MARINE MOVEMENTS YESTERDAY

KELTON BEACHED AT O. R. & N. DOCKS—ALLIANCE IS IN FROM COOS BAY—SCHOONER W. F. JEWETT ARRIVES IN.

The steamer Minnie E. Kelton is now safely beached at the eastern end of the O. R. & N. piers in this port, having been delivered to that company, by Captain William Bailey, of the tug Tatoosh, yesterday morning at 11 o'clock.

After fastening to the derelict on Tuesday afternoon, the captain never let go of her until he had her where he started for, at a point eight miles south of Yaquina light and 10 miles at sea, at 3:15 o'clock yesterday morning. The Dauntless and her big tow were making good progress.

The handsome freight steamship Nicomedia, of the Portland-Asiatic Company, came down the river early yesterday morning, deeply laden with a general cargo for the Orient, and she went below and crossed out at noon, bound for Hong Kong and Shanghai.

The Elmore motor vessel Evie, with plenty of cargo on board will depart out for the Umpqua river at 8 o'clock this morning if all goes well with her. She has not been doing much of late, or since her trawling experiences, but will probably be kept busy the rest of the salmon season.

The Spencer continues to do business at the old stand. When she went up yesterday, she took, as among her passengers, Mr. and Mrs. Jack Ryan, who for the past year or more have made Astoria their home, and are now returning to their old home in Salem.

The steamer Alliance arrived in from Coos Bay points at 6 o'clock last evening and docked at the Callender with a big load of freight and a long list of passengers. She went on up the river without much delay here.

The Lurline is doing the same old and steady stunt of the years, and went back to Portland with plenty of business last evening, at 7 o'clock.

The steamer Eureka arrived in last evening from Eureka and Coos Bay and went directly on to Portland.

PERSONAL MENTION

Geo. A. Emory, representing the New York Central Lines, was a business visitor in Astoria yesterday.

Engineer J. G. Kelly, of the water-works is expected back from Portland today or tomorrow.

David Shanahan was an outgoing tourist on the Spencer yesterday.

E. H. Joseph returned to Altoona via the steamer Spencer yesterday.

Lester F. Lounsbury was up from the ranch yesterday and spend the day here on business matters.

New York News Letter

NEW YORK, July 29.—For the first time in the history of this city about town, whitening the night like a snow storm. No one has to-day been able to give a scientific reason for this overwhelming visitation of the fluttering host, but everyone who knows is devoutly hoping for a quick release from their incumberance. Gotham has few enough trees and leaves; and the entomologists fear the deadly effect of the moth upon them. While, years ago this section was well covered by nature's policeman of the air, the wholesale destruction of the robins and other members of the feathered force has left it helpless against this natural prey for the insect eating birds. This summer the National Association of Audubon Societies is very active in helping to guard the few remaining birds of the metropolis as well as those of the nation. New Yorkers are taking to heart this lesson of the moths.

Genuine grief is spread over all the town to-day as the brave Bishop Potter is laid to rest after the long fight to prolong his most useful of lives. It will be many a long year before the people of New York City will find another such a man, to whom they can turn in common to solve the big human problems. The great sound sense of Grover Cleveland and of Bishop Potter alike have formed two great bulwarks in the public appeal and clamor of the times. Now that the counsel of both giant publicists is forever lost, a sad void is felt in a community where really great men are needed.

Now that a new office mammoth is projected to cap the sky line, a thousand feet from curb to cornice, the veteran fire-fighters of this sprouting town are to-day at a loss to figure on a water pressure equal to the enormous height of the skyward structure. Tests just completed have shown that a fire quenching stream may be flung well within the windows of the seventeenth story of the modern skyscraper, but above this the forces on the street appear powerless. Just what steps will be taken to keep upshooting Manhattan within reach of its fire department cannot be determined at present. At this rate of upward growth, however, thing smust be revolutionized in every way within a few years.

GOULD CASE IS UP

Millionaire on Stand in His Own Defense

MAKES A GOOD WITNESS

Miss Mabel McCausland, Whose Confession Led To Several Arrests, Repeats Her Story Of The Alleged Conspiracy To Create Evidence.

NEW YORK, July 29.—Frank J. Gould, the millionaire, was put through a sharp examination last night when he was placed on the witness stand by the defense in the alleged conspiracy plot to manufacture divorce evidence against him. He was questioned at length as to his acquaintance with Miss Bessie Devoe, whose name has figured in the case, but the most damaging admission the lawyers could draw from him was the fact that he had met Miss Devoe and knew who she was. Decision will be handed down Friday morning.

