HAWAIIAN-AMERICAN S. S. NEBRASKAN DUE IN PORT

(Continued from page 1)

the proposition at this time, as he is a great believer in action.

It is well to state, however, that any merchant or business man in Astoria or in this section who deems it possible to cultivate a business with the Hawaiian Islands would do well to communicate with Mr. Elmore. It is self-evident, however, that an important thing for Astoria and the Astoria merchants at this time, is that every exertion be made to secure cargoes of greater or less importance for Oriental shipment or for shipments to New York and it should be entirely within the range of possibilities to secure full cargoes for the liners of the American-Hawaiian Steamship Company here in Astoria within the very near future.

Should the promised facilities be completed by the Hill Railroad interests so as to encourage exports from Astoria, Mr. Elmore's endeavors will be of still greater value than they otherwise would. But should these facilities not be forthcoming it is up to Astoria to hew a way to greatness in export business as well as in all other lines of commerce.

This is but the opening wedge and now that it has been firmly driven it is to be hoped that efforts in this direction will be still further stimulated and that wherever a transportation line or a transportation company tries to belittle or injure the commerce of Astoria, that the business men of the Chamber of Commerce may be able through some means or other, in a like manner to find still another opening wedge.

Considering the intelligent, hard work that is now being done by the business men of this city through well organized methods, it is difficult to say how Astoria can fail to accomplish her destiny within a very short time.

Notice.

Mr. L. C. Rogers, chief engineer of the Astoria, Seaside & Tillamook Ry. Company, arrived in town yesterday and was busy all afternoon ordering supplies for office and field work, which will be begun on Monday, July 6th. All applicants for the engineering crew will please report at

the company's office in the Fulton and Dement block this morning between the hours of 8:30 and 9 o'clock.

TEACHERS TO GET MORE PAY

NEXT YEAR A NEW SCHEDULE
OF SALARIES WILL IN-
CREASE EARNINGS NEARLY
10 PER CENT.

Announcement was made yesterday by Prof. A. L. Clark, superintendent of the city schools, that the increase of teachers' salaries for the coming year will amount to nearly 10 per cent. For the school year that has just come to a close the teachers' salaries monthly aggregated \$2280; for the coming year the monthly aggregate will be \$2480. This sum multiplied by 10 will give the amount of money to be spent during the coming year for the teachers, as there are 10 months in the school year.

In the Astoria schools there are thirty-six teachers, of these only four being men.

The salary increase will be very welcome to the teachers, and it was voted by the board of education on June 2 in accordance with the formal vote taken by the taxpayers at a meeting called last December. At that time the taxpayers in meeting assembled voted to increase the school tax two mills, and a subsidiary motion declared that the extra taxation was for the purpose of increasing the salaries. The board of education has more than once been severely taken to account for delaying action in granting the increase, as the new schedule of salaries will not go into effect for upwards of a year after the time when the taxpayers voted for the higher payment. Following is the new schedule of payment:

Principal of High School.	\$100 to \$110
High School teachers.	75 to 90
Principal of Ward schools,	
4 rooms	70 to 80
And \$5 for each additional room.	
Eighth grade	65 to 75
First Primary	60 to 75
Intermediate (2nd to 7th grades)	55 to 70

According to Mr. Clark, the lowest salary paid is \$55, which is the payment given to new teachers. In the high school the principal will receive \$110, and the teachers \$90. All in all the increase for the coming year is a

very gratifying one, and because of it the high standard of work in the Astoria school can be maintained. The new principal, Mr. J. G. Emil, who comes from Oklahoma, has undoubtedly been accustomed to receive considerable more than \$110 per month and there is little chance of holding him after the first year unless a material increase is granted. Living expenses in this part of the state are high and salaries must be high enough so that it is possible to save something at the end of the year. It is believed that the new principal of the high school will prove to be a very capable man. Superintendent Clark yesterday also received a telegram from E. P. Bradley, of Albuquerque, N. M., accepting the offer to become principal of the Adair school. The board had seriously considered the advisability of offering the principalship of the high school to Mr. Bradley, and counts itself fortunate in now procuring his services at the head of the ward school. Both of these gentlemen were desirous of coming to the Northwest and hence were willing to start in here at fairly low payment.

"How do the schools of Astoria compare with those of other towns and cities in the state?" the Astorian representative asked Superintendent Clark.

