SHERMAN RESTLESS

**Congressman's Condition About
the Same**

NO ONE ADMITTED TO ROOM

**Necessity For Operation is Still Denied
by the Physicians—He is Very
Restless and Complains of Severe
Headaches.**

CLEVELAND, June 25.—At 1 a. m. Congressman Sherman rested more comfortably. The attending physicians are in the opinion that the necessity for an immediate operation has passed. It is not expected that Sherman will be able to leave the hospital before next Sunday.

CLEVELAND, O., June 24.—James Schoolcraft Sherman, republican nominee for the vice presidency passed a comparatively restless night at the Lakeside hospital. Both pulse and temperature fluctuated, temperature going as high as 102 8-10 during the early hours. At times the heart action became greatly increased. The early morning found the patient as near normal as at any time since his arrival at the hospital. His respiration remained steadfast at 28 during the entire night. He was very restless early in the evening and complained of headache and backache, but expressed a desire for more nourishment. After midnight the congressman dozed off at intervals and remained in a restful state until dawn when he again became a little restless.

Upon the advice of the attending physician, Dr. E. P. Carter, all persons were excluded from the congressman's room. Among the early night callers were Ex-Gov. Herriek and others none of whom was admitted to the sick chamber.

Mrs. Sherman and son retired early to their apartments to seek a much needed rest after their long and anxious journey. Early in the evening Mrs. Sherman expressed a desire that a specialist be sent from New York. The congressman's secretary made an effort to communicate with Dr. Bull. An hour later attending Physician Dr. E. P. Carter communicated with Johns Hopkins University of Maryland in an effort to locate Dr. Morrison but it was explained that he had departed for Europe. This activity in seeking alien advice was explained to be only a precautionary

measure in case a change should take place.

No word has been received from Dr. Mayo of Rochester, Minn., to whom a message was sent.

A New York despatch stated that Dr. G. W. Boskowitz, personal physician, left for this city at 5:40 p. m. yesterday. Upon his arrival this morning it is arranged to hold consultation with Drs. Carter and Allen. Necessity for an operation still is denied by attending physicians.

The anxiety was plainly visible at the hospital in the early hours of the night has vanished and the most hopeful attitude now is assumed.

Mr. Sherman awoke at 4:30 a. m. after a short sleep greatly refreshed but with a temperature of 102 4-5.

SELLS WORTHLESS STOCK

**M. B. Leavins Is Under Arrest In
Tonopah**

SAN FRANCISCO, June 24.—J. H. Simpson, manager for H. H. Norwood a stockbroker of 306 Bush Street, swore out a warrant yesterday for the arrest of M. B. Leavins. Leavins is under arrest in Tonopah, Nev., and the warrant was necessary to secure extradition papers.

The special charge against Leavins in the complaint is that on Feb 6 he gave to Simpson a certificate for 1,000 shares of stock of the Sandstone Mining Company of Goldfield at \$1 a share, in the name of J. C. Culver, to negotiate. After the sale Leavins was paid the money. Later, it is alleged, not only was the stock found to have been valueless, but the discovery was also made that Culver's signature was a forgery. All five certificates are said to have been manipulated in the same manner.

SMUGGLING CHINESE.

**Over the Mexican Border Into the
United States.**

SAN FRANCISCO, June 24.—In Los Angeles, according to information gathered by the immigration authorities, there is a ring of active men employed in smuggling coolies over the Mexican borders into the United States. The gang in Southern California is believed to have agents throughout the country and the inability of the regular officials to cope with the situation, has caused the department of commerce and labor to send a special agent to make an independent investigation. The department officials apparently take an alarming view of the situation. From an examination of Chinese recently caught sneaking into the United States it developed that the smuggling of coolies into this country is a matter of considerable expense and that the traffic is financed and managed by a well organized ring. Commissioner North expects when the in-

quiry from Washington gains headway, that new light may be thrown on the smuggling ring, but at the same time he is positive that whatever smuggling may be taking place the operations are confined within a limited area and involve only a few Chinese at most.

UNIQUE HONEYMOON.

**Spent in Boxcars and on Breakbeams
From New York.**

CHICAGO, June 20.—A despatch to the Tribune from Los Angeles, Cal., says:

A police court here was the scene yesterday of the end of a romance of less than a year including a honeymoon spent on brakebeams and in boxcars from New York to the western coast. The characters in the drama were Wm. Koprivich, member of a wealthy Hungarian family, who fled from his native land to escape army service, and his wife, Albina, sister of Count Kabana of Austria-Hungary. They were married in New York City, where she was visiting. He told her of a fine job he had in the west, and to save expenses she donned a man's clothing and they beat their way to Los Angeles. The trip was made in snow and cold weather and the woman suffered much.

The husband deserted her here, and she was forced to ask the aid of the police. Koprivich was ordered to pay her \$10 and \$4 a week until the divorce action she started is tried in August.

A baby was born less than a month ago while the young woman was in privation, and lived only a few days.

MILLION DOLLAR ESTATE.

