

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Is acknowledged to be the most successful remedy in the country for those painful ailments peculiar to women. For more than 30 years it has been curing Female Complaints, such as Inflammation, and Ulceration, Falling and Displacements, and consequent Spinal Weakness, Backache, and is peculiarly adapted to the Change of Life. Records show that it has cured more cases of Female Ills than any other one remedy known. Lydia E. Pinkham's Vegetable Compound dissolves and expels Tumors at an early stage of development. Dragging Sensations causing pain, weight, and headache are relieved and permanently cured by its use. It corrects Irregularities or Painful Functions, Weakness of the Stomach, Indigestion, Bloating, Nervous Prostration, Headache, General Debility; also, Dizziness, Faintness, Extreme Lassitude. "Don't care and want to be left alone" feeling, Irritability, Nervousness, Sleeplessness, Flatulency, Melancholia or the "Blues." These are sure indications of female weakness or some organic derangement. For Kidney Complaints of either sex Lydia E. Pinkham's Vegetable Compound is a most excellent remedy.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to write Mrs. Pinkham, Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Thus she is well qualified to guide sick women back to health. Her advice is free and always helpful.

BALLOONS COMMON

New York Aeronautists Excited Over Coming Ascensions.

OYSTER SUPPLY CORNERED

Englishman Finds Valuable Pearl While Eating Bivalve—New York Has Largest Soda Water Fountain—Eels Costing About Forty Dollars Apiece

NEW YORK, Nov. 11.—Balloons may soon be as common in the sky as clouds, even if the rest of the country does not follow the example of this city, which appears suddenly to have become balloon crazy. In the recent international balloon races at St. Louis, together with the numerous ascensions herabouts, local amateurs who have begun to find automobiling unexciting even at 90 miles an hour, have discovered the lead for a new sport, and leaving terra firma, expect to have their nerves stimulated hereafter in the air. The strength of this sudden craze for ballooning as a pastime is sufficiently indicated by the fact that at the auto show now being held here ten balloons have been actually sold, with many others ordered. Balloon men have been kept busy arranging for demonstrations of their gas bags, necessarily a little more difficult of accomplishment than in the case of an auto, since New York does not countenance promiscuous balloon ascensions. Country to general opinion it is not necessary to be a millionaire to indulge in aeronautics in one's own balloon, as a very good one, it is said, can be purchased for about \$90. A single ascension costs about \$50, of \$25 apiece if divided between two owners so that the new sport does not become so financially terrifying after all. Then, too, there will be no speed laws, policemen or fines in the air, an argument which will appeal to many auto drivers hereabouts. One of the most enthusiastic balloonists or "balloonatics" as they have already been dubbed, is Rear Admiral Chester, who having retired from the seas has now announced his intention of navigating the air in his own balloon just as soon as he has served his apprenticeship.

The run on New York financial institutions last week has now given place to a run on the city's oyster supply. For two nights and those parts of the intervening days during which the succulent bivalve is eaten, all New York which frequents hotels, cafes and even common restaurants, seemed to have but one desire in life; to consume as many oysters as possible. Worst of all from the standpoint of the "four hundred," the oysters were actually chewed instead of being swallowed whole like a pill, as society demands. The end of the first night of this unique run round the oyster supply seriously menaced, while on the second it seemed probable that it would become necessary to suspend the filling of the oyster orders. Patriotic oystermen of Long Island Sound, however, anxious to avoid a national calamity, bolstered up the tottering situation by furnishing the fact that Norman G. Thwaites, an Englishman while consuming his oysters at the Hotel Astor discovered in one of them a black pearl valued at \$200. The chagrin which he felt at crunching on a hard substance quickly changed to joy upon examining the cause. No question was raised concerning the right of the lucky finder to his trophy, the hotel people stating that even had not this point been settled by law they should consider that the pearl belonged to Mr. Thwaites. As a result the Englishman has had the gem mounted in a scarf pin and figures that he is about \$195 ahead on his oyster order—a very good investment in these times. Unfortunately for those persons who consumed several hundred thousand oysters hoping for a similar piece of luck, no further finds have been reported.

