

Only 25 per cent of merchants stay in business over twenty-one years

THAT'S WHY WE CELEBRATE

With this Big Sale

# Monday Morning

At 8 O'clock

## HERMAN WISE'S BIG SALE BEGINS

21 years in business, like silver weddings, come to few only.

THAT'S WHY WE CELEBRATE

With this Big Sale

In order to avoid other merchants from grabbing all these bargains we must limit each customer to

- 2 Suits,
- 2 Pair of Pants,
- 2 Overcoats,
- 3 Hats,
- 3 Suits Underwear
- 3 Caps,

and not more than half-dozen Callars, Sox, Belts, Handkerchiefs, suspenders and other similar articles.

# -- HERMAN WISE, Astoria's Reliable Clothier --

### SUSPECT GIVEN FREEDOM.

BONNERS FERRY, Idaho, Sept. 21.—James Sharkey, the man who was arrested here in connection with the Great Northern train robbery at Rexford, will be released. The railroad detectives say there is no evidence to hold him. While drunk he is alleged to have told several that the robbery would take place when it did.

### PROGRESS ON NORTH BANK ROAD.

VANCOUVER, Wash., Sept. 21.—Excellent progress is being made by the Portland and Seattle contractors who have in charge the building of the concrete viaduct through this city. Sixty days will see this structure ready for the operation of trains. It is now confidently expected that the North Bank road will be in readiness for formal opening early in January. This, of course, does not include the strip between Vancouver and Portland which will be held back several months because of the bridges spanning the Columbia and Willamette rivers.

The trestle for the North Bank road through the government barracks reserve was finished several weeks ago. The trestle from Columbia street to the foot of tenth street, where will be located the new passenger depot, is also complete. Track laying will begin from Vancouver as soon as the concrete viaduct is finished.

### HARVESTER CUT TO PIECES.

GARFIELD, Sept. 21.—Andrew Gould who has been working with the Wilson threshing machine this season met with a terrible accident Sunday. Gould climbed on top of the machine to clean out the machine feed, slipped and fell onto the cycles that cut the bands from the sheaves of grain. The knives cut through an inch board first and made several gashes almost the entire length of the victim's back, one rib was cut entirely off, one finger was cut off, and fifty-seven stitches had to be taken in Gould's body before the doctors were through with him.

### CONFESSES TO GOLD ROBBERY.

DAWSON, Sept. 21.—Fred Wright, who was arrested and confessed to stealing gold taken from the mail sacks on the steamer Seattle which yesterday was recovered at the bottom of the river after search, was born and raised in Seattle. He has a mother there. Dick Quins, also a confessed accomplice of the same robbery, is a resident of Kansas. He served in the British army in the South African war for eight years. He has a wife and child living in Vancouver.

### TOWN ALMOST WIPED OUT.

BUTTE, Mont., Sept. 21.—The town of Laurel practically was wiped out by fire this forenoon, which destroyed the business center, and which would have destroyed the entire city had dynamite not been used. The loss is placed at between \$150,000 and \$250,000, and the buildings destroyed include the bank, postoffice and two large merchandise stores.

### HUNG DETECTIVE BY MISTAKE.

Mob of Union Men in Pittsburg Was After Man Who Shot to Kill.

PITTSBURG, Sept. 21.—A mob bent on lynching a non-union mill worker, who had shot some union men this morning, got the rope around the neck of a plain clothes detective by mistake, and had him strung to a telegraph post before the error was discovered. It was only an incident of a bloody battle between union and non-union forces at the 45th street mills.

John Anderson, a non-union iron worker, with a gang of friends, got into a fight with a party of union glass workers, headed by John Manning. There was some shooting and Manning was wounded, perhaps fatally. He is at a hospital and Anderson is in jail. J. T. McCullough, a county detective, tried to arrest Anderson and engaged in a pistol duel at long range with him. After 40 shots were fired the men clinched.

McCullough finally beat Anderson into submission with the butt end of his pistol and got him to the patrol box followed by a mob of 250. Some one got a strong rope and McCullough was lassoed by mistake. He was being drawn up to the arm of a telegraph pole when friends managed to cut the rope. The detective was badly hurt.

### THOUSANDS OF ACRES.

COLVILLE, Sept. 21.—G. H. Plummer for the Northern Pacific Railroad Co. this week filed with the county auditor a patent to 21,154 acres of land in the state of Washington. The patent was issued by virtue of the act of Congress, July 2, 1864, authorizing the grant of lands in aid of construction of railroad and telegraph lines. The patent conveys parcels of land in almost every county in the state lying within the indemnity lines of the Northern Pacific railroad, including, however, only the odd sections in townships 35 and 36 north, of range 43 east, in Stevens county.

