

### Barrington Hall The Steel Cut Coffee

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

if not throughout the Northwest, and we are entirely convinced that Astoria will become a most important exporting port, as well as a port of entry for large importations.

"We are working out a plan whereby we expect to fill in with solid ground all that part of Astoria now built on piles.

"Our people, and especially our County Court, are furthering to the utmost a plan to build the largest possible mileage of good roads in Clatsop county each year. We are trying, with the co-operation of the Portland Automobile Club, and the County Courts of Columbia and Clatsop counties to build a good road all the way from Portland through Astoria and Seaside to Tillamook, including 18 miles of beachway which nature has prepared, the finest in the world.

"These important matters get a place in our pamphlets, letters and circulars, and help us to rivet the attention on Astoria of those who are interested in the great Northwest.

"Printers' Ink, of issue July 7th, in a four-page article on publicity, devoted about half of the space to Astoria, showing that among certain advertisers, our efforts have something more than ordinary interest.

"Municipal advertising is not the task of a dreamer.

"On the contrary it is a work so practical that the municipality ought to be taxed for it. And it is not improbable that laws to this end will yet be enacted. A city can be assisted in its building processes by advertising, if it has merits which can be convincingly set forth with the necessary discrimination, just as surely as advertising has made money out of the patent medicine business. And a conscientious advertiser should be able to work in the municipal field with a great deal more zest than in any other, because of the substantial elements he can draft into his service. But the advertiser who handles a municipal advertising campaign, must have a genuine enthusiasm for the cause he presents, else he cannot impart the necessary life to his work, or entuse others sufficiently to achieve success."

**JAPS BUILD DESTROYER.**

VICTORIA, B. C., Nov. 12.—Mail advices from Tokio state that a destroyer, the best of her class in the world, will be built at Maizuro Naval Yard for the Japanese Navy. The new destroyer will be 1100 tons and will steam 35 knots an hour.

**CARNEGIE MAKES GIFT.**

CHICAGO, Nov. 12.—Andrew Carnegie yesterday made his first gift to the University of Chicago. It is a present of \$10,000 to be used for the Wm. Rainey Harper memorial library fund. With this gift the University has a total of \$130,000 toward the \$200,000 it must raise to take advantage of Rockefeller's recent conditional gift of \$900,000. Thus far the faculty and students have given \$17,000, the trustees \$70,000 and the Alumni \$10,000.

### IMPEACH WITNESS

Attorneys for Duke of Portland Gathering Much Testimony

CALDWELL NEVER KNEW DRUCE

Affidavits Being Obtained to Show That Robert Caldwell Was Not Familiar With the Life and Actions of the Fifth Duke of Portland.

NEW YORK, Nov. 12.—Attorneys, acting for the Duke of Portland, are gathering every bit of evidence they can here regarding the affairs of Robert Caldwell, who told a sensational story in the London courts last week regarding the alleged dual life of the fifth Duke of Portland, during the trial of the case brought by the heirs of T. C. Bruce, who, it was claimed, was the read Duke of Portland. Caldwell's life history has been cabled to the lawyers representing the holder of the title that is under attack, and it is stated, when Caldwell takes the stand next Friday for cross examination he will be confronted with a mass of facts that will be used as the basis of an effort to shake his testimony that he arranged to bury T. C. Bruce when the latter decided to abandon his double life and live as the Duke only. To carry out the scheme a lead was placed in a coffin and buried as Bruce's body.

One of the affidavits obtained here was made, it is stated, by Nathaniel Inch, who declared that he had two other men now living in New York who worked with the witness in Londonderry at the time the supposed Duke was buried and that Caldwell was at no time away from the grain mills where they were employed. Mr. Inch is positive in his assertion that Caldwell never knew either Bruce or the Duke of Portland and that he had nothing to do with the alleged mock funeral which he declared was conducted by him.

Mr. Inch has known Caldwell for nearly 53 years and had been associated with him for nearly 40 years. From 1857 he had known the witness with whom he worked in several places, and when the two were in New York they lived together for some time before Caldwell married.

Other affidavits of an important character will be obtained, it is expected within the next few days.

**HENRY C. STAVER DEAD.**

Prominent Manufacturer of Vehicles Dies From Operation.

CHICAGO, Nov. 12.—Henry C. Staver, president of the Staver Carriage Company, died yesterday while on the operating table in Englewood Hospital. He was 63 years old. Mr. Staver had been suffering for a year and a half from a tumor of the abdomen.

The physicians gave out a statement that the immediate cause of death was heart failure.

The family was endeavoring last night to locate a son, Lieutenant Roy B. Staver, U. S. A., whose headquarters are in San Francisco. Mr. Staver, who had been a resident of Englewood for 20 years was known as a leader in local public movements. Among the manufacturers of vehicles he was a national figure.

In 1876 he became a jobber of implements in Kansas City, a business which was later consolidated with the Moline Plow Company, after which Mr. Staver became secretary of the J. I. Case Plow Company, of Racine, Wis.

He came to Chicago in 1885 and formed the firm of H. C. Staver & Company, jobbers of implements and vehicles. This firm later became the Staver & Abbott Company and finally was incorporated in the Staver Carriage Company, of which Mr. Staver was president and general manager until his death. The factor has an annual output of vehicles valued at \$1,000,000.

Mr. Staver served several years as president of the Carriage Builders' National Association and of the National Association of Agricultural Implement and Vehicle Manufacturers.

**TRAVELS IN STYLE.**

Stowaway Given First Class Cabin on Atlantic Liner.

