#### F. KOHLER'S SPEECH

(Continued from page 1)

on night duty and to the public when the officers are on day duty, saving the city thousands of dollars in witness fees, work for the police judges and court attaches, wear and care of police apparatus, and cut politicians and shyster lawyers out of their revenue.

The force became thoroughly interested and the policy has proved a success during five months of severe trial we have given it. The arrests for the first four months of 1908 compared with 1907, were 911 to 2,158 for January; 829 to 2,257 for February; 939 to 2,711 in March and 907 to 2,434 for April. These figures show how arrests have decreased. Reports and complaints have diminished at a corresponding rate and officers detectives and patrolmen are able to devote more time to the pursuit of the habitual criminal and crime of a serious nature. This in turn has result in driving from our city practically all of these vultures, and those remain are under such close surveillance that it is almost impossible for them to operate successfully.

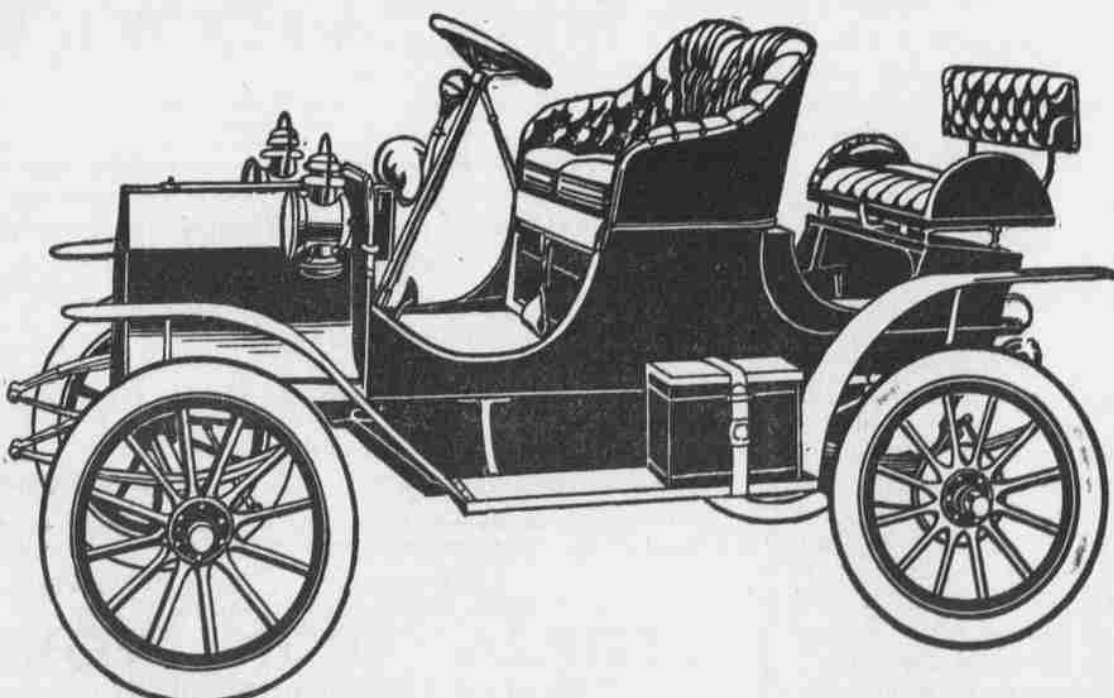

I believe that if this policy is properly and generally carried into effect it will put the American patrolman in the position he should occupy. The police can help to make the world a better place to live in. We have driven young and weak men to the haunts and association of habitual and expert criminals. We have taught them the ideals and practices of crime. We have punished we have not prevented crime. The time has come to change all this and I believe in Cleveland we have found the way to do it.

#### TEACHERS DON'T MARRY

But Many Leave to Take up Other Business.

NEW YORK, June 2.—The popular idea that women teachers leave the public schools to get married and for other reasons is not borne out by a study of the state board of education. A partial list compiled of the teachers who have resigned to enter upon lucrative business occupations shows that the young women who are bright enough to teach are bright enough for vastly more profitable work.

