FIGHTING CHOLERA.

Efforts Being Successfully Made to Control it in Luzon.

MANILA, Sept. 3.—Governor-General Smith has gone to the northern portion of the island of Luzon to make a personal inspection of the districts infected with cholera and to urge the native officials in such districts to lend their aid in the carrying out of various sanitary measures, including a general cleaning up of the towns. The number of new cases of the plague reported is declining steadily and it is now believed that the spread of the epidemic has been conquered.

A few cases of the disease have appeared in Manila coming chiefly from northern provinces, but the local health officers have been successful in preventing the plague from gaining a foothold here.

There is a marked decline in the number of deaths due to cholera and in the total number of cases reported from all provinces.

KEPT COMING AND GOING.

Nearly a Million Emigrants Came, While Many Went Back.

WASHINGTON, Sept. 3.—Until the past year it has never been possible to ascertain the net addition to the population by immigration and the result is surprising to the department of commerce and labor. During the fiscal year the total immigration was 924,000 while the outward movement, the alien emigration, was 715,000. The latter figure is based on the assumption that the emigration for June, figures for which are not entirely at hand, was about equal to the previous month. Deducting the alien emigration from the alien immigration for the year leaves a net increase of 209,000. Secretary Straus said today that all official figures of the department of the previous years considered in respect to the addition to the population by immigration must be reduced from 30 to 75 per cent.

AEROS FARE BADLY.

Attempts to Navigate the Air in California End in Mishap.

LONG BEACH, Cal., Sept. 3.—Attempts to navigate the air resulted disastrously during the opening of the festival of the sea here today.

Frank Hetchell, with an airship called the Bettle, essayed to fly from the grandstand, but instead of sailing, he came down on the hard sand with a force that knocked the wind from his body for a few minutes. He was not seriously injured and the airship can be restored with a little work.

At 2 o'clock Aeronaut Wright made an ascension in a balloon. Cutting loose with his parachute, he descended at Fourth and Linden streets, striking on the roof of a house and tearing off a small cupola. His hand slipping from the bar he caught a wire guy rope and slid down the caves, cutting his hand to the bone.

Attempting to save himself, Wright lost his balance and fell 15 feet, spraining his ankle and bruising his lower limbs badly.

LEAPS TO DEATH.

SAN FRANCISCO, Sept. 3.—Miss Helen Cullen, a young woman of wealth, and who has been ill for some time, evaded her nurses at the Waldemar Apartments, today and jumped to the street, three stories below. She was terribly injured and died soon after reaching the hospital.

IS TILLAMOOK CROOK.

Matt Jackson, Who Robbed Lumbermen Also Operated in Oregon.

CHICO, Cal., Sept. 3.—Matt Jackson, who is under arrest here on the charge of holding up 15 lumbermen, with the aid of an accomplice in a single night, was identified by the federal authorities today as A. Carlson, who is charged with robbing the Tillamook stage in Oregon on July 2. It is understood that he will be indicted by the federal grand jury at Portland. The theory has been advanced that Jackson, or Carlson, may have killed his partner, who helped him in holding up the 15 men here. The authorities claim to have evidence indicating this. It is known that bloody overalls were found in his possession after the crime. They procured several hundred dollars from their victims, over which they may have had a fight, it is suggested.

GIVES UP HIS THRONE.

PARIS, Sept. 3.—A morning newspaper prints an interview with Sidi-el-Mohkri, Moroccan minister of foreign affairs in which he declares that after reflection and consultation with his ministers, Abd-El-Aziz has definitely resolved to give up the struggle, although he had not yet decided whether he will relinquish the throne quietly or formally abdicate. The present intention of Abd-El-Aziz is to make a two or three-year pilgrimage to the Holy Land, after which he will return to Morocco. He wishes to be allowed to reside either at Fez, Morocco City or Mequines.

UPHOLDS PRIMARY LAW.

PIERRE, S. D., Sept. 3.—The State Supreme Court yesterday upheld the state primary election law. The decision prevents the Democrats from placing their candidates nominated in the Democratic state convention on the state tickets as Democrats. The Democrats will go into the campaign with candidates for governor and congress only.

COUNTESS ALL RIGHT.

VIENNA, Sept. 3.—That the reports emanating from Buda Pest concerning the condition of Countess Szechenyi have been exaggerated is shown by the fact that the Count and Countess arrived yesterday in that city and said that they intended soon to come to Vienna.

Nelson Shaughnessy, the third secretary of the American embassy here, who is an intimate friend of the count and countess, received the following telegram last night from the former: "Cordial thanks for your telegram, but the report is totally false. My wife's condition is very good."

