MONUMENT TO ROCKEFELLER.

E. G. Lee Expresses Admiration For
Richest Man.

DENTON, Texas, Sept. 28.—A monument of Pohn D. Rockefeller is being erected by E. G. Lee, two miles south of this town, where two much-traveled roads cross. Of course, it is unusual to put up a monument to a man before he has been gathered to his forefathers.

"I know that the monument should be postmortem," said Mr. Lee, a man of great intelligence. "I know you cannot write epitaphs in the present tense. But Andy Carnegie and Teddy Roosevelt have set the example, only Andy is working up, building libraries, and Teddy is working down, digging pits.

"I consider John D. Rockefeller the greatest man in the world," Mr. Lee continued with emphasis. "I am trying to induce him to come here and live where he won't be hunted and persecuted. I want him to run on the democratic ticket for president next time; he would be elected. You see, the pedestal is nearly completed. It symbolizes Mr. Rockefeller's natural strength, breadth and depth.

"I have ordered the statue itself from a bronze casting firm in New York City. No, I will not tell you which firm, because, like Mr. Rockefeller, I shun publicity. I am spending \$15,000 on the statue and pedestal. I expect Mr. Rockefeller and his kin to be here for the unveiling, which may be next November, and if not then, in the early spring.

"He has assured me that nothing except business can keep him away. So I am very hopeful that he will be here, for he testified the other day, you will remember, that he had not been attending to business for some years. Anyhow, whether he is here or not, the monument will be unveiled.

Despite the difficulty of wording epitaphs in past or present, Mr. Lee has quite a large collection from which he expects to make a selection.

In letters of bronze there may be on one face of the pedestal:

"He never cared for money for money's sake."

On another face the following:
"Christopher Columbus discovered the country."

"George Washington liberated the

country.
"Abraham Lincoln united the country."
"John D. Rockefeller illuminated the country."

And on a third face:
"Million's burn oil; he burned money for the sake of charity and learning."
The statue will stand on the top of a mass of rocks piled 60 feet high the circumference of the base of the mass being 100 feet.

RADIUM IN TUNNEL.

Scientist Makes Surprising Discovery
In Alpine Bore.

GENEVA, Sept. 28.—A newspaper states that Professor Joly has completed a geological examination of the strata encountered in the boring of the Simplon tunnel. He found rich traces of radium, indicating larger deposits than any previous discovery. He believes that the presence of these deposits caused the abnormal heat experienced in building the tunnel. He predicts that continued research will prove the supply of radium to be greater than was supposed.

Attack Of Diarrhoea Cured By One Dose Of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart, of the firm of Stewart & Bro., Greenville, Ala. For sale by Frank Hart and leading Druggists.

Lame Back.

This is an ailment for which Chamberlain's Pain Balm has proven especially valuable. In almost every instance it affords prompt and permanent relief. Mr. Luke LaGrange of Orange, Mich., says of it: "After using a plaster and other remedies for three weeks for a bad lame back, I purchased a bottle of Chamberlain's Pain Balm, and two applications effected a cure." For sale by Frank Hart and leading Druggists.
