

**Barrington Hall
The Steel Cut Coffee**

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

MAKING PLANS.

Farmers Making Sure of Enough Laborers to Work Their Farms.

NEW YORK, April 28.—New York farmers are already making plans for their summer labor and hundreds of immigrants who have registered their names with the assistant commissioner of agriculture are being provided with places. Applications for help are coming early this year, following the issuance of a circular by the commissioner advising the farmers not to wait until the last minute. The commissioner thus explains the plan adopted:

"The farmer wanting labor writes me his requirements, and sends the money to pay for transportation from New York to the destination. We check the laborers' baggage on the railroad ticket and send the farmer the check. This arrangement assures the farmer that his 'help' will arrive, because we do not check any baggage that is not worth more than the price of the railroad ticket."

LOST THE ADDRESS.

Woman Gives Her Child to Board and Loses the Address.

NEW YORK, April 28.—Having lost a slip bearing the address of the woman to whom she had entrusted the care of her month old baby, and after searching vainly for three weeks to find the house of the caretaker, Mrs. Rosie Lox, a nurse employed in a Brooklyn family, asked police headquarters last night to send out a general alarm for the infant. The mother told the officials that when her husband died recently and she became a nurse and could not care for the baby, she started for a foundling asylum to place the infant there. At the door she says she met a woman who offered to care for the child, for \$15 a month. She accepted the proposition and accompanied the woman home but soon afterward lost the address and has been unable without it to locate the house. The police, to whom Mrs. Lox told her story, through an interpreter, will endeavor to find the child for her.
