 The finest in this or any market.

ROSS, HIGGINS & CO.
 The Leading Grocers

TERSE TALES OF THE TOWN

Licensed to Wed—
 County Clerk J. C. Clinton yesterday issued a marriage license in favor of Mr. Oris F. Olmstead and Miss Lulu McMullen, both of this county.

Will Market a Few—
 The Armstrong & Leonard people have discontinued the cutting of logs in their Deep River holdings, and are busy marketing the several million feet of fine logs now being placed in the water and boomed.

One-Fifth Off—
 For the next few days there will be a flat reduction of 20 per cent on the great furniture stock of Charles Heilborn & Company, and this without reservation of any sort.

Such Is Fame—
 Van Dusen, master fish warden of Oregon, has been farming out crawfish to the authorities in Nevada. Only last August they were packing sardines in silver tins according to report. One of these days Nevada will be sporting a warden of canned fish in the mining camps.—Pacific Fisherman.

One Lone Deed—
 There was a dearth of deeds in the filings at the county clerk's office yesterday, but one instrument of this nature appearing on the register, that of the Merchants' Savings & Trust Co., to Lucinda Appel, conveying lots 10 and 11, in block 5, of Highway Addition to Ocean Grove.

Crawfish in Nevada—
 Master Fish Warden H. G. Van Dusen is in receipt of a reply from the Nevada Fish Commission regarding the shipment of crawfish sent them some time ago. The commission has planted the crustaceans in Washoe Lake near Carson City and seem to be getting along nicely in their new abode. Thanks is extended to Mr. Van Dusen for the interest shown and for the directions which he sent regarding their food and culture.

Overland to Tillamook—
 Contractor C. L. Houston, of the firm of Ferguson & Houston, has gone to Garibaldi, in Tillamook county, to overlook the nearly completed life-saving station his people have built for the government there, and which is ready for official inspection. Mr. Houston went out over the land trail, but will return by sea, and will be home in a few days.

Has Sold His Interest—
 Frank Smalley, the well known Frankfort logger, has disposed of his Young's River logging interests, and will devote himself to the operation of his north-shore properties for the future.

To Stella on Business—
 Emil Palmberg, the well known contractor has gone to Stella to assist in the completion of a big contract he holds there for the painting of a group of buildings, and will remain there until the work is practically finished.

Twenty Cents Saved—
 The buyer of anything sold by Charles Heilborn & Company, for some time to come, may save 20 cents on the dollar as the house is making that reduction, flat, on all goods, in order to lessen the stock. Don't forget it, and don't fail to use it!

Northshore Visitors—
 Hans Petersen, the well known canneryman of Altoona, was a business visitor in this city yesterday, as was Mike Gorman, of Cathlamet. Both gentlemen report things active on the other shore and no especial gloom on account of the hold-up holidays. Their own interests are flourishing at all points.

Seriously Ill—
 Otto Morgan, who has been employed in the Western Union Telegraph office for some time past, is quite ill at the home of C. W. Lamar. Dr. Fulton, who is in attendance on the young man, may advise that he be taken to the hospital as symptoms of typhoid fever are apparent. Otto has made many friends here who will regret learning of his illness.

Lull in Criminal Matters—
 There are but three prisoners at present in the county jail of Clatsop: J. H. Andrews, the larcenist; Scott Anderson, doing four months for assault with a dangerous weapon, and Al. Benson, who has served his term for pointing a gun at another person, and will be released today. The criminal dockets of the city and county are all light both in number and quality of offenses charged.

Hoeflers
 Confectionaries.

MAYOR WISE HAS HIS TELEPHONE PEOPLE CHEERFUL SAY AT WORK

PROUD OF THE HIGH ESTIMATE IN WHICH ASTORIA IS HELD AT PORTLAND, FOR HER WORK AT THE MONEY-CRISIS.

Mayor Wise has returned from Portland and feels quite animated and hopeful over the financial situation and the cheerful view taken of it at the metropolis. In the course of an interview yesterday morning with an Astorian reporter he expressed himself in the following terms, which are altogether applicable to the existing conditions:

"Outside of a few professional demagogues, who are never happy unless they stir up trouble, the good judgment of the average American has again come to the front and everybody is going about his business. "It's strange, is it not, when a man is in need of accommodation, he thinks the bank is a very good place to go to; but the minute a bunch of Wall street speculators cry 'panic,' in order to bring the price of railroad and other bonds down; so many people become like a flock of sheep and, forgetting the accommodations and favors of the past, run to their bank and take money from the vaults to hide in unsafe places, or, perchance, spend it in foolish ways. "I met several prominent business people in Portland and the general remark was 'Well, your Astoria banks, we hear, are as solid as a rock, and we understand you Astoria people haven't lost your heads like people elsewhere,' and I tell you I felt proud to know that, taking it all in all, we have about as cool-headed and sensible a population as can be found anywhere; we may have our petty little differences, but in an emergency, we get together and act like sane, reasonable people. "The Astoria banks are solid and we are proud of it.