HONORS TO GLASS.

BERKELEY, Cal., Sept. 3.—The body of the late Rear-Admiral Henry Glass, U. S. N., who died at Paso Robles last Tuesday, has been brought to the family home here and funeral services will be held today. The services will be extremely quiet though it is probable that several of the highest naval and military officers of the coast will form the honorary pall-bearers; but there will be nothing in the way of the usual pomp attendant upon military funerals to mark the last rites of the dead seaman.

HISGEN AND HEARST.

NEW YORK, Sept. 3.—Thomas L. Hisgen, candidate of the Independence party for president, and William R. Hearst started yesterday on a country-wide tour on behalf of the Independence party ticket.

SHARP FIGHTING.

TABRIZ, Sept. 3.—Sharp fighting opened again yesterday around the barricades but the revolutionary forces appeared to be less confident than, formerly, owing to financial difficulties and reports that have gained currency of the strength of Ain-Ed-Dowleh's forces. There is some fear that the Caucasian mercenaries in the anti-Royalist forces will attack the consulates in order to provoke European intervention.

VOTE IN MICHIGAN.

Bradley is in Lead Over Warren For Governor.

DETROIT, Mich., Sept. 3.—Returns received by the Detroit Free Press since midnight give Auditor-General J. B. Bradley a lead of 1122 votes over Governor Fred Warner, for the Republican nomination for

governor. With 71 election districts still missing out of a total of 2015 in the state the vote on Tuesday was, Bradley, 86,082; Warner, 84,960; H. S. Earle, 24,941.

Of the missing districts, 18 are in Leelanaw and Osceola counties, where it is understood the vote is exceedingly close. The remaining 53 districts are scattered through the state and may reduce Bradley's plurality over Warner to about 1000 votes when the official count is made.

ALASKA GRAIN FIELDS.

SEATTLE, Sept. 3.—Professor C. C. Georgeson, head of the agricultural experimental stations in Alaska who arrived last evening on the Victoria from Nome, says, that he ate watermelons grown in the open at Manley Hot Springs in the Tanana Valley on August 18 and was served with tomatoes grown in the open; had his picture taken in a cornfield where the stalks stood seven feet high and traveled through farms on the Tanana and Yukon where wheat, barley, oats and rye were maturing.

Rampart, on the Yukon, the government station which was started in 1900 is having one of the best seasons thus far enjoyed. There is no no failure of the crop up there.

"When I left Rampart on August 6 it was almost matured but had a few more days to go to be ripe. Hardly a vegetable produced but what was perfect. At Fairbanks where we have a 1400-acre reserve we have had 50 or 60 acres cleared ready to plant next spring."

BARRINGTON HALL
THE STEEL CUT COFFEE

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

AUGUST WAS A CLOUDY AND COOL MONTH

INTERESTING DATA PREPARED BY MR. KELLIHER AT NORTH HEAD.

According to the meteorological summary prepared for the month of August by Mr. J. J. Keliher, the governmental weather man at North Head, on the Washington shore, there has been more rain during that month for this year than since 1902. The rain gauge shows just a trace over two inches, while last year in August there was 1.16 and the year before there was but .03 of an inch. The average in August is quite slight. Other interesting facts prepared by Mr. Keliher show that during August the prevailing winds were from the northwest, and the greatest velocity was on August 27, when it blew at the rate of 48 miles per hour, from the southeast. The highest temperature at North Head was 78 degrees, on August 17, and the lowest 48. The average temperature for the month was 55 degrees, which is a little bit below the average temperatures for a majority of the years since 1902. There were only six clear days at North Head, where it is commonly much more foggy than here, and six partly cloudy, while nineteen are designated as cloudy. On six days only was there a trace or more of rain, that is, all of the precipitation came during those six days.

BOSTON HACK DRIVER

disposed of it as stated. Jordan had purchased a ticket for Liverpool and was to sail on the Cunard liner Vernia tomorrow. He intended to dispose of the remains in the Charles river and had purchased weights for the purpose.

Jordan declared to the police that after knocking his wife down stairs and finding she was dead he placed the body in kitchen and went to bed and went asleep.

He cooked his own breakfast, eating in the presence of his wife. In the afternoon, Jordan said, he dismembered the body.

Jordan is a brother of Mrs. Jessie L. Livermore, wife of the well known stock and cotton speculator of New York. His parents Mr. and Mrs. P. J. Jordan and sister, Mrs. Kendall, are prominent in Somerville society. Mrs. Chester Jordan was known on the stage as Irene Shanon.
