeared and naturally was supposed to have been drowned, but who now has turned up at sea aboard a steamer, developed yesterday.

Edward Hugo Colelle, a well known real estate dealer of Brooklyn, disappeared from his summer home at Rockaway Park at midnight last Tuesday. He had started out for a swim and it was feared that he had been drowned. A wireless message was received by his family Tuesday night from the steamer Hera, a southbound Clyde, saying that he was aboard that vessel. How he got there is at present a mystery.

According to Mr. Colelle's family he had been in the habit of years of taking a bath in the surf late every night. When he left the house Tuesday night for the shore he wore only a bath robe, an overcoat and a pair of slippers. This apparel was found in the morning on the beach and search had been made ever since for his body.

Colelle was a strong swimmer, and his family and friends believe, therefore, that he was carried out to sea by a strong wind, and managed to keep afloat till picked up by the steamer.

**BONDS GO BEGGING.**

**Large Interests Don't Want New York Four Per Cent.**

NEW YORK, August 21.—The city had no more success yesterday in selling its bonds "over the counter" than it has had in the last two public sales. Of the \$12,000,000 odd bonds which remained on hand after Monday's public sale only about \$500,000 were disposed of yesterday, and at least four-fifths of this amount were taken by contractors to whom the city is indebted and who consented to take part payment in bonds rather than wait three or four months for cash.

Although several applications for stock were received by mail, the actual sales over the counter were so few and for so small amounts that the officials of the finance department balked at making public the details. Deputy Comptroller McCooey said that as the bonds were coupon bonds and that one purpose of issuing that class of script was to prevent the names of buyers becoming known he would not be justified in giving any particulars. One woman asked for \$30 worth. She got a receipt for her deposit in proper form and in due time will get an engraved bond signed by the mayor, the comptroller and the city chamberlain. But it is the intention of the city authorities to discourage the "popular" purchases. While the small investor can buy a city bond as small as \$10, it costs the city as much to get one out as to get out a \$1,000,000 bond.

The big bond dealers of Wall street do not show any disposition to take up the 4 per cent. None of them asked yesterday for allotments. In a statement issued yesterday Mr. McCooey frankly admitted that the situation was one that called for further legislation. He said: "One of the matters that will be brought to the attention of the next Legislature will be a bill to exempt municipal bonds from franchise and bank taxes where such bonds are found to form a part of the capital, surplus and undivided profits of financial institutions in the state. Such institutions in New York City now hold \$150,000,000 of city bonds. With the amendments proposed a field would be opened for the city to dispose of \$450,000,000 additional to such institutions, which would doubtless under the new conditions be very glad to accept them."

**Miners Hold Session and Discuss Hospital Question.**

SEATTLE, August 21.—Arrangements for hospitals and physicians were discussed at today's session of the conference of the United Mine Workers and operators at the Labor temple.

The men demand the adoption of a general plan similar to the one in use at Roslyn and Cle Elum, where the men maintain a hospital which is managed by a board selected by the miners. In other mines the company hires the physician and the men are forced to pay his salary. They allege that in most cases the men chosen are old and incompetent and, knowing that the laborers are powerless to discharge them for neglect, they are often careless in the performance of their duties.

The question of the semi-monthly payday was taken up this morning, but was postponed indefinitely and probably will be brought up Thursday or Friday. Much of the remaining part of the demands of the miners are old contentions which will require no discussion, and the members of the committee expect to complete the schedule this week.

**EDDY CASE IS DROPPED.**

CONCORD, N. H., August 21.—Suit brought against the estate of Mrs. Mary Baker G. Eddy was formally withdrawn today and further proceedings to determine the mental condition of the leader of the Christian Scientists discontinued. This is said to be the result of a compromise.

This suit was commenced here March 1, 1907, in the affairs of Mrs. Mary Baker G. Eddy, founder and head of the Christian science cult and for the appointment of a receiver.

The plaintiffs in this action, which ranked as one of the most important in legal history, were George W. Glover, the son and only child of Mary Baker G. Eddy, his daughter, Mary Baker Glover, and George W. Baker, a nephew of Mrs. Eddy.

These plaintiffs declared that Mary Baker G. Eddy was mentally incapable of managing her business affairs and vast fortune, and that there was abundant reason to believe that the venerable and mentally enfeebled woman was helpless in the hands of designing persons who had wrongfully converted to their own uses large sums of money and properties of great value belonging to her.