"The Commercial Club dinner was a success, and I wish that one of our commercial organizations would get up a semi-annual dinner, to which the Commercial Clubs, of Oregon, and Washington could be invited, to knit together the ties of friendship and through an exchange of ideas, learn more of the advantages of the various sections and imbue them with the importance of this seaport city."

DEATH SUMMONS.

Grim Visitor Brings Sorrow Into Two Homes.

Mrs. Lydia Nelson, who was taken to Mary's Hospital Wednesday afternoon, succumbed to a fatal malady at that institution early yesterday morning, while ministering hands were doing all possible to relieve her sufferings. Mrs. Nelson, was a native of Oregon, 43 years of age, and just previous to her death had been a resident of Hammond. She is survived by several children. Notice of interment will be given later.

Mrs. Amelia Kazeppi, wife of the proprietor of the Columbia restaurant, died at their home yesterday morning from a stroke of paralysis. Deceased was 42 years of age. Interment will be made in the Greenwood cemetery Saturday morning.

Pearl Button Industry—
 A letter from Prof. W. C. Curtis, of the University of Missouri, has been received by H. C. Van Dusen, regarding the securing of any data concerning species of fresh water mussels that may abound in our rivers. Prof. Curtis is conducting elaborate experiments and investigation with a view to finding means for maintaining fresh water mussels artificially. The shells of the mussel are valuable as pearl buttons are manufactured from them. Mr. Van Dusen will make investigation into this mussel industry and it is possible may find we have been overlooking a valuable manufacturing proposition in our midst.

Astoria is Advantaged—
 There are two particulars in the new tariff of the Astoria & Columbia River Railroad Company, which will be placed in effect on the 25th of the present month, which are distinct advantages to Astoria, and have been long desired: One is that the \$2.50 round-trip rate from here to Portland, is available for use on the Saturday night train preceding the Sunday for which they are issued; and the other is, that all beach tickets sold by the company at Portland and other points up the river, will bear stop-over privileges at Astoria, both going and coming.

Eighty Cents—
 The prices on all the huge stock of furniture at the store of Charles Heilborn & Company, have been reduced to 80 cents on the dollar, throughout. This will continue for some time. The stock must be reduced.

FOREMAN BURNS INDICATES THE CHARACTER OF IMPROVEMENTS TO BE INSTALLED HERE FORTH-WITH.

Yesterday afternoon an Astorian reporter hunted up Mr. Burns, the Portland foreman of the Pacific States Telephone Company, in charge of the projected service-improvements here, and asked what the scope of repairs and construction was to be, and was told that it was the purpose of the company to revamp the entire equipment in this city and to cable all the wires overhead, leaving no open wires to disfigure or impede the city nor its departments.

There are now 30 reels of cables on the O. R. & N. docks here, which will be devoted to this phase of the work. It was originally intended to put the wires underground, but this scheme has been abandoned, in part, owing to the fact of the constant repairing and rebuilding of the busy streets of the town; yet a large per cent of the down-town wires, notably from the site of the present office of the company as far south as Franklin avenue, will be underground, or piped and hung on the stringers below the streets.

Plenty of new poles will be used in the new construction work and there are several cartloads now in the railway yards here for that purpose.

Altogether there will be 35,000 feet of cables swung overhead, each containing from 25 to 150 pairs of transmission wires, which, reduced to appreciable figures, means many a mile of new service equipment in this department.

Ten men will arrive here today to join Mr. Burns in the immediate launching of the work, and the plans covering the last detail of the task have been prepared for use and are on the spot and available.

Scores of new and up-to-date instruments will be installed and the whole Astoria system will be put on a par with the best modern service in the state.

Everybody about the city is glad to see Mr. Burns and his men here on this task, and perhaps the best satisfied of them all is Manager Andy Brunold, of the local office, himself.

A Credit to Astoria—

The beautiful new tonsorial parlor just opened at 572 Commercial street in this city by Messrs. J. H. Petersen & Son, and styled "The Modern," is a distinct credit to the city as a business house. The establishment is fitted with every phase of standard appointment in its line and meets the last requirement of the laws of exquisite cleanliness. It is done in rosewood and plate glass with gilt ornamentation and contains six splendid hydraulic chairs, that are the very acme of comfort. That it will do its ample share of the trade goes without saying, since, aside from its dainty equipment, it is in the very heart of the city, and starts with the generous Petersen clientele as sponsor for its abiding success.

Ordered to Florida—

Captain Steele who for the past six years has been stationed at Fort Stevens, and who has made a host of friends in this city, has been ordered to Florida for duty, and will depart in about three weeks. The captain will carry with him the earnest good will of very many Astorians who have been recipients of abundant courtesies at his hands. Col. White, commanding at Fort Stevens, was in the city yesterday, to meet and greet his daughter, Mrs. Geo. R. Feeter, the wife of Lieutenant Feeter, of the Seventh U. S. Infantry, who comes out from Texas to visit her father, and who will be followed in a short time by her husband, the lieutenant.

Twenty Per Cent Off—

Everything in the immense stock carried by Charles Heilborn & Company, will be sold for some time to come, at a clean cut of 20 per cent, without regard to what the article may be.

Morning Astorian, 60 cents per month delivered by carrier.