"Our schools rank high," he said. "Perhaps it may be safely said that outside of Portland, Pendleton and Baker City, our schools are not excelled either in work accomplished or in salaries paid. The character of the school is pretty well told by the salaries paid. Our salaries are a little higher than in Eugene, Salem and other towns, and we think we have correspondingly better schools."

The board of education also recently adopted another resolution of much importance. In effect it is that the board recommends that for every year of service the teachers shall be given an additional \$5 a month. This rule is not a rigid one, however, and will be only permitted in such cases wherein the board is satisfied that the teachers are worthy an efficient.

Country Dance.

Among the genuine attractions for the coming "Fourth," will be the famous "Country Dance" to be given on the night of Friday, July 3rd, and on the afternoon and evening of "Fourth," in the Lurline Dock Hall, under careful management. The fire works display on night of Fourth will be in plain and close view of the ball room.

Bilious Troubles

Bile causes no end of trouble. Sick headaches, bilious attacks, jaundice, constipation and many distressing ailments arise from an excess of bile, or from obstruction of the bile duct. Inactivity, sedentary occupations and indiscretion in feeding and drinking are bile blunders that need to be guarded against. When the liver is disordered the best bile correctives are

BEECHAM'S PILLS

because they relieve the overworked liver, and gently stimulate it when it is sluggish. These pills control the flow of bile, restore its right consistency, and work for the immediate and lasting benefit of the stomach, bowels and blood. Whenever a furred tongue, dull, yellowish eyes, nausea, or headache indicate bilious conditions, use Beecham's Pills at once, to correct the bile and

MEETS DEATH UNDER TREE

WILLIAM McCRAY OF KNAPPA
MEETS SWIFT END BY THE
UNEXPECTED TOPPLING OF
DECAYED STUMP.

William McCray, an old resident of Knappa and well known to very many in Astoria, was probably instantly killed while working on the county road at Svenson sometime before noon yesterday. He was grubbing out an old dead tree, that was decayed around the roots unknown to McCray. The tree fell, striking him on the head and it is thought he was killed instantly. He was working all alone at the time, and just how the accident happened is not known save by inference. The accident occurred sometime between 10 o'clock and noon. He was not missed until time for dinner, and when he failed to put in his appearance as usual for his mid-day meal, his fellow workmen became alarmed and several of them started a search for him thinking that perhaps he had met with a accident. Their suspicions were fully realized, for upon arriving on the scene they found the unfortunate man securely pinned beneath the fallen stump and apparently quite dead. The body was removed with all haste, and Under-

taker Pohl notified, who removed the body to his establishment.

With the exception of a few slight bruises on the head there were no serious marks that would indicate so fatal a result. Up to the time of the accident McCray had been living on a ranch near Svenson, but has not been doing much farm work for the last few years, preferring to do other work, such as logging and working in the camps in the lower Columbia river districts.

As far as can be learned deceased has no relatives in this community. He was unmarried and about 65 years old.

PERSONAL MENTION

John Nelson of Deep River was in Astoria yesterday on a business trip. Mrs. Leibe and her daughter Elsie from Seaside arrived in Astoria yesterday to attend the wedding of Miss Lola Foard.

Mrs. Linda Higgins is in the city visiting for the summer months with her brother, J. C. and C. R. Higgins. Mr. and Mrs. F. A. Fisher and Mr. A. C. Fisher made a trip to Seaside yesterday, going in their auto. They were accompanied by Judge Trenchard, and the party examined the site of the proposed bridge over the mouth of the Necanicum.

Sunday Excursions to Long Beach.

Steamer Nahcotta leaves O. R. & N. dock at 6:45 a. m. daily. Round trip fare to any point on North (Long) Beach, \$1.00, Sunday's only. 7-14

Every Day a Bargain Day

at JALOFF'S store, the only exclusive Ladies' Ready-to-Wear garments in Astoria, and during this ten days Gigantic Slaughter sale, under the management of Kann Brothers, you are able to buy Ladies' High-Art, Tailor-Made Suits at less than you pay for inferior grades at other stores. When you buy at Jaloff's you secure New York's latest designs and materials. Ladies, if you miss this opportunity you miss a rare chance to buy ladies' suits, parasols, waists of all kinds, ribbons, silk skirts, muslin underwear, millinery, coats, etc., at prices never equalled, and today, Wednesday, will be a record breaker for bargains. **COME EARLY**
