

## MARKET STILL FEELS PINCH

### Operations on the Stock Exchange of Small Volume But Upward Tendency.

## GOLD ENGAGEMENTS HELP

### Lusitania Coming With More Gold—Meeting at Morgan's House of Leading Bankers Helps to Relieve Tension on Operations.

NEW YORK, Nov. 6.—The small volume of transactions in stocks today index how far the financial conditions still hamper the conduct of operation in the market, but a strong upward tendency in prices is convincing evidence of returning confidence of the values of securities. Brokers on the floor of the stock exchange summoned up the situation by saying that stocks were scarce. A meeting of the bankers at Morgan's house last night and today's announcement that adequate measures would be taken to support trust companies did much to inspire belief that confidence would be restored at an early day. The further engagement of gold for import gave additional promise of still further relief for money conditions. The prospect of seven per cent from the Bank of England discount seems not to impair confidence that the gold import movement will continue.

## APPLE CROP SMALL.

NEW YORK, Nov. 6.—The apple crop of the United States for 1907 as estimated by the American Agriculturalist in its report to appear on Nov. 9, scant 94,000,000 barrels, material short of last year. What is of great importance is the shortage in such commercial orchard sections as western New York, nearly all of Michigan and the entire Southwest. There is what may be set down as an absolute failure in Kansas, Missouri and Nebraska.

New York state has a good many apples, but they will be needed, and for that matter the total is only about one fourth to one third of the full yield. Pennsylvania has fairly abundant totals. New England has rather more apples than last year, due solely to the fact that Maine has a good crop.

## WANT FEDERAL BANK

### Chicago Great Western Official for National Institution.

## LARGE AMOUNT IN TREASURY

### Government Keeps Immense Sums Tied up in Depositories While Banks Are Making Herculean Efforts to Provide Cash For Country's Needs.

ST. PAUL, Nov. 6.—President A. B. Stickney of the Chicago Great Western Railway Company in a published interview advocates, a national bank in which the government shall deposit its treasury funds. He said:

"Official reports of United States Treasury show on last Thursday, October 31, there was locked up in the sub-treasury, idle and useless, the enormous sum of \$127,170,059 actual cash, while banks in all the reserve cities of the United States had suspended cash payments and the movements of crops had stopped and laborers were compelled to accept checks for wages instead of cash, all for the want of currency, which want of currency New York banks were trying to relieve by importing about \$30,000,000 in gold, or about one-quarter of the amount held in the treasury, idle and useless. Can any system of government banking be conceived which would produce a more absurd result?"

"Let us have a national bank which is not only good enough for people to deposit money in, but good enough for the government to deposit its money in."

Later.—The officials of the bank estimate the liabilities at \$2,500,000, including \$610,000 due other banks and the assets at \$3,000,000 including \$18,000 in cash exclusive of trust funds.

## CURRENCY INCREASES.

### Chicago Bankers Hopeful That Coin Will Soon be Paid.

CHICAGO, Nov. 6.—A sentiment among some of Chicago's leading bankers that the time is fast arriving when a resumption of cash payments would be feasible and desirable and was one of the encouraging features of the local banking situation yesterday. This sentiment was based on the increasing supply of currency being

plied up in some of the banks. In one bank it is said the supply of cash is not far from \$20,000,000, and the deposits at that institution since the banks adopted the clearing-house certificates have amounted to several millions of dollars.

Nevertheless the clearing-house committee will have before it today the detailed form of credit checks, which may be issued under the authority of the clearing-house association. These forms were being worked out in detail last night and adopted will be a medium for exchange for universal use, as convenient as cash. It is likely these credit checks or certificates will be in use before the resumption of cash payment becomes a reality. Word came from Washington last night that clearing-house checks in small denominations to be used as a convenient medium of exchange would be held by the government to be legal. An opinion by Attorney-General Olney, given in 1893, was cited as evidence that they would not be considered a violation of the currency laws.

## ANTI-GRAFTERS VICTORIOUS

### Election Veritable Landslide For Good Government League Supporters.

## LANGDON'S POLICY UPHELD

### Plurality of the Candidate for District Attorney is San Francisco's Answer That His Campaign for Civic Righteousness is Approved.

SAN FRANCISCO, Nov. 6.—The election in this city yesterday proved a veritable landslide for the anti-graft leaders and returns from every precinct so far received, show that the Good Government ticket has been overwhelmingly elected from top to bottom. It is estimated that Mr. Taylor has been elected by a plurality of more than 11,000 votes, while District Attorney Wm. H. Langdon has so far a majority of 16,000 votes over McGowan his opponent. Some uncertainty is yet felt in regard to the offices of auditor and county clerk and two candidates for the positions, Horton and Mulerey on the Union Labor ticket, have apparently run ahead of their ticket. These, however, are the only possibilities apparent, and with these exceptions there will be a clean sweep for the entire good government ticket. The election passed off quietly, free from any riotous demonstrations, and in spite of the tense strain which voters were subjected to—there was not the slightest disorder at the polls. At a late hour last night the total vote cast was estimated at from 57,000 to 60,000.

## LATER

PORTLAND, Nov. 6.—Indicated confidence in the financial situation was shown throughout the city yesterday and all Portland banks reported a quiet day. ### Title Guarantee and Trust Company in Receiver's Hands.

### Massachusetts Man Who Claims to Own Many Shares Makes Complaint—State Treasurer Has \$300,000 of State's Money on Deposit in Institution.

PORTLAND, Nov. 6.—The Title Guarantee & Trust Company of this city went into hands of a receiver this afternoon. Judge Wolverton of the United States circuit court appointed George H. Hill, vice president of the institution receiver, who furnished a bond returnable in five days, at \$100,000. The receiver was appointed on the complaint of N. Coy, who gives his place of residence as Massachusetts and claims to own 392 shares of capital stock of the corporation. In his complaint Coy estimates the liabilities of the concern at \$2,640,000 and assets at \$2,500,000 and states that should the day to day holidays of Governor Chamberlain come to end, the bank would be unable to withstand a great and sudden demand for ready cash owing to its inability to quickly realize on its securities. In developed this afternoon that State Treasurer Steel has on deposit in the Title Guarantee something over \$300,000 of the state's money. This money is said to be well protected by surety bonds and collateral.

The Title Guarantee & Trust Company is one of the banks which was not in the clearing-house association, and has been for some time past considered shaky.

Later.—It developed tonight that the Portland clearing-house association when appealed to come to the succor of the Title Guarantee refused to extend aid.
