### MAY FIGHT BILLS

### THE ANTI-GAMBLING LAW

New York Sports May Establish Credit Betting as Used in England—Betting Will Continue Until the Sheriff Gets Copy of New Law.

NEW YORK, June 12.—Whether or not it will be possible to place a bet at the Gravesend track this afternoon is the question that is interesting race followers. The anti-gambling bills went into effect yesterday the moment they were signed by the governor but it is the general opinion that no effort will be made to stop betting for a day or two. Sheriff Hobeley of King County, in which the track is located, is quoted as saying he does not believe it will be necessary for him to enforce the law as he presumes the Club will at once suspend all bookmaking at the track. Under no circumstances, it is said, will he make any move until he receives a certified copy of the bill and information of its passage. Information of any violation of the law the Sheriff says, will then be followed by immediate arrests and the law will be enforced to the letter even if it becomes necessary to call out the militia forces of the state.

The Sheriff, however, does not expect trouble and it is not likely he will have any.

It is believed that as soon as the certified copy of the bill is received by the Sheriff he will notify the officers of the Brooklyn Club. Then it is probable there will be no direct violation of the law by a member of the Bookmakers Association in the presence of an officer.

It is known the bookmakers and the track owners are prepared to fight the law on the ground of unconstitutionality. The principal point which will probably be made against it is the claim that the special election at which Senator Wallace of the Niagara district was elected was illegal.

There seems little doubt that the state's racing on the Metropolitan tracks will be carried out as original.

ly planned but what will happen next year is a matter of speculation. It is thought that an effort will be made to establish a system of credit betting like that used in England, but bookmakers are not enthusiastic over the probabilities of the success of such a system even this system may prove to be impossible under a strict interpretation of the new law.

#### Cured Hemorrhages of the Lungs.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar, and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." Foley's Honey and Tar stop the cough and heals the lungs, and prevents serious results from a cold. Refuse substitutes.

#### ACCUSED OF STEALING \$25,000.

Salvador Marcara Arrested In Los Angeles Where He Has Been Hiding.

LOS ANGELES, Cal., June 11.—Accused of stealing \$25,000 from the Mexican Government, Salvador Marcara, formerly collector of internal revenue of the State of Guanajuato, at Leon, was arrested here this afternoon by the Federal authorities. For more than a year Marcara had been hiding in Los Angeles, and it is said that under an assumed name he has been prominent among the local Mexican revolutionists.

Malacara, who comes of a wealthy Spanish family, is accused of collecting money in the customs office, and then intercepting the vouchers, keeping them and failing to turn the money into the treasury. He will be arraigned tomorrow and held until officers arrive from Mexico. His wife intends to fight his extradition.

#### BLACK HAND MYSTERY.

San Jose Student Threatened by Unknown Man.

SAN JOSE, Cal., June 12.—Through an unofficial source it is learned that the sheriff's office in this city is engaged in an effort to unravel one of the strangest "Black-hand" mysteries ever called to their notice. On the night of May 31, Charles Broyles, a 16-year high school student, of this city, fired two shots at a man loitering in the street opposite his home and who had fired upon him. Broyles received a slight flesh wound in the shoulder caused by a bullet from his opponent's revolver.

Broyles had received two letters in which the writers demanded a sum of money under penalty of death. All traps laid for the writers have evidently been betrayed, for the plotters according to a letter which had been written subsequently to the shooting. The writer states he was wounded by one of Broyles' bullets and swears a terrible revenge. Broyles has abandoned his studies in the high-school and is keeping close within his home.

It is better to cure the little cough than to take chances of consumption. The best cough cure is Kemp's Balsam. Druggists sell it at 25 cents and 50 cents a bottle.

### MAY EXPLAIN MYSTERIES

Discovery Of Bones On A San Bernardino Ranch Arouse Suspicion

SAN BERNARDINO, Cal., June 12.—Suspicion aroused by the discovery of bones believed to have been portions of a human frame on the Duncanson ranch near Chino have led to a closer investigation of the premises and the owner of the ranch is now under arrest charged upon the statement of August Phillippi, an eleven year old boy of abusing him and another orphan, a seven year old girl. The investigation to-day resulted in the discovery of a trunk filled with a woman's wearing apparel, which Detective Baldwin of the city employed upon the case, says do not belong to Mrs. Duncanson but the belief is they belong to a patient of Dr. Duncanson who has never been seen to leave the ranch and whom the authorities are now trying to locate. A well was found abandoned near the house and this will be emptied of its contents. Perchance it may give some clue to a number of mysterious circumstances in connection with the case. The Pasadena Home Society will assist in the future investigations.

#### AFTER THE INDIANS.

4000 Mexican Soldiers in Hot Pursuit of Yaqui Braves.

TUCSON, Ariz., June 12.—A special to the Star from Hermosillo, Mex., says 4000 Mexican soldiers are in the country in hot pursuit of the Yaqui Indians.

All negotiations looking toward the signing of the peace treaty were suddenly broken off this afternoon. The Yaquis insisted on retaining their arms and ammunition after having acceded to every other stipulation of the Mexican government.

The Mexican officers stood steadfast and the Yaqui generals withdrew from the conference. Immediately orders were dispatched to the Mexican troops in the field to resume hostilities. It is not believed that the campaign will last long as the Mexican troops have all the water holes in the Yaqui country surrounded.
