TELLS ASTORIANS HOW TO FIND

IF THE KIDNEYS ARE INACTIVE—ALSO GIVES SIMPLE PRESCRIPTION WHICH ANYONE CAN PREPARE AT HOME

There are more cases of kidney trouble here now than ever before, while recent reports show that more people succumb each year to some form of kidney disease than any other cause.

When there is sickness, examine the urine. Rheumatism is only a symptom of kidney trouble. It is nothing more or less than excessive uric acid in the blood, which the sluggish, inactive kidneys have failed to sift out, leaving it to decompose and settle about the joints and muscles, causing intense suffering; frequently resulting in deformity; often reaching the heart when death ensues.

Pains across the back, frequent, painful and suppressed urination and other symptoms of weak bladder are not the only signs of kidney trouble; many cases of stomach disease, headache, pain in the heart, inactive liver, etc., are but symptoms; the cause of which can be traced to feeble, clogged kidneys.

A simple test of the urine is to void a small quantity in a bottle or glass and let it stand over night; next morning, if there is a reddish brick-dust sediment, or white, fleecy substance present either consult some reputable physician or take a good vegetable treatment. The following prescription is recommended highly in these cases, and the sufferer should mix it at home: Compound Kargon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime. Where any of the symptoms enumerated above are present, good results are sure to follow immediately the use of this simple prescription.
