NEWS FROM DOCKS AND SHIP

ASUNCION GOES ASHORE ON DESDEMONA SANDS YESTERDAY MORNING—STATE OF CALIFORNIA ON TIME.

The oil steamer Asuncion entered port about 4 o'clock yesterday morning and shortly afterward went on the western end of Desdemona Sands. Just how the accident happened is not known, but was probably due to some radical defect in her steering apparatus, as Captain Bridget is one of the most skillful navigators in and out of this port and knows the waters of the bar and the lower bay as he does his own decks. She is lying in an easy position and it was hoped to get her clear of last evening's flood, or that of this morning at 6 o'clock. She is one of the liveliest of the oil fleet and it is hoped will move off freely and undamaged by her untoward contact with the shallows.

The word comes up from San Francisco, that the State of California has been thoroughly fumigated and made safe from the smallpox infection that prevailed on her for a few hours on her last trip down, and that a new crew has been placed on board, and she will leave the Bay City on her schedule hour tomorrow for this port and Portland.

The government steamer Major Guy Howard, the fastest craft in local waters, "busted" something on "Battleship Day" and has gone to the ship hospital at the Astoria Iron Works for repairs.

The schooner King Cyrus will

leave up for Goble on the hawsers of the Harvest Queen today. And will load out lumber from here, for her return voyage to San Francisco.

The Italian bark Edmund Accame has gone on to the metropolis where she will load out grain for Queens-town.

The steamship Breakwater was an early departure from this port yesterday morning, for the Coos Bay country.

The Elmore motor schooner Gerald C., was to have left out from the lower harbor last evening for the Siletz with a general cargo.

The splendid oil tanker W. S. Porter of the Standard fleet, arrived in port yesterday afternoon and went on to Portland.

The steamer Washington is due in this port from San Francisco today at any hour, and in fact was looked for last evening.

The steamer Shoshone came down the river last evening and went to the Tongue Point docks to finish her cargo for San Francisco.

The steamship Roanoke will return down from Portland and leave out for the coast of California tomorrow morning at 3 o'clock.

The steamship Rose City is due to depart for the Bay City at 4 o'clock tomorrow afternoon.

The steamer Alliance will be down from Portland on Sunday morning, and leave out for Coos Bay points.

The steamer Tiverton left out for California yesterday with a cargo of lumber.

CAMPBELL GIVES HIMSELF INTO OFFICIAL CUSTODY

(Continued from page 1)

tim of Campbell's gun fell forward after the shock of the first two shots. That all were fired from an elevated range, and down at the victim, is morally certain from the position of the shoulder wounds, and that all three bullets ranged downward after entering the body.

Sheriff Flanders and Coroner Peacock, Coroner Pohl and all the party that went over for the inquest returned to this city yesterday afternoon from Deep River, and Campbell was officially turned over to the Wahkiakum officer, and with Dr. Peacock, and Mr. Gorman, left up for Cathlamet, the county seat of Wahkiakum, on the steamer Undine, at 7 o'clock last evening.

The Astorian desires to correct one of its statements in the account of this tragedy, as made yesterday morning; and that is, that in the personal encounter reported to have taken place some time ago between Campbell and McClellan, it was Campbell who received the sound thrashing, and not the man he killed. Campbell is a heavy, fat, pleasant-looking man, of fair address and jolly tone and style and would never be regarded as a man given to such extreme action as he took in this case. The man he killed was tall, of fine physique and pleasant features and rather fine looking, with no trace of fierce or flagrant passion about him. He will be buried over in the Nasel country, probably, on Sunday next.

TEA
There's plenty of humbug in tea; not one ounce in a ton Schilling's Best.

Your grocery returns your money if you don't like it; we pay him

NEW YORK, May 21.—There have been several sensational developments in the international automobile racing on this side of the Atlantic. These include a refusal of the Vanderbilt cup commission to change its conditions to conform to the rules of the Ostend Congress; the sending out of an elaborate press sheet that was not authorized by the automobile club of America in which it was stated that the club planned the promotion of an international race at Savannah, Ga. An outspoken demand on the part of importers of automobiles that in the premises it is the duty of the Automobile Club of America to promote a race under international rules and finally an intimation that the Vanderbilt cup races may be blacklisted by the Automobile Club of America.