Father Knickerbocker is now the proud possessor of the largest soda water fountain in the world. As compared with the sum of \$1,000,000 which he spends every day on drinks which are hard, the mere hundred thousand dollars which is left over for drinks which are soft is still one of striking proportions. Banks may fail and stocks

alump, but there seems to be no diminution of the consumption of food and drink, especially the latter. The new fountain from which soda water will be dispensed to thirsty thousands costs more than many a house and lot, \$30,000 being the figure named. It is indeed something of a work of art being constructed of real onyx and ornamented with bronze work and paintings imported from Italy. The capacity of the mammoth structure calls for the daily consumption of 8,000 pounds of ice, 540 pounds of sugar, 30 pounds of chocolate, 40 gallons of crushed fruit, 720 lemons, 300 oranges, 2700 eggs, 300 quarts of milk, 240 quarts of cream, 80 pounds of walnuts, 12 gallons of cherries, 200 limes, 60 gallons of fruit syrup, 250 gallons of ice cream; and 350 gallons of plain soda. Altogether the list in many of its items would keep a family supplied for a year; and when it is remembered how small a portion of each of the ingredients goes into a glass of soda water, some idea may be gained of the extent to which soft drinks are consumed here.

In New York's exclusive Riverside Drive section eels are now costing about forty dollars apiece, in spite of the scarcity of real money. This figure, however, is being paid, not to get them, but to get rid of them, for this locality is literally suffering from a plague of eels such as has never been known before. Insignificant little eight-inch fellows have been coming from the river into the water pipes of many apartments, causing all sorts of local stoppages, while the big fellows two feet long, unable to get this far, pick out the main inlet for a whole building as a desirable resting place thus cutting off the entire water supply. One of the most exclusive apartments was without a drop of water for two days and nights owing to the eel blockade, the bell boys being pressed into the humiliating service of going around the corner with a tin pail to be filled with water. Large numbers of plumbers can be seen excavating to get at the blocked water pipes and Riverside Drive in spots resembles a mining camp. To go down twenty or thirty feet into the ground to the pipes and then to begin hunting for Mr. Eel, who to add to the trouble is generally very, very dead, is an expensive process which up to date has averaged about \$40 per eel. Apartment dwellers, living in sight of a whole river full of water, do not relish not being able to get a drop, and when obstructions are cleared away are not over enthusiastic over the eel tainted supply. The city has been called upon to keep all eels out of the mains, but after a vain attempt to do so has taken the position that it has no jurisdiction over eels anyhow.

That practically every child attending public school in New York is suffering from defective teeth is the surprising conclusion from statistics contained in the first report of the dental clinic of the Children's Aid Society. Investigations carried on by the New York Juvenile Asylum where physical well being is made the basis of child reform having revealed the fact that had teeth are a chief cause in juvenile delinquency, a free dental clinic was formed in this city to treat this cause of trouble. While the clinic has been in operation only a short time, 394 children have been examined with the surprising result that not one revealed a set of teeth not in need of repairs. Just 1264 cavities were found in the teeth of the 394, and 214 teeth had to be extracted. Figured on this basis there ought to be about 2,000,000 cavities in the teeth of all New York's school children, and 350,000 molars which ought to be pulled. It is stated that the standard of health in the schools where dental supervision is in force has already shown a marked improvement.

COUGHING SAVES LIVES.

Smoke From Fire Causes Children to Awaken Inmates.

CHICAGO, Nov. 11.—Arthur Meeker, general manager for Armour and Company was called upon to battle with a fire in his home, early yesterday morning. He became the leader in saving his four children and ten house servants from the flames. He himself rescued three of the children and Mrs. E. Udell, a governess; saved the fourth. The fire which caused damage, estimated at \$25,000 was discovered by Miss Udell in the nursery on the third floor. She had been awakened by the coughing of the children, Arthur and Mary who were asleep in the room. Though their coughing probably saved the lives of all in the house, they themselves continued to sleep soundly as Mr. Meeker and the governess lifted them from their cots and bore them from the room, the father carrying Arthur, Jr., and the governess the little girl, Katherine and Grace, the other two children, were sleeping in a room on the second floor and the father bore both these in his arms at one time. Mr. Meeker did not awaken Mrs. Meeker until he had satisfied himself the children were safe. When all the rescue work was done Mr. Meeker telephoned the fire department.

HERINGTON'S TABLETS

ABSOLUTELY CURE Indigestion, Rheumatism, Diabetes, Kidney Diseases, Bladder Troubles, Liver complaints.