**Of Michael McDonald Tied up by
Judge K. M. Landis.**

CHICAGO, June 24.—Judge K. M. Landis yesterday issued a restraining order in the U. S. District Court tying up the million-dollar estate of the Michael McDonald. The order is the result of a petition filed by the creditors of the McDonald estate which Mrs. Dora McDonald's as a widow's dowry claims. The petitions represents and indebtedness of \$1,000 the actual amount to be sought in the U. S. Circuit court is in excess of \$400,000. This amount represents attorney fees and other liabilities incurred by the Mrs. McDonald in which she was charged with the murder of Webster Guerin.

**A Trade Stirring
Sale**

You must compare the prices with the goods to appreciate the colossal savings to be made at this sale.

No one who is anxious to make his money reach its extreme purchasing power will miss this opportunity.

If it's only out of curiosity, come and see what magnificent chances to save money we are offering.

Bear in mind that this sale is limited—we can not continue it a day longer than July 4th.

The price has absolutely no relative proportion to the value—in making our reductions we have been guided only by our desire to make space for new goods.

It is utterly impossible for you to appreciate what marvelous bargains these are, until you see the goods and the prices together.

If you've been waiting for the most favorable time to buy, you better buy now—no lower prices can possibly be made this season. Think for a moment what these marvelous price reductions mean to you, and you will lose no time in taking advantage of them.

This is the economy event of the year, when thousands will respond to our remarkable offerings.

There is a double satisfaction for us in our semi-annual sales—we dispose of our surplus stock, making room for new goods, and we give to our friends the opportunity to save a large amount of money.

The buying has been persistent—our store has been thronged with customers—still thousands of attractive bargains are here awaiting you.

A mammoth sale of over \$10,000 worth of the finest of high-grade clothing—furnishings of exceptional quality. Hats of the newest styles; none of which have been in our store before the present season.

The word bargain never before obtained the significance which it has at this sale. At this great sale, we want our friends—those who are regular customers at our store—to take advantage of this great money-saving chance which the end of the season offers.

ARCHAEOLOGICAL SERIES.

**Dr. Samuel A. Barrett Leaves for the
Interior of Ecuador.**

BERKELEY, Cal., June 24.—Dr. Samuel A. Barrett, of the California University, who has been connected with the Department of Anthropology for two years and has conducted a series of investigations of the languages and habits of the Indians of this state has left for the interior of Ecuador and Peru where he will take part in archaeological experiment in that country. He is one of the members of the Geo. E. Heye expedition which was fitted out three years ago by a New York millionaire. The explorations of the party will cover Northern Ecuador and Peru.

ORGANIZE OFFICE HELP

NEW YORK, June 24.—For the second time within three or four years an attempt is being made to organize the stenographers and typewriters. The bookkeepers, stenographers and Accounts Union which has been formed has issued a circular to all bookkeepers, stenographers and typewriters in Greater New York urging them to join the new body.

The circular says the hod carriers and teamsters get \$3 a day because they are organized while the office workers who require greater skill, receive much lower wages.

ENGLISHMAN CAPTURED

TANGIER, June 24.—An Englishman named Clark Kennedy has been captured and imprisoned by the House tribes near Tetan, 38 miles southeast of this city. The tribe demands a ransom for his release.

THE DEATH SPECIAL.

The passenger department feels the first pulse of the call for the death special. It is a business proposition in the first 30 minutes. Who wants the train. Can he pay for it? Is the order O. K.

Two hours for assembling a death special with steam up is sharp work. Ordinarily more time is needed for the passenger to get in readiness than is required by the railroad company. The head of the operating department receives the first call for the death special and with the call comes the reasons for the run. At once the general superintendent faces the question of time. He makes a hurried calculation

**THE ROAD OF A THOUSAND
WONDERS**

**Shasta Route and Coast Line of the
Southern Pacific Company
Through Oregon and California**

Over 1300 miles of scenic beauty and interest—attractive and instructive. This great railroad passes through a country unsurpassed for its scenic attractions, and introduces the traveler to the vast arena soon to become the scene of the world's greatest industrial activities. There is not an idle or uninteresting hour on the trip, and the variety of conditions presented excites wonder and admiration.

18th and Franklin Ave. Tel. Main 2481

tion of distances between given terminal points and blocks out in the rough the time necessary for the run. The division superintendents are notified and the chief dispatches set to work arranging a new schedule that is to take into consideration every station and every side-track on the whole system over which the flyer is to speed. The first duty, however, is to call up the master mechanic or the roundhouse foreman at the terminal from which the special is to be made up, asking for the train to be in readiness at a certain minute. All conditions are alike to the crew of such a train. Momentum is all that counts. Towns, cities, bridges, sage brush and cultivated fields are one in the landscape. The engineer knows every

grade, every station, every culvert, bridge and switch on his division, and for an average of 225 miles he and his conductor will have the duty of safely sending the special through space.—From July Popular Mechanics.

Lane's Family Medicine cannot save all doctor bills, but can save a good share of them. One two-shilling package has kept a whole family in good

When the doctor is called he asks: "How are the bowels?" They are generally wrong. His visit might have been saved by a timely dose of Lane's Family Medicine.
