SUNDAY BLUE LAW ACTIVITY.

CHICAGO, Feb. 13.—A despatch to the Record-Herald from Winnipeg, Manitoba, says:

Police officers are making out and serving hundreds of summonses for alleged breaches of the Lord's Day Act. The campaign started two Sundays ago and the first cases appeared in police court yesterday. Already some 500 summonses have been issued and several hundred more are to be made out. The police are proceeding under instructions from the police commission, their action being a counter-movement opposed to action by members of the Lord's Day Alliance. Each Sunday police have pounced upon the undertakers and funerals, newspapermen, transcribing notes of Sunday sermons and editors. Another man was taking a bath when the police arrested him.

TROLLEY CARS.

NEW YORK, Feb. 13.—The reported intention of London traction lines to run cars exclusively for the accommodation of working women has occasioned talk of similar action by New York Traction Companies. President E. P. Bryan of the Interborough Rapid Transit Company, said last night that as an official of the Elevated & Subway lines in this city he was perfectly willing to consider the installation of special rush hour cars for women. "As the majority of the passengers during the evening rush hours are women and working women at that, I will say that it would be our pleasure to do all we could to add to their comfort," said Mr. Bryan. He added that the result of the London experiment would be carefully watched.

President Calderwood of the Brooklyn Rapid Transit Company is quoted as disbelieving in the practicability of the scheme.

PREHISTORIC ANIMALS.

NEW YORK, Feb. 13.—The American Museum of Natural History has received samples of the hair, wool and hide of a mammoth, probably the only sample of the outer covering of this extinct animal now in America. They are from Elephant Point, Alaska a place where various remains of prehistoric animals have been found.

The elephant is supposed to have originated in Africa and to have traveled to all parts of the globe, developing hair for which the mammoth is noted in the cold regions of Northern Asia. The first mammoth was discovered in Siberia nearly a century ago and since that time remains have been found in Alaska presumably having floated across Bering Sea incased in ice. The only perfect specimen of the mammoth is in the museum at St. Petersburg, having been found ice-encased in Siberia.

TEA

Buy tea by the ounce until you get Schilling's Best; it makes no difference then.

MRS. JANE.

Aspires to Bring Warring Fractions at Zion Together.

CHICAGO, Feb. 13.—The Tribune to-day says Mrs. Jane aspires to her late husband's place as head of the Christian Catholic Church and believes she is destined to bring the warring factions at Zion together.

At her home near Muskegon, she is making plans to induce the former followers of the late John Alexander Dowie to rally to her standard, according to statements made in Waukegan, Ill., yesterday. She hopes to take up her husband's projects if she secures the desired position. She made a secret visit to Zion City Tuesday, it is said, with this end in view, it being her first appearance there in many months. She conferred with Dr. Askin, who is secretary of a new movement which proposes to call Overseer Bryant back from Australia to lead the people.

LECTURING TO WORKINGMEN

CHICAGO, Feb. 13.—With the announced intention of arousing a greater love for the art among the wage workers of Chicago a series of informal lectures will be given by painters and sculptors each week at the Art Institute.

The new plan was inaugurated last night when 300 telephone operators were the guests of the institute. Short talks on sculpture and on paintings were given by Lorado Taft and Chas. Francis Brown. The institute has arranged for like meetings to be held weekly until late in the summer.

In the fall a new series will be arranged by Ralph Holmes which will be continued throughout the winter.

MILLS RESUMING.

WHEELING, W. Va., Feb. 13.—Over 2000 workmen who have been idle since November and December have resumed work in the Wheeling district this week. A dozen additional mills at the Aetna Standard plant have started, giving employment to 500.

Haskins glass plant, Martins Ferry, gives work to as many more. The starting of the top mill furnace and the Wheeling Steel & Iron Works gives employment to over 1000. The National Tube Company, Riverside plant, will partially resume about the 20th inst.

GERMANY'S ACTION.

LONDON, Feb. 13.—The foreign office has been advised by Ambassador O'Connor at Constantinople that Germany has decided that instead of signing a joint vote to the Porte demanding judicial reforms in Macedonia to agree to the Turkish proposal that the Macedonia foreign gendarmerie be placed under the control of Turkey. No confirmation however has been received of a secret treaty between Germany, Austria-Hungary and Turkey. The independent action of Germany has caused disquietude as it upsets the work accomplished during the past year and makes the future uncertain.

Morning Astorian, 60 cents month. Delivered by carrier.

DETROIT TO FRISCO.

Seven Hundred Ton Freighter Traveling 17,000 Miles.

NEW YORK, Feb. 13.—On her way from Detroit to San Francisco by water the seven hundred ton freighter Lucy Neff arrived at this port yesterday and after coaling and provisioning for the next leg of her ocean journey will proceed. To reach the Pacific coast city from Detroit, a land journey of not much over 2,000 miles, the Neff is traveling 17,000 miles by the all water route through the great lakes, the Welland canal, the St. Lawrence river, down the Atlantic coast and up the Pacific. From now on she will follow the route taken by the battleship fleet. Although there may have been other trips of the sort, maritime men hereabouts say they cannot remember a steamboat ever having taken a similar

voyage. She left Detroit, June 20th, and her trip was considerably lengthened by laying up at Bath, Me., where she arrived late in the summer for extensive repairs. She carries a crew of 20 men and is loaded with lumber.

FRUIT SHIPMENT.

LOS ANGELES, Feb. 13.—One hundred and nine carloads of oranges and 18 carloads of lemons were shipped from Southern California on Wednesday. Total for season: Oranges, 4962 carloads; lemons, 1080 carloads.

The watched pot never boils. A gas meter is different.—Washington Times