The first year's salary of a school teacher is \$600 or \$1.66 a day, with an annual increase of about ten cents a day until after 17 years, the maximum salary of \$1,240—less than \$22 a week—is reached. The salaries paid to women in the other city departments are greatly in excess of these, and telephone operators receive more than many school teachers, though it does not require fourteen years of preparation to master the mysteries of the switchboard. Scores of former teachers are now filling much more lucrative positions in other lines of endeavor.

Grand Prize, Reo Automobile, to be Given Away by MORNING ASTORIAN in Popular Contest. See Page 16 For Special Offer Next Week.

## THE OLYMPIC TEAM

Will Have More Collegians Than Ever Before

HALSTED EXPECTED TO LEAD

Experts All Over the Country Are Unanimous in the Opinion That the Games Will be the Greatest Ever Held in This Country.

NEW YORK, June 2.—Following the grand performances by athletes in the inter collegiate championships at Philadelphia Saturday, College men are predicting that the Olympic team which will represent this country in London next month will have more collegians on it than ever before.

While the opinion is unanimous that the two big New York clubs, the New Athletic Club and the Irish American Athletic Club will be represented in the team, the athletic experts say they have to beat their best in order to win many events at the try-outs in Philadelphia Saturday.

Among the milers, Halsted of Cornell is expected to be among the leaders, but Gothamites have much faith in their man and predict that at the finish that Sullivan of the Irish-American A. C. holder of the national championship and Fred Rodger of the New York Athletic Club would be in front of the collegian.

Another event in which collegians expect to upset the plans of the Athletic Clubs is in the half mile run. They pick Jones of the University of Pennsylvania to beat Melvin Shepard, the country's greatest middle distance man.

For the sprints there is a division of opinion. New Yorkers are mute on the chances of the local men's success. But they will not concede events to out of town men. In Philadelphia every expert is an admirer of a different man. Collegians pin their hopes on Cartmel who won both the dashes on Saturday. Others say that Recker, the youngster from the University of Virginia, who was recently credited with negotiating 100 yards in 9 2-5 seconds, will distance his opponents.

Ramsdell of Texas is the one sprinter nearly every athletic authority concedes has a great chance to win. He is credited with exceptionally fast time in the sprints and those who have watched him train say that he shows up well.

Dan Kelly, the record holder, has to be reckoned with. Under the care of Mike Murphy he has improved wonderfully of late. The collegians claim all three places in the pole vault. Headed by Dray of Yale, they say they will beat all the best jumpers belonging to clubs in the country. But while New Yorkers admit that Dray will probably win the event, they say there is no other collegian in the country who will beat the club representatives.

In the other events the college men are not so sanguine of success, but they claim they have a grand chance of winning all but two or three of them.

Experts all over the country are unanimous in the opinion that the games will be the greatest ever held in this country.

#### STEAM SHIP VADERLAND.

DOVER, June 2.—The agent of the Red Star Line here states that he received a dispatch from Antwerp that the S. S. Vaderland is anchored in the bay at Riverskeldt, repairing a defect in her machinery. Considerable anxiety was felt here owing to rumors that the Vaderland had gone ashore or been in collision owing to fog that had prevailed in the English Channel the past 36 hours. Evidently the steamship met with mishap after her departure from Antwerp, as she was due to sail on Saturday and was due here on Sunday, but the nature of the mishap at present is unknown.

#### IN GOOD CONDITION.

James R. Keene's Famous Race Horse After His Great Victory.

NEW YORK, June 2.—Following his great victory in the Belmont Stakes at Belmont Park on Saturday, James R. Keene's Colin returned to his stable at Sheepshead Bay apparently in good condition. His legs were wrapped in heavy bandages, saturated with a lotion intended to relieve any inflammation that might have resulted from his long gallop through the mud.

"The bandages will not be removed for a day or two," said James Rowe, Colin's trainer at Sheepshead Bay, "until the legs have been examined again. I feel satisfied, however, that he will be all right in the future. He eats everything that is placed before him, the best sign that a horse is enjoying life."