A SURE KIDNEY AND LIVER CURE Have you healthy kidneys? If not, you will soon be attacked with that terrible Diabetes, Bright's Disease, Gravel, Dropsy or Rheumatism, and your health and happiness ruined. We have the only treatment that is a sure cure for the dreaded Bright's Disease, Diabetes, and all other forms of Kidney and Bladder Troubles. If your kidneys are not healthy, if the bladder is inflamed and weakened, urine highly colored or cloudy, smarting in passing, pains in back, nervous, languid, depressed, weakened in body and mind, bowels constipated and digestion bad, write for a box of Herington's Tablets and be cured. RHEUMATISM is caused by an excess of uric acid in the blood. Ask any reputable physician, ask your family doctor, and he will tell you that the Uric Acid must be dissolved and drawn from the system before the disease yields.

What Causes Rheumatism Now we say that the only medicine known that will actually dissolve this Uric Acid and carry it out of the body is Herington's Tablets. Local applications such as liniments, electricity, massaging, etc., will afford temporary relief only, and is time wasted to the injury of the patient, unless constitutional treatment is carried on at the same time. Why? Because the malarial is a disease of the blood, and the blood must be freed of the cause—or no cure can follow.

WRITE TODAY—Fill in the coupon printed below and send it to us with 25 cents. We will immediately mail to you a liberal sized box of Herington's Tablets. If they fail to CURE you we will return your money as willingly as we took it. Our guarantee is, NO CURE, NO PAY.

FILL IN THIS COUPON TODAY Our remedy will put you on the road to health and happiness.

MODERN PRODICAL

Father Welcomes Son Home Then Places Him Under Arrest.

CLAIMS BOY IS A BURGLAR

Believes Spartan Course is Only Method of Son's Redemption—Boy Confesses to Theft of Articles Stolen and Pleads For Forgiveness.

CHICAGO, Nov. 11.—Gustave Bluhardt welcomed his wayward son home last night, placed before him a bounteous repast and then, while the boy was eating, summoned a policeman by telephone to arrest him on a charge of burglary.

The father notified the police last Friday that the night before his home had been entered and \$1000 worth of articles taken, and that he was positive his son, Fred, 18 years old, was the burglar. The convincing fact, he said, was that the New Foundland which had been kept by the family for years, had permitted the intruder to roam about at will without giving tongue. The dog, he declared, would have attacked a stranger and aroused the family with his barking. Mr. Bluhardt, who is a wealthy cigar manufacturer, said that he had hesitated to report the matter to the authorities, but adopted the Spartan course because he believes it the only means for his son's redemption.

When the son, penitent and distressed, returned with appeals for forgiveness last night and a confession of guilt on his lips, the forgiveness was not withheld, but the father, his heart wrung with pity for him was inexorable in his determination to adopt drastic means for his reformation.

ITCH IN THE SKIN, NOT IN THE BLOOD. People with Eczema, etc., Make Grievous Stomach.

When your hand is scalded with hot water until it blisters and burns, you don't drink medicine to cure it. You apply a healing lotion to the injured skin. Eczema, psoriasis, salt rheum, barber's itch and other such diseases of the skin cannot be cured by filling the stomach with medicine any more than you can cure a burn by drinking medicine. To cure these diseases you must apply the remedy on the part affected. The diseases named are caused by germs in the skin. Kill the germs and the disease goes away and the skin is left pure and white as nature intended it to be.

That mild, simple liquid, oil of wintergreen, properly compounded in D. D. D. Prescription rids the germs and heals the skin so perfectly that you can never tell where the disease was.

"No tongue can tell nor pen portray what I suffered for ten years from Eczema," writes Mrs. R. R. Latta of Garrison, Mo. "I was treated by the best doctors in the west, but received no benefit. Three bottles of D. D. D. cured me sound and well. Six of eight months have passed and there is no sign of a return. My advice to all is, don't delay. Begin the use of D. D. D. at once and be cured."

We have carried D. D. D. for a long time because we know it takes away the itch and we believe it to be an infallible remedy in the treatment of Eczema and other skin diseases.

Charles Rogers Druggist. Pneumonia Follows a Cold. But never follows the use of Foley's Honey and Tar. It stops the cough, heals and strengthens the lungs and prevents pneumonia. T. F. Laurin, Owl Drug Store.