A special session was held to take the testimony of Mr. Gould. Miss Mabel MacCausland, the milliner's apprentice, whose story led to the arrest of Mrs. Teal Miss Fleming and Detective Mossley, took the stand and repeated the story of the alleged conspiracy. Miss MacCausland maintained that it was Mrs. Teal who brought up the subject and suggested that she make an affidavit that she had seen Gould with Miss Devoe in the apartment that Miss Devoe rented.

On cross examination she admitted that she was known in the apartment house and that she was known

HATES THE SPANISH. Filipino Office Seeker Stirs Up Matters In Manila.

MANILA, July 29.—The Spanish colony here is greatly excited over a speech made by Simon Villa, who is a candidate for office on the municipal board in which Villa made plain his hatred of every Spanish. The Spanish residents are planning an official protest against his utterances.

Villa escaped trial for the murder of a Spanish officer during the insurrection only because of the general amnesty proclamation. In his speech yesterday he said that he had sanctioned the execution of the Spanish officer and that while he was opposed to another insurrection if such an insurrection should come he would be in favor of killing all Spaniards and of all who resembled the Spanish.

A committee composed of Spanish residents of Manila called upon the Spanish consul demanding that the facts in the matter be presented to the government.

HE INHERITS LITTLE.

Mysterious Tale Told of Dead Cigarette King's Son.

NEW YORK, July 29.—While his two brothers and sisters will share most of an estate conservatively estimated at \$12,000,000, Joel Kinney, a son of Francis Sherwood Kinney, who made his fortune by the manufacture of cigarettes, will receive only the interest on fifty thousand dollars and not even that should he make any contest or objection. Mr. Kinney died on April 4, in his home and his will has just been admitted to probate in Morristown, N. J. Joel Kinney has been missing for 15 years. As the result of a disagreement with his father, he was sent on a trip around the world in a specially constructed sailing vessel and his relatives have known little or nothing of him since. When his father died the other heirs sent lawyers to look for him and one of these traced him to Los Angeles, Calif.

There he met two men, he said, who told him Kinney had been virtually a prisoner on the ship and was then in his custody and they obtained \$500 from him on a promise to surrender him. Then they disappeared and he heard nothing more.

Warren, Morris and Beatrice Kinney will share most of the fortune.

POLLUTING FISH WATERS.

President Jordan Says Fish Commission Must Prevent It.

NEW YORK, July 29.—The killing of fish by the pollution of the waters in which they feed and spawn has become a matter for international consideration. This is the opinion of Dr. David Starr Jordan president of Leland Stanford University, who is a member of the international fisheries commission. In a letter to Edward Hatch Jr., of New York, thanking him for information which the commission had requested as to the discharge into rivers of waste products from pulp mills Dr. Jordan says:

"It seems to me that the pollution of international waters is a matter which our commission must take very seriously. We shall provide adequate means for enforcing whatever statute are adopted. The New York statute seems to cover the ground very well, but I am told it is not enforced against the great pulp mill corporations"

COWS ARE TUBERCULAR.

OAKLAND, July 29.—That thirty per cent of all the cows supplying the local milk for consumption are tubercular is the startling statement of Dr. A. Archibald, chief inspector of markets, meats and milk for the city. Dr. Archibald is seeking a passage of ordinances looking to a closer inspection of dairy farms.

HEMBREE'S CASE IN BALANCE

Judge Burnett Takes Matter of New Trial Under Advisement.

TILLAMOOK, Ore., July 29.—In the arguments for a new trial in the Hembree case at Dallas, Judge Burnett has taken the matter under advisement. The grounds upon which Hembree's attorneys based their motion were that the Judge had no right to allow the evidence of M. H. Larsen, the hotelkeeper, who testified that when Hembree took his daughter to the hotel he occupied the same bed with her at night. When this matter came up at the trial the defense objected to Larsen's testimony, but after Judge Burnett had taken the matter under advisement over night, he allowed Larsen to testify. Should a new trial be granted, Hembree cannot be tried again until next December at Dallas.

AVERT A SCHISM.

Currency Plank In Independence Platform Makes Trouble.

CHICAGO, July 29.—The newly formed independence party was threatened with a dangerous schism during the debate on the currency planks of the party's platform. So serious did the situation become that several party leaders not members of the committee were sent for in an effort to bring the recalcitrant members into line. Wm. B. Hearst and Gesner Williams of California appeared before the committee, the former making an extended statement in explanation of the position taken by the February conference of the party on the platform.

The plank as corrected and adopted by the convention "favors and establishment of a central governmental plank, which instruction is to be the medium through which money shall be put into general circulation." The measure is a compromise, the more radical members of the committee having favored a declaration that the money should issue directly