#### IN THE COTTON WORLD.

BOSTON, June 2.—The close of the first months of the 1908 market which is to be the beginning of the end of the depression in New England which has hung over the cotton and other textile manufacturing centers since the weeks following the financial disturbances last fall. Yesterday many mills, which have been on short time for months, started their machinery on full time. Some have increased their output during the past week, and thus far manufacturers employing about 35,000 persons have given notice of the abolition of short time schedules.

#### DOCTORS IN POLITICS.

CHICAGO, June 2.—Physicians must break in politics. This was the keynote of an address on "Civic Duties of the Medical Profession," delivered last night at the annual banquet of the American Medical Editors Association by Dr. Charles A. L. Reid, formerly president of the American Medical Association. A seat in the president's cabinet with a secretaryship of the proposed department of public health, is the end conceded to be sought by the proposed political campaign. According to Dr. Reid it is only by representation in congress which he described as being "water logged with lawyers", that the medical profession can secure or prevent legislation.

#### ADMIRAL TO PRISONER.

SAN FRANCISCO, June 2.—From admiral of the Salvadoran navy to prisoner, was the remarkable experience which befell Captain Wentworth H. Moore, formerly first officer of the Pacific Mail Liner Peru, who six months ago accepted an offer from the Central American Republic to take command of its navy, consisting of one gunboat, at a salary of \$300 a month. Captain Moore, as he said, returned to God's country yesterday in Steamer Acapulco his ideals shattered, and with only the memory that he was once an admiral for a few months to console him.

He attempted to re-model the naval system of the republic but his ideas were not popular and an attempt to enforce discipline resulted in his discharge and imprisonment.

#### ANOTHER WORLD-GIRDLER.

SAN FRANCISCO, June 2.—Extensive commerce between China and various ports of the world, but more especially between that country and the U. S. by the way of San Francisco is the object of the Laing Yuet Chinese merchants Steamship Company, recently organized at Canton. The capital stock of the company is \$10,000,000 and headquarters have already been opened in Canton.

## ON FALSE PREDICATE

Advanced Views on the Status of Womankind

CHUCK NATURE FOR DOLLARS

Divergent Opinions Upon the Real Latitude of Sex—Wifehood and Motherhood Relegated to the Rear—Chicago Sponsors It.

CHICAGO, June 2.—Women physicians took a stand advocating the right of girls to enter any profession or to engage in any business in preference to becoming wives and mothers at yesterday's session of the American Academy of Medicine.

Several men physicians read papers deploring the fact that too many women unsexed themselves by forsaking home life for industrial work and asserted that the future of the race depended upon the checking of "this wide spreading evil."

Then Helen C. Putnam of Providence, R. I. startled the audience by declaring she was in favor of women's suffrages. She said:

"Every woman has the right to develop her best faculties, to become educated and to enter a business field, where she meets many men, so she can select the father for her children I favor the establishing a study of home making in the public schools of our country."

Dr. Wm. A. Culbertson of Boston said: "Cooperation of the two sexes is needed to settle the question of women in business life."

Dr. Wm. Jackson, of Colorado, asserted conditions had changed during the last hundred years and that women should be allowed to change their habits and occupations.

Dr. Otto Juettner of Cincinnati, Ohio, said: "The lack of house and domestic servants is disrupting society and home life."

"I have no sympathy with women who work in stores or other industrial institutions for starvation wages when there are thousands of homes in which they can get respectable employment better fitting themselves for married life."

Dr. George Hoxie of Kansas City, talking about the education of women, declared it was a deplorable fact that teachers in public schools received less wages than hod carriers.

#### ABSENCE IS ABANDONMENT

SAN FRANCISCO, June 2.—In a decision rendered yesterday by the U. S. Circuit Court of Appeals, Judge Morrow, who wrote the decree, held property in a mining camp must be held by actual possession, otherwise absence amounts to an abandonment. The decision is in the appeal from the Alaska Court of Wm. Gordan against the Ross Higgins Company and Lillian J. Ray. The action was brought to dispossess the defendants of a lot in Fairbanks a mining camp in Alaska.