### UPHOLDS MARSHAL.

SILVERTON, Ore., Sept. 21.—The people of Silverton have been in a great turmoil for several days with animosity engendered by the alleged violation of the Sunday-closing ordinance by C. N. Matlock, a saloonkeeper of this city. The conditions seemed to have reached the limit Monday evening when the city council voted not to prosecute the case pending and to sustain the marshal in his refusal to serve the warrant which had been placed in his hands.

### BIG BOILER BURSTS.

Briedwell Warehouse Engine Wrecked and Engineer Painfully Injured.

DALLAS, Or., Sept. 21.—The engine and engine house at the Briedwell station warehouse were totally wrecked by the explosion of the boiler early Saturday morning. The engineer escaped with a broken collarbone.

The explosion occurred at an early hour, while the engineer was getting up steam. The firebox was blown about 50 yards to the west, and the boiler was driven into the wall of the warehouse, 50 yards to the east. The engineer was standing just outside the door when the explosion took place. Had he been in the building, he doubtless would have been killed instantly.

It is supposed that the water in the boiler ran low, or that the safety-valve failed to work. The boiler was an old one, having been in use at the warehouse for many years.

### DOCTOR FINDS HIS CHILD.

Baby Girl Fatally Hurt by Automobile Was Carried to Father's Office.

SPRINGFIELD, Mass., Sept. 21.—Pauline H. Reardon, six and one-half years old, the daughter of Dr. Thomas C. Reardon, was struck and fatally injured in front of her home today by an automobile owned by Dr. Charles T. Hooker and driven by Ernest F. Southard. Dr. Hooker, without knowing who the girl was, carried her into Dr. Reardon's house. The latter's first knowledge of the accident was the sight of his child lying on his own operating table. The child died soon afterward. Southard was arrested for manslaughter.

### PERU BUYS AN OLD CRUISER.

Pays \$50,000 for Italy's Dogali and Renames it the Callio.

LIMA, Peru, Sept. 21.—The government has bought for \$50,000 the Italian cruiser, Dogali, which has been renamed Callio.

The Dogali was launched at Elswick, England in 1886, and was bought by Italy in 1887. Her tonnage is 2,988, length 250 feet, beam 57. She is built of steel. Her armament is composed of six six-inch guns, nine six-pound quick firers and six machine guns. She has a two-inch steel deck and conning tower, and steel shields for the guns. She is a twin-screw vessel with from 17 2-3 to 19 2-3 knots speed. She carries a crew of 245 men.

### SUBMARINE GOES 222 MILES.

French Craft Competes Longest Voyage For Vessels of Its Class.

PARIS, Sept. 21.—The submarine boat, Opale, finished the longest voyage ever made by a vessel of that class, traveling from Cherbourg around Brittany to the Isle de Roix and back on her own resources without any stoppage as a test of her sea-going capacity.

The distance traveled was 222 miles, and she made it at an average speed of eight knots. The voyage included several difficult places, notably the doubling of Quessant and going through the Raz de Seigne.

### CZAR GETS ANOTHER YACHT.

Polar Star Hurried to Imperial Couple to Take Place of Standart.

COPENHAGEN, Sept. 21.—The Russian imperial yacht, Polar Star, left here tonight at full speed for Finnish waters for the use of the Czar and his family, who were compelled to abandon their yacht, Standart after she stranded at the mouth of the Gulf of Finland Wednesday.

The orders for the yacht came last evening necessitating work all night in removing the belongings of the Dowager Czarina, which were taken to the Amelienborg Palace.

### FINDS GOLD MINE IN YARD.

PETALUMA, Cal., Sept. 21.—F. B. Engle of the Schluckebier Hardware company, in this city, has a gold mine in his back yard on English street. While engaged in digging a well on his place Engle who is an old miner struck gold-bearing quartz. He has had the gold quartz assayed with a result of \$20.87 to the ton.

Attack Of Diarrhoea Cured By One Dose Of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by Frank Hart and leading Druggists.

## Wearbetter

# CHILDREN'S SUITS

"Better Wear WEARBETTER"

Mothers: there are two important things to be considered when you buy children's clothes. First, the quality of the garments — are they serviceable and practical — are they dressy and pretty — and will they be becoming to your children. Second, the price — are you getting the full value for the money you pay.

To economical mothers who want the very best clothes for their children at moderate prices we recommend Wearbetter garments.

These are the clothes that wear better—look better—fit better than any others.

Buster Brown suits—Sailor suits—Eton Norfolk suits and other pretty styles, in a wide range of fabrics, patterns and colorings.

\$2.50 to \$10.00

And don't forget that we carry the largest and choicest line of Boys' school suits.