NEW YORK, Nov. 12.—It is rare indeed that a stowaway travels like a first class passenger, but that is the experience which befell Wm. Roseman, son of a New York jeweler. Roseman has just arrived from London by the Atlantic transport steamer Minnetonka. The Minnetonka has been cut ten hours when Roseman introduced himself to the purser and explained that he was a stowaway and wished to be looked

after. The purser took the youth to Captain Cannon and the captain learned from Roseman that he went aboard on the liner Oceanic last summer, had a good time in Europe and spent all his money. Roseman assured the captain that his family would pay for his passage, the result of which the stowaway was given a berth in the officer's quarters and a seat at the officers' mess. For five days Roseman had the run of the vessel but after that he was obliged to keep to the after part of the main deck and when the Minnetonka left Quarantine, by order of the Immigration authorities, Roseman was locked up in the vessel's hospital. His relatives will secure his release today.

**"REDS" HOLD MEETING.**

Land Memory of Haymarket Anarchists in Flaming Speeches.

CHICAGO, Nov. 12.—1000 men and women representing 17 trade unions, singing, turners and other societies, gather in Brands Hall last night to reverberate the memory of the anarchists of the Haymarket. The hall was a creation of red decorations. From the top box on each side of the stage hung large red flags along side the stars and stripes.

Jos Schmidt, treasurer of the Haywood-Moyer benefit Association opened up the fireworks with a flaming speech in German. Music by an orchestra and choruses of men and women followed.

T. P. Quinn, prominent as a municipal ownership agitator during the Dunne administration, spoke in English.

"The five Haymarket heroes", he said, "were martyrs of liberty—not their liberty, but that of an enslaved people. The policemen who raided the Haymarket meeting violated every principle that the men of '76 laid down their lives for. The man who threw that bomb never was found. We sometimes hear apologies for the act, but I never have been one of the apologizers—I never will be."

Kings Dyspepsia Tablets do the work. Stomach trouble, dyspepsia, indigestion, bloating, etc., yield quickly. Two days' treatment free. Ask your druggist for a free trial. Sold by Frank Hart's Drug Store.

Chapped hands are quickly cured by applying Chamberlain's Salve. Price, 25 cents. For sale by Frank Hart and leading druggists.

### SMALLER INVESTORS

Brokerage Houses Report Sales in Small Lots.

### VOLUME OF BUSINESS GREATER

People of Small Means Taking Advantage of Cheapness of Railroad and Industrial Stocks and Are Buying for Investment, Not Speculation.

NEW YORK, Nov. 12.—Brokerage houses here which make a specialty of dealing in small lots of standard industrial and railroad shares, continue to be swamped with work, and houses with foreign connections report a wave of buying orders for Europe, which is unprecedented. Probably the most striking feature of the financial situation at present is the big scale on which this investment buying, by persons with small savings, is going on.

James L. Carter, in charge of the stock transfer department of J. P. Morgan & Company, is authority for the statement that in practically every important railroad stock listed the new stockholders who have recently invested their savings chiefly in small lots, represent from 25 to 50 per cent of the total number of stockholders enrolled. Mr. Carter says that the purchases average not more than 20 or 30 shares to the individual, that they appear to be for investment rather than speculative purposes and that the orders come from all parts of the country.

The transfer office of the United States Steel Corporation is a week behind on its routine work. The Union Pacific and Southern Pacific Railroads report an increase in the number of stockholders at the rate, since the first of the month of 300 a day. The Rock Island road has opened between 500 and 600 new accounts in the last six weeks, mostly in the common stock. The number of stockholders of the Chicago, Milwaukee & St. Paul has increased by 500 in the last two weeks. The activity in Pennsylvania railroad stock has been

so great of late that figures of recent date are unobtainable.

### FOREIGN MISSIONS.

Methodist Board Has Debt of \$85,000 to Make Up.

SEATTLE, Nov. 12.—Because of a debt of \$85,000 hanging over the Methodist Episcopal Board of Foreign Missions in session here, that body must either retrench to the extent of \$170,000 in making appropriations for the foreign missions field, or violate a strict interpretation of the laws of the church which say that the board shall not appropriate more money than the income of the foreign mission board during the previous year. This condition is due to the separating of the foreign and the home mission societies during the past church year. The committee on general appropriation will report in favor of violating the strict interpretation of the law, and it is expected its action will be endorsed in the morning meeting, because a curtailment of \$170,000 in the income would mean a vast reduction in the number of missionaries in all foreign fields.

The conference Sunday appropriated \$26,300 to the support of missionary bishops, \$18,000 to the support of retired missionaries and the widows and orphans of missionaries, \$25,000 for incidental needs of missions, \$47,000 for the publication fund, \$9,000 for young peoples' work, \$20,750 for the salaries of field secretaries, \$33,500 for administration purposes and \$10,000 for miscellaneous uses.

### WAS A BIGAMIST.

CHIPPEWA FALLS, Wis., Nov. 12.—Albert Bates yesterday was sentenced to serve one year in the penitentiary for bigamy. He acknowledged that he had been married often, but thought he had always waited long enough for the preceding wife to get a divorce before he married the next one. He did not inquire about the divorce, but took it for granted that one would be obtained. Elopement with a sister-in-law was the latest venture in matrimony undertaken by Bates.

We have secured the agency for Orino Laxative Fruit Syrup, the new laxative that makes the liver lively, purifies the breath, cures headache and regulates digestive organs. Cures chronic constipation. Ask us about it. T. F. Laurin, Owl Drug Store.