#### HIS WORK CUT OUT.

WASHINGTON, June 2.—Secretary of the Interior Garfield will leave here tonight for San Francisco, where he will leave on the Battleship Maine for Honolulu to acquaint himself with various questions pending in Hawaii, including coole labor, coast-wise trade regulations and river and harbor improvements. When he returns to the U. S. in July he will spend some weeks visiting the Indian reservations and going over the work of the reclamation service.

#### HE WAS CORNED.

CHICAGO, June 2.—Herman E. Schnabel, aged 60 a pioneer wire manufacturer of Chicago committed suicide yesterday by shooting himself through the head. Schnabel is said to have lost more than \$50,000, the remnant of a large fortune, which he once possessed, in the recent advance of corn prices. This fact is believed to have caused him to end his life.

#### GIRLS SACRIFICE HAIR.

To Restore Cashier's Hair, That Was Pulled Out By Roots.

NEW YORK, June 2.—In order that Miss Catherine Gorman, cashier in a department store in Brooklyn, may come out of the hospital with a full head of hair, more than 100 department store girls each sacrifice from a quarter to one inch of scalp with long flowing locks attached. On May 15 Miss Gorman's hair caught in a cash carrier and most of it was pulled out by the roots. Physicians at the hospital at first suggested a wig as the best means to cover the bare spot on Miss Gorman's head but she objected to this and it was finally decided that the grafting process should be tried. Her friends in the department store readily consented to supply the necessary pieces of scalp. Girls with hair as nearly the color of Miss Gorman's will be the first ones to make the sacrifice, but the physicians say it will be impossible to get all the hair alike so after the new scalp has healed, they will dye the hair any color that Miss Gorman may desire.

It is said it will take practically a year to complete the operation as only small portions of new scalp will be put on at a time. As soon as one piece begins to root, another of the same size will be taken from another volunteer and so on until the operation is completed.

#### IOWA BREAKS IN.

DES MOINES, June 2.—To-day the political parties in Iowa will for the first time nominate their candidates for the November election by a state-wide primary. Among the republicans the chief interest is in the contest between Gov. A. B. Cummins and U. S. Senator Wm. B. Allison for the republican nomination for the U. S. senatorship.

#### FOUR YEARS FOR FRAUD.

SAN FRANCISCO, June 2.—Four years in San Quentin was the sentence imposed yesterday by Judge Ogden of Oakland upon David F. Wythe, Columbia University graduate, former private secretary to B. Fay Mills and a house thief. He was sentenced after he had made a dramatic plea for leniency.

#### AUTOING IN SIBERIA.

ST. PETERSBURG, June 2.—Baron Edward Scheinvoegel left this city yesterday for Siberia to replace Emilio Sartori, as chauffeur of the Italian car in the New York to Paris Auto-race. Sartori is returning to Milan, and the car in the meantime is being run by Henri Haaga the mechanic. Baron Scheinvoegel is a prominent Russian sportsman who has made several exploring trips to Africa.

#### SEA SICK CHAMPION.

LONDON, June 2.—W. K. Vanderbilt's Sea Sick II which ran a dead heat with M. Deschamps' Quintette II, for the French Derby at Chantilly, arrived at Epsom last night. The horse is expected to go to the post in the Epsom Derby on June 3 in excellent fettle. To-day's betting against Sea Sick II is ten to one. August Belmont's Norman III, after temporarily giving the place to King Edward's Perrier, is again favorite at 100 to 15 against with Mountain Apple and Perrier close up at 7 to 1 and 15 to 2 against, respectively.

#### GOLD FROM ALASKA.

SEATTLE, June 2.—The Post Intelligencer, after receiving reports from all points in the North, estimates the gold output for the coming season in Alaska at \$26,000,000. The prediction is made that the coming of this stream of gold from the North will have an effect on the country similar to the manner in which the Klondyke gold materially assisted in reviving the business depressions following the panic of 1895.

#### Will Cure Consumption

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages." You never heard of any one using Foley's Honey and Tar and not being satisfied.

**FOLEY'S HONEY AND TAR** THE ORIGINAL LAXATIVE HONEY AND TAR
