PLEASANT MESSAGE RECEIVED

WIRELESS MESSAGE RECEIVED BY SAMUEL ELMORE FROM MR. AND MRS. HARRADON AT SEA—WIRELESS POSSIBILITIES.

One of the fine features of wireless telegraphy was demonstrated yesterday when Samuel Elmore received a wireless message from Mr. and Mrs. Harradon. Mr. and Mrs. Harradon left Seattle on the steamer Governor, on Friday, and the telegram is dated yesterday, while the vessel was well on its trip. It was a pleasant surprise to Mr. Elmore to receive the following:

"On board steamer Governor, November 2nd, 1:55 p. m. Samuel Elmore, Astoria, Ore.

"We are well and happy. Having a fine trip. Will be in San Francisco Monday.

"Mr. and Mrs. F. H. Harrodon."

The message was picked up by the wireless station at North Head and transmitted to Astoria over the Western Union's lines. Not only was the receipt of the message a pleasant thing for Mr. Elmore, happy as a boy with new red-top boots, but will be also pleasant reading to the many friends of this well known and popular couple. The possibilities of wireless telegraph, in connection with just such cases as this, will soon be realized. Local Manager Lamar, of the Western Union Telegraph Company, at the request of an Astorian reporter, furnished some valuable information on the subject.

The vessels now plying the waters of the Pacific Coast from Nome, Alaska, to San Francisco that are equipped with wireless apparatus for public usage and convenience are the President, the Governor and the Roanoke, while the Elder, Queen, the City of Pueblo, and the Old Lawton are being equipped and will be in the service within a few days. The principal station on land for relaying the Commercial business from these vessels, for the northwest, is the United States naval wireless station, located at North Head with direct Western Union wire connection to Portland, from which point the business is distributed to all parts of the United States, for which business is tendered.

Time was when people were skeptical of advanced methods and appliances and looked upon new fangled conveniences with distrust, but apparently this time has seen its day, as the eagerness with which the public rush to make use of this means of communication, while yet scarcely understood by the best informed, is attested by the number of telegrams transmitted so far as from the Governor, on her recent trip from Nome, to Puget Sound. She came into communication with North Head while still 2000 miles distant, first reporting the weather conditions and then offering telegrams, many of which being of business importance, and others of a felicitous nature. Of the 800 passengers aboard, one-third communicated with friends, or relatives, telling of their sea experiences and setting the date of arrival. Two large business deals were consummated, while in return they were furnished with hundreds of words of daily news items and market reports. It is estimated that one-fourth of the passengers, on board a wireless equipped vessel, make use of this system as freely as the land service though it is all the more complex and incomprehensible.

SAN FRANCISCO ELECTIONS.

Importance Issues to be Presented to Bay City Voters.

SAN FRANCISCO, Nov. 2.—Issues of far more importance than are commonly involved in a municipal election will come before the voter of San Francisco Tuesday. Behind the leading names on several party tickets are the survival of so-called bribery graft prosecution as conducted against indicted corporation officials by F. J. Heney and confirmation or rejection by the voting majority of the new order of things which followed the overthrow of the Ruef-Schmitz regime and the ousting from office of the bribed board of supervisors.

Though there are 32 offices to be filled by election, all but two of them, Mayor and district attorney, are subordinate in interest.

For Mayor the regular Republican organization has nominated Daniel A. Ryan, a young and active member of the San Francisco bar. The Democrats and good government league have fused on the incumbent, Dr. Taylor. The Union Labor Party has nominated P. H. McCarthy. District Attorney Langdon, who appointed Heney to conduct the bribery graft prosecution, goes before the people on three nominations, Republican, Democratic and Good Government League. His opponent is a Union Labor Party nominee, Frank McGowan, formerly an assemblyman and state senator.

Chapped hands are quickly cured by applying Chamberlain's Salve. Price, 25 cents. For sale by Frank Hart and leading druggists.

CHAMBER COMMERCE MEETS MONDAY

REPORT OF ROADS AND HIGHWAYS WILL BE MADE ON OCEAN BEACH AUTOMOBILE ROAD—SEAWALL PROJECT WILL BE CONSIDERED.

The regular meeting of the Chamber of Commerce will be held Monday evening when the report of the committee on roads and highways, F. A. Fisher, chairman, will be made upon the ocean beach automobile road. The newspapers of Portland, as well as the Portland Automobile Club, are assisting in this matter as much as possible.

All of the Portland papers have had both local and editorial articles upon the subject. The Journal of Friday gave this road an exceptionally lengthy and encouraging editorial, while the Oregonian has published a column local article about it, accompanied by a five-column map.

Considerable new matter about the seawall and filling in proposition will come before this meeting and the subject of electing a delegate or delegates to the Rivers and Harbors Congress to be held in Washington early in December, will also be up for consideration.

A communication from Col. Roessler, United States Engineer, telling of the success the government dredge, Ladd, between Astoria and Ft. Stevens, is on hand and will be read.

It is well to remember that the end of the year is now rapidly approaching and that the question of electing officers of the Chamber for the next year is one that will soon come up for serious attention. The work of the chamber is now systematized, and while most of it so far has of necessity been preliminary, yet the members are offering expressions of the highest approval and encouragement. The tremendous advertising campaign that is being conducted promises to yield most satisfactory and profitable results, and as a matter of fact, is already doing so from day to day.

FOOTBALL TODAY.

Astoria Will Meet Albany on the Grid-iron Field This Afternoon.

The first football match, of this season, to be played in Astoria, will be that between the Albany Athletic Club and the Astoria team. The local boys, with blood in their eyes, have been faithfully practicing for the game, according to Manager Jackson, and the spirit of hospitality alone, will prevent them from annihilating the visitors, entirely. This is one side of the story; the other side will be heard today. The Albany boys are a "husky bunch of kids" and no doubt will object to the annihilation, in fact in this particular game, they will "kick." A good natured, though keen, rivalry exists between the teams and a lively game is expected. The trouble will commence at 2:30 at the ball grounds, and the following will be the line up for Astoria:

Center, Johansen; right guard, Busan; left guard, Gramme and H. Larson; right tackle, Minard, Capt; left tackle, Morrison and Bay; right end, Hughes and Larson; left end, Hoover; quarter back, Holmes; right half back, Carlson; left half back, Graham; full back, Stibick; subs, Upshur, Malagamba, Jeldness and Wright.
