Mr. Gaze says he is going to remain in New York long enough to teach society women who now use cosmetics to hide the marks of years his secret of eternal youth. the Letter L.

"I got hold of a gold coin a short time ago, and it was marked with a letter L, which I supposed had been stamped upon it by some one who wished to keep watch as to whether he ever had it in possession again. I paseed it along, to my landlord, I think, and thought nothing more about it for several moaths. Then I found out that I had been passing 'light' coin."

"How is that?" was the question of

"All colus, whether gold or silver, upon which a large L is stamped are light weight. When you get one of these stamped coins, the only thing to do is to take it to some assayer, who will weigh it and pay you about 10 per cent less than the face value of the coin for it. He will then place it in a crucible to be melted into gold bullion.

"The government itself mutilates these coins and in so doing turns the ruined currency right back into circulation, where some innocent party will become victimized by them.

"When the light coins are tendered for duties on imports they are weighed at the custom house, quickly stamped L for light and returned to the importer. If the latter cannot pass the coin off, he must take it to the retort to be melted.

"The light coins may be rendered light in the ordinary course of abrasion in circulation or they may have been sweated by parties who sell the gold dust thus bruised off the coin. The common mode of sweating is to place a number of gold coins in a sack and shake them up for a long time, when the gold dust will gather at the bottom of the sack."-Utica Observer.

Mules and Gray Horses.

"I wonder if that truck driver knows of any good reason for hitching that mule with the gray horse?" remarked a Georgian as he saw such a team halted at Chambers street and Broadway. "Let's ask him."

The driver only knew that the team was always driven together by order of the stable boss.

"Well," went on the southerner, "since I was a child I've always seemed to know that mules will follow a gray horse or hitch with him where they won't have any truck with a horse of any other color. I've seen the most unruly mules behave properly when er heard a good reason given for the

### A SILLY TRAGEDY.

The Duel Between Tom Porter and Sir Henry Bellasis.

Some of the royalists who were forced to endure the English commongovernment by fighting as many duels the history of their days.

Tom Porter was of a family which had zealously served the king. Under the new government his occupation was gone, and he descended to a triviality of life which finally involved him in a most pathetic event. This was a duel which he fought with his friend, Sir Henry Bellasis, and which, says Pepys in his "Diary," is worth remembering for "the silliness of the quarrel, \* \* \* a kind of emblem of the general complexion of the whole kingdom."

But, silly as the quarrel undoubtedly was, it carried in it an element of heart-

The two young men involved were intimate friends and companions, but one day, "being merry in company." Tom Porter said he should like to see the man in England who would dare give him a blow. With that Sir Henry Bellasis struck him a box on the ear. The inevitable duel followed, wherein each was wounded. Sir Henry proved to be seriously hurt, so he called Porter, kissed and bade him fly.

"For," said he, "Tom, thou hast hurt me, but I will make shift to stand upon my legs till thou mayest withdraw, for I would not have thee troubled for what thou hast done."

Porter profited by his friend's generosity and escaped to France. Sir Henry dled a few days later, and Pepys concludes, "It is pietty to see how the world do talk of them as a couple of fools that killed one another out of
