What the Company is

The Pacific Coast Gas & Oil Co. is composed of reliable business men of Oregon and Washington whose only purpose is to develop the property to the best of its ability and produce a paying mine of oil and gas that all who have purchased stock may share in its profits. The officers serve without salary and include among them some of the most reputable citizens of the State. To make the company strong on account of its brilliant future it has secured leases on over 6000 acres of land. It has obtained the highest expert authority on the geological formation of the land, employed the strongest expert workmen to operate the drilling apparatus and given such other evidence of good faith to warrant any man making an investment with them.

If you have any doubt as to the stability of the com. pany, or in the manner in which it is operating, before you make any investment visit the property any day and satisfy yourself. Oil and gas 'will be found in paying quantities. After the "strike" it will be too late to buy stock. Do it NOW.

Stock for Sale

For Development Pa · oses

The per value of the stock is \$100 per share, but is now offered at onehalf (\$50) and it is worth it. The company has already sold a limited amount of stock, equipped the property with the best working machinery in the world and it has plans for a great future. The money secured from the sale of stock will be to push the work. Every dolar will be used to prepare for the best interest of the company. As the drill goes down the stock will surely rise. The price it is now offered at will only be a short time. A good rule is to let opportunity in when it knocks at the door. For an investment there is nothing more tangible, brighter or more surer dvidend paying than this stock, particularly at \$50 per share. Don't wait until it goes to par, but buy now. It is really a chance that comes seldom. Further particulars at the addresses given below.

The matter of the value of the purses at Sheepshead will be decided at a meeting of the governors at Coney Island to-day and the expectation is that the added money for the over-night races will be reduced from an average of : little more than \$1,000 each to about
