-- HERMAN WISE, Astoria's Reliable Clothier --

ALARMED AT INFLUX

Japanese Soldiers Overrun All Parts of Country.

TAKE PLATS OF BIG HARBORS

Washington Military Authorities Are Watching Activity of Little Brown Men Who Are Seeking to Know the Strategic Points.

WASHINGTON, Sept. 19.—Some concern is expressed by United States military authorities at the large number of Japanese immigrants coming to this country with close association with the Russo-Japanese war. It is no exaggeration to say that fully 50 per cent of the Japanese who have been deported within the last three months are known to have seen service with the Japanese troops.

Of course this may be only a singular

coincidence. Some of the more apprehensive officials at Washington, however, prefer to take the view that there may be something sinister in the efforts of the Japanese military men to gain entrance into this country. In some cases no attempt is made to conceal the fact that the new arrivals are veterans of the Russo-Japanese war. They wear ragged regimentals and two other relics of hard campaigns of two years ago. Others, however, have nothing about their appearance to indicate that they are army men. They wear the usual plain civilian garb of the impoverished Japanese, and it is only by chance that the immigration officials discover their former occupation.

Commissioner-General of Immigration Frank P. Sargent said today that in every batch of Japanese deported by the United States it is easy to find men who have served in the Japanese army. He added that the Japanese were not sent back because they were military men, but for the fact that they were in the United States without having complied with the new immigration law. This requires that every Japanese not a member of the exempted class shall have a certificate from the Japanese government.

Sargent said that many of these men still wear the costume of the enlisted men. It is reported that recently out of seventy-one Japanese deported, fifty-one were ex-privates and twelve ex-officers.

In view of the well-authenticated

stories of Japanese naval officers serving as cabin boys in the American navy, United States military authorities feel that there is reason for apprehension in the fact that so many former soldiers of Japan are applying for admission here. It is known that the Japanese government is industriously engaged in seeking military information, not only in the United States, but very generally over the globe. A report of our government recently filed in Washington, says that a couple of Japanese attaches at Boston were busily engaged in plotting the harbor. They made no effort to conceal their purpose and one of them frankly admitted that brother officers were doing the same work in other parts of the world.

AGAIN RUNS AWAY.

Young Jack Haynes Has Disappeared Once More.

ABERDEEN, Sept. 19.—Little Jack Haynes, who brought consternation and worry to his parents last summer by taking French leave and who was found later near Elma, has again left for parts unknown. This time it is thought he has gone in company with another boy about his own age, named John McNamee. The lad's mother, Mrs. O. B. Haynes, living at 905 First avenue, telephoned the Bulletin office this afternoon that Jack had left this morning for school as usual and when he failed to return for lunch at noon an investigation was at once started with the above result. As the McNamee boy is also missing, it is thought that the two boys have gone in company with each other.

Mrs. Haynes thinks her son has gone to some of the logging camps in this vicinity and desired the proprietors of the camps to keep a sharp watch for the whereabouts of the lad.

Had Tetter For Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. Breach, Midland City, Ala. Chamberlain's Salve is for sale by Frank Hart and leading Druggists.

Sick Headache.

The disease is caused by a derangement of the stomach. Take a dose of Chamberlain's Stomach and Liver Tablets to correct the disorder and the sick headache will disappear. For sale by Frank Hart and leading Druggists.

TOUCHED BY YOUNG WOMEN.

Gertrude Johnson and Bessie Paxton in Jail Accused of Taking \$110.

EUGENE, Sept. 19.—Last night Bill Vaughn, the well-known horse trader, came down town and swore out a warrant for the arrest of Gertrude Johnson and Bessie Paxton, young women, charging them with robbing him of \$110 in money and a diamond stick pin valued at \$60. The women were located later by the night officers and taken to the city jail. There they gave the officers \$90 of the \$110 and the pin and told them where to find the remaining \$20, which was recovered. Bill says the women were in his room and when he was on for a few minutes they took the money and the pin and left. The women spent the night in jail and were taken before Judge Bryson of the district court this morning at 9 o'clock. There was some doubt in the mind of the judge as to the age of the Johnson girl, he thinking she was under 18, so there has been no action in the case until her age is determined. A subpoena has been issued for her parents to bring them into court to testify in that regard. If it is found that she is under age the juvenile court will handle the case. The Paxton woman is older and she will be tried as soon as the liquor cases, which are now on, are completed.

RULES FOR LETTER WRITING.

Dr. Edward Everett Hale devotes his editorial page in the September number of the Woman's Home Companion to the subject of "Letter Writing."

He calls the attention of his readers to six simple rules that every one will do well to remember.

1. Know what you want to say.
2. Say it.
3. Use your own language.
4. Short words are better than long ones.
5. The fewer words the better.
6. Leave out all fine passages.

As one of the judges in a recent Prize Letter-writing Contest, Dr. Hale had an exceptional opportunity of examining letters from over 30,000 women. Many of these, he says, were ruled out at once because the handwriting was not good. The great besetting sin, however, of letter writers seems to be that they do not know what they want to say when they begin their letter, and flounder about, to the disgust of the reader, until they hit upon a subject. A few minutes spent in thought upon a letter before you begin to write will enhance its interest to the reader many fold.
