#### A Rich "Find."

The sensational discovery of buried Spanish treasure of gold and jewels on the foreshore at Paradelha reminds one of the romantic discovery of the faextra, 8c@84c; ordinary, 6@7c; heavy, mous treasure of Guarragar under conditions almost identical, says the Westminster Gazette. Some peasants traveling near Toledo one day in 1858 noticed objects of gold and jewel work which had been exposed to view by the heavy rains. The peasants, ignorant of its value, sold their treasure trove for a trifling sum to a local resident, who fled with it to Paris and disposed Cluny. The objects proved to be of rare antiquarian as well as intrinsic value. They were, in fact, eleven crowns which had been worn by Visigothic kings who had ruled Spain 1,200 years previously. The largest of these crowns, a beautiful piece of workmanship, has thirty large sapphires and as many pearls of great size. Below it hangs a cross set with similar precious stones, from which hang jeweled pend-

#### CHINESE LANGUAGE

Difference Between the Written Char-

The dialects or languages of the Chinese empire are very numerous and lissimilar. Thus a Chinese speaking he dialect of the Kwangtung (Canton) province is not understood by a Chinese residing in the neighboring province of Fukien. The language or dialect spoken at Shanghai would be quite strange to the people residing at Pekin. Written characters of Chinese are, however, understood and recognized by sight throughout the whole empire in the same manner as our Arabic numerals 1, 2, 3, 4, etc., are recognized by the eye throughout Europe. But as these numerals when pronounced or read have entirely different sounds atwritten characters are spoken in tohowever, the important exception that the mandarin language is spoken or

The spoken language-viz, Mandarinmay also be written, and there is a good deal of colloquial literature in Mandarin. Versions of the Bible in the local patois have also been produced in several districts of the southeast, where the dialects are very numerous and diverse.

In the Chinese written language there are over 40,000 distinct characters or symbols, and this vast number is being constantly increased by the addition of new characters to represent new scientific words and modern

After hanging half an hour he still showed signs of life, and on examination it was found he had wrapped cords about his body connected with hooks at the neck which prevented the rope from doing its work. The apparatus was removed and the man hanged effectually.

#### Grim Comedy.

A certain young actress was constantly irritated by the pompous hehavior of the actor-manager in whose company she was playing.

"Now, Miss Blank," said the great "you'll have an opportunity to show your talents in another direction. I've cast you for a dandy part, small. but 'fat.' And you'll have a chance to study me in a new role. You've never seen me do farce comedy, have you?" "Yes, I have," contradicted Miss Blank; "I've seen your Macbeth."
