PREPARING TO CHANGE THE TARIFF RATES

COMMITTEES ARE ALREADY ARRANGING FOR STUDY OF QUESTION

TO STUDY FOREIGN PRICES

Already Eastern Manufacturers Are Making Known Their Demands For Free Raw Material, While Western Producers Are Ask Some Protection

WASHINGTON, Aug. 31.—The work which has been begun by Senator Burrows' sub-committee on the administrative features of the proposed tariff revision will be followed by similar labor by another sub-committee of the Senate committee on finance, of which Mr. Hopkins of Illinois is chairman. Mr. Hopkins' committee is composed of himself and Senators Burrows, Penrose, Money and Tallaferro. To this committee is entrusted the great burden of the labor of preparing a bill for the Senate, as it is directed to "Consider what changes in the custom rates are desirable and to secure proof of the relative cost of production in the United States and other competing countries."

While in Washington recently attending the meeting of the Burrows committee, Senator Hopkins stated that he would not call his organization together until some time during the Fall. In the meantime, however, he will ask the departments of State, Agriculture and Commerce and Labor, to procure such information for him as they can through their representatives abroad with a view to supply the committee the best information possible in conducting its comparisons. When the committee meets it will immediately take up the subject of the effect of possible changes, not only upon labor, but upon the various industries of the country and will undertake to decide, insofar as it can, what changes in the tariff are desirable from

all points of view. That Mr. Hopkins appreciated the magnitude of this inquiry is made manifest by the preparation that he is making. He also apprehends no little difficulty in reconciling the conflicting interests which are always involved in tariff changes. Already the eastern manufacturers are making known their demands for free raw material, while the western producers are beginning to stand out stiffly for the protection of such articles as wool, hides, and ores.

The Senate Finance committee has no purpose of trying to rob the senate committee on Ways and Means of its prerogative of originating tariff legislation, but is simply preparing itself for the intelligent consideration of the subject, as the house bills reach the senate. It is understood that members of the house committee are making preparation for the proposed legislation though none of them have come to Washington for that purpose. It is believed that by taking up the work at this early date, much time can be saved and that the special session which is to be called after the fourth of March, the tariff legislation will be materially shortened. Senator Hopkins expressed the opinion that a long session for that purpose would not be necessary.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease. It strengthens the whole system. T. F. Laurin, Owl Drug Store.

The New Pure Food and Drug Law
We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. T. F. Laurin, Owl Drug Store.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble as it corrects irregularities and prevents Bright's Disease and diabetes. T. F. Laurin, Owl Drug Store.