Jefferson Demont Thompson, chairman of the Vanderbilt Cup Commission in a letter to Robert Lee Morrell, chairman of the contest committee of the Automobile Club of America, acknowledged the receipt of the latter's letter enclosing the protest of the Automobile Club of France, reciting the fact that the subject of rules had been carefully discussed two months ago, declared that there is no possibility of any change being made in the Vanderbilt conditions.

The press sheet that was disclaimed by officers of the Automobile Club of America, quoted in a despatch from Savannah that recounted how S. M. Butler, president of the club, had visited that city on Saturday last, and made a proposition to the Savannah Automobile Club to promote an international race in Savannah in November. He learned later that Mr. Butler had been in that city last Saturday. It was denied, however, that he had made a proposition for a club race there.

IN GREAT DEMAND

Almost 500,000 Copies Sold in Four Years

MARK TWAIN'S FAMOUS BOOKS

At the Annual Dinner of the American Booksellers' Association Mark Twain Praises Booksellers For Their Enormous Sales.

NEW YORK, May 21.—

At the annual dinner of the American Booksellers' Association, Mark Twain in his usual white flannel suit, told how well his books had sold since they had passed from subscription agents into the hands of the booksellers. "For 36 years my books were sold by subscription" he said. "The books passed into the hands of my present publisher in 1904 and you became the providers of my diet. I think I may say without flattering you that you have done exceedingly well by me."

"By the terms of my contract, my publishers had to account to me for 50,000 volumes per year for five years, and pay for them whether they sold them or not. It is as I point that you gentlemen come in, for it was your business that unloaded the 250,000 volumes on the public in five years if you possibly could. Have you succeeded? Yes you have and more, for in your years with a year still to spare you have sold the 250,000 and 240,000 besides."

He then said he was building a farm house with the proceeds where he intends to take vacation for 30 or 40 years after completing the five books he is now engaged on.

For Rubber Stamps and Typewriter Supplies see Lenora Benoit, public stenographer, 447 Commercial street.

WASHINGTON, May 21.—An important executive order has been issued by the Interstate Commerce Commission respecting export and import traffic between points in the United States and points in foreign countries. The order of the commission is as follows: "In the direction of commission in case No. 211 entitled Cosmopolitan Shipping Co. vs. Hamburg-American Packet Co. and under rule 86 of tariff circular 15, a carrier engaging in export and import tariffs between points in the United States and points in foreign countries not adjacent is required to publish its rates and fares to the ports and from the ports and if as a matter convenience to the public the publish in the tariff through export and important rates or fares to or from foreign points in connection with foreign carriers such tariffs must distictly state the inland fare or rate.

"Extensions of these have been granted to some carriers giving them until July 1, 1908, to comply with the requirements of said rule. It is now "ordered" that all carriers subject to the act to regulate commerce shall comply with the requirements of rule 86, tariff circular 15—on or before July 1, 1908, by filing with the commission tariffs constructed in accordance with the rule and by cancelling tariffs that do not conform to the requirements of this rule and which contain rates or fare, upon traffic exported to or imported from a foreign country not adjacent to the United States."

IMPORTANT MEETING

More Uniform Enforcement for Inspection of Meat

AT CHICAGO ON MAY 25th

Meeting to Continue For Several Days—Meat Inspectors From All Parts of the United States to be Present.

WASHINGTON, May 21.—

An important conference between officers of the Department of Agriculture and meat inspectors from all parts of the United States will be held at Chicago beginning May 25 and will continue for several days. The primary object will be to secure, if possible a more uniform enforcement of the new regulations governing the inspection of meat. Representing the department of agriculture to meet the more than 100 meat inspectors, will be Secretary Wilson, Dr. A. D. Melvin, chief of the bureau of animal industry, under whose bureau the inspection law is executed and several experts. The regulations for the inspection of meat and its products recently were promulgated and the conference is designated to instruct inspectors in their execution. Officials of the department of agriculture expect considerable benefit will be derived from the conference.

