and draw in with them fresh air from the stations.

The cars are of a new type, constructed of steel, with concrete floors. They have three big doors on each side and one at either end, all controlled by compressed air. The motormen cannot start the trains until they receive a flash signal from the guards, and the flash signal cannot be sent until every door in every car is completely closed, insuring safety to passengers. The seats run along the side and accommodate 100 passengers.

### STATE LINES.

The next census will show that Pennsylvania has two cities each with a population exceeding 500,000, a distinction which no other state in the Union will possess.

The national forest reserve in Nevada now reaches the enormous total of 8,528,479 acres. The total acreage of the state, including water surface, is something over 71,000,000. Therefore the forest reserve comprises more than one acre in every ten.

According to the official report tabulated under the direction of Right Rev. Bishop J. S. Michaud, the Catholic population of Vermont is 75,953. There are 112 parishes in the diocese, including those not having settled pastors. The number of priests is ninety-two.

### APPEAL TO VOTERS.

On behalf of my candidacy for the Republican nomination for Representative in Congress, I will say I have lived along the Columbia and Willamette rivers for over 30 years.

Have practiced law for the past 13 years. Ever since childhood I have taken a keen interest in ships and shipping and have endured some hardships to acquire information on this subject. Four years ago I sailed on the sea as a sailor on the vessel shown herein, rounded Cape Horn and visited the principal sea ports of the world. I have "knocked about" on the Columbia bar with the pilots in heavy weather and have had grounded into me the imperative necessity of scouring out the bar to a greater depth. It was one of these trips that suggested the idea of becoming a candidate for Congress.

The details of my own experienced off the Horn in a "wind-jammer" is a sufficient argument to me of the necessity of the Panama Canal. My political ambition extends only to the accomplishment of some good for the people. I have no boss to serve or faction to favor and am free from all entangling alliances whatsoever. I feel that my environment has fitted me for the position I seek at the hands of the people, and if elected I pledge to the best of my ability to give faithful, active and persistent service for the welfare of the people and the upbuilding of the State.

GEORGE S. SHEPHERD.

### CLAY TESTS SATISFACTORY.

Variety of Bricks and Terra Cotta Made From Astoria Clay.

Manager Whyte and guests made an official visit to the kiln yesterday afternoon and were shown the products of Clatsop clay in experienced hands. The bricks and terra cotta made from the several varieties of clay found in this section have been taken from the kiln by Mr. Lew Ogan and he is highly pleased with the results obtained while working with the crudest methods. To fire brick and terra cotta in the same kiln and at the same time where one kind must be surrounded on all sides to protect from the direct heat and withdrawing some that required only 2000 degrees and running the kiln up to 2400 and 2800 degrees for other varieties is not the easiest thing to accomplish. Some of the colors that have been made are artistic to a marked degree. Buff, white, chocolate, speckled and red brick and the solid vitrified black paving brick are the colors produced. Drain pipe glazed and unglazed are amongst the products of Clatsop clay.

For the buff colors Mr. Ogan says he can hold the supremacy of the Northwest as it compares favorably with the famous Milwaukee and Denver buffs.

Mr. E. J. Shaw of the American Clay Machinery Company will be in the city Monday and will attend the meeting of the Chamber of Commerce. The brick tests made under the auspices of the Chamber will be on exhibition in their rooms next Monday evening.

### A MATTER OF EXPERIENCE.

James W. Welch has the experience and ability to advance the business interests of Clatsop county in the State Legislature. He should get the vote of every Republican in the county, whether he be merchant, mechanic or fisherman, as Mr. Welch is well posted on all the varied industries of Clatsop, and understands their needs.

It runs smooth as silk and folds up till it is almost unrecognizable. Call and examine one before putting money into something not nearly so satisfactory. The Allwins are all winners, sure enough!

### EQUAL SUFFRAGE

Pertinent Letter From Mrs. Abigail Scott Duniway, President of the Association.

The following letter was received at this office yesterday with a request that it be placed before the public, and which request the Astorian gladly accedes to.

"Portland, April 6, 1908.

"Gentlemen:—Voters, sons, broth-

ers; I am growing old. But I cannot rest till you have given us the victory. Every hour I put in this service is a labor of love. Every dollar I donate is a personal sacrifice. Have the faithful mothers of Oregon not earned your affirmative votes for their full and free enfranchisement? You ought not to be afraid of us.

"You are equipped with ballots. We are not. We are depending upon you to honor the flag of truce by voting YES in our behalf in this unequal contest. You know you would only compel us to repeat this struggle in 1910 if you should fail us now. But we believe you will not fail. You have but to unlock the door to the closed citadel of liberty, leaving us free to choose for ourselves, exactly as you do, as whether to vote or not to vote, at every succeeding election. Thus only can you acquit yourselves as freemen and believe us from further effort to secure equality with our sons before the law.

"Abigail Scott Duniway, "Mother of Native Sons, and President Oregon State Equal Suffrage Association."