AN UNHAPPY KID.

NEW YORK, May 21.—The first Rocky Mountain goat ever born in captivity has made its appearance in the great house at the Bronx Zoo. The kid is a fine specimen and bids fair to grow into a strong and healthy goat. This is the dearest hope of the Zoo officials for heretofore not only has no kid been born but the old goats captured will have seldom lived more than a few months. The parents of the newcomer were captured in the Rocky Mountains in 1904.

To Republican Voters

AN OVERWHELMING majority of Oregon's voters by registration have formally declared that they believe in the principles of the Republican Party. Let them now show that they are honest by voting in accordance with their declarations. The Oregon election comes before the Republican National Convention. Let every Republican voter in the Second Congressional District uphold the honor of the Republican Party in Oregon and strengthen the influence of Oregon's delegation in the National Convention by voting for H. M. Cake for United States Senator and W. R. Ellis for Representative in Congress. If either of these Republican nominees fail of election the primary election system will be discredited and a return of boss rule will be invited. The good name of Oregon's delegation to the National Convention will be placed in a humiliating position. For the effect it will have on the November election it is imperative that the Republican nominees in the June election shall be elected by an overwhelming majority. As a believer in the principles of the Republican Party it is your duty to be at the polls June 1st, and vote for Cake and Ellis.

SECOND CONGRESSIONAL DISTRICT REPUBLICAN CENT'L COMMITTEE

E. H. FLAGG, Secy. W. E. WILLIAMSON, Chairman

ABANDONS BUSINESS

Chicago Will Purchase Her Public Lighting Currents

UTILIZE PLANTS OTHER WAYS

Great Drainage Canal to Get Benefit of City's Electrical Service—Outside Sources to be Relied on For Lights.

CHICAGO, May 21.—

The City of Chicago is going out of the electric lighting business. City Electrician Carroll is now engaged in winding up the enterprise and within a month the municipality will have retired as a producer of electricity. The retirement probably will be permanent.

In the future the city will purchase all the current required for the municipal electric lighting system from the sanitary district.

The city's steam plants are being turned into distributing stations for the drainage canal current, which the council has contracted to purchase at \$15 a horsepower. In this way the city will be enabled to light the streets at a great reduction from the cost in the past.

At 5432 city electric lights are being operated with the canal current, leaving 3171 operated from the city plants which will be transformed into distributing stations in the next month.

The city will also install in a few days transforming station in which the canal current will be distributed directly from the canal feed wires. Several other transforming stations are to be established this year and the city will then purchase all the current possible to use within the limitation of extension imposed by the city council.

New Grocery Store.

Try our own mixture of coffee—the J. P. B. Fresh fruit and vegetables. Badollet & Co. grocers. Phone Main 1281.

The very best board to be obtained in the city is at "The Occident Hotel." Rates very reasonable.

LADY MANICURIST ENGAGED.

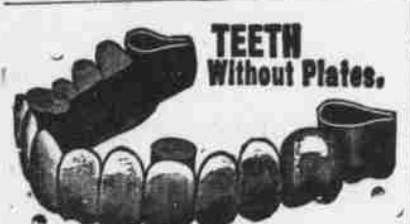

"The Modern," A. E. Petersen's beautiful tonsorial establishment, has been further modernized by the permanent engagement of a highly trained young lady manicurist, who will also serve the house as cashier. service. A common saying nowadays is "Get the Palace habit."

The Commercial.

One of the coziest and most popular resorts in the city is the Commercial. A new billiard room, a pleasant sitting room and handsome fixtures all go to make an agreeable meeting place for gentlemen, there to discuss the topics of the day, play a game of billiards and enjoy the fine refreshments served there. The best of goods are only handled, and this fact being so well known, a large business is done at the Commercial, on Commercial street, near Eleventh.

The Clean Man.

The man who delights in personal cleanliness, and enjoys his shave, shampoo, haircut, and bath, in Astoria, always goes to the Occident barber shop for these things—and gets them at their best.
