

**Barrington Hall
The Steel Cut Coffee**

Is just pure Mocha and Java prepared in a new way. The coffee berry is cut up (not ground) by knives of almost razor sharpness into small uniform particles. Thus it is not crushed, as by the old method of grinding, and the little oil cells remain unbroken. The essential oil (food product) cannot evaporate and is preserved indefinitely. This is one reason why a pound of Barrington Hall will make 15 to 20 cups more of full strength coffee than will any coffee ground the old way; why it excels all other coffee in flavor and why it will keep perfectly until used.

But the main thing about Barrington Hall Coffee is that it can be used without ill effect by those who find ordinary coffee injures them, because the yellow tannin-bearing skin and dust (the only injurious properties of coffee) are removed by the "steel-cut" process. A delicious coffee not a tasteless substitute.

side. She has no theory who committed the deed, but there is no doubt in her mind that he was murdered. She said there is no truth in the report that they did not live happily, and that there was trouble between them. She said they had been married ten years and never had a cross word, and that his conduct toward her was all a husband's could be. She is firm in her declaration that she wanted the affair sifted to the bottom and the guilty person brought to justice.

Miss Leona Bonnett, or Mrs. A. Rice, as she is known, was arrested today charged with being in connection in the murder of Rustin.

No charge has been placed against her. She has admitted that she was the last person in company with the physician before he reached his home on the fatal night. She accompanied Rustin to within two blocks of his home after midnight Tuesday. Her husband lives in Des Moines. She has not lived with him for some time, but was not divorced. She says that she knows Rustin only as any patient knows a physician.

CHURCH IN DIFFICULTIES.

Prominent Religious Corporation Passes to a Trusteeship.

CHICAGO, Sept. 4.—In an effort to solve the "City problem," which has confronted the various downtown churches for the last few years the property of LaSalle-Avenue Baptist Church, once one of the richest in Chicago was transferred yesterday to the City Mission Society; financial straits—a mortgage of \$10,000 held by the Providential Life & Trust Company of Philadelphia the church found itself unable to handle, and the failure of its former rich members to aid it—led to the transaction.

The name of the church will be retained and it will be conducted along practically the same lines as before. But the property will be owned by the Mission Society of the Baptist denomination and not by the church congregation.

Interest and a part payment amounting to \$761 in all was paid to the Philadelphia concern by the City Mission Society following the transfer of the property which is valued at \$45,000. All future payments of the mortgage will be made by the society. It is the opinion of many that the church is so near the business center that they cannot support themselves and that if they are to be sustained a great part of the money for their support must come from the wealthy outlying churches.

NATIONS TO CONSIDER THE OPIUM TRAFFIC

UNITED STATES INVITES OTHER COUNTRIES TO A CONFERENCE.

TRYING TO CONTROL THE EVIL

Various Countries Have Already Named Delegates to the Convention, and Hopes Are Felt That Much May be Accomplished.

WASHINGTON, Sept. 4.—Turkey, Persia and Russia have been invited by Secretary of State Root to participate in the international opium conference to be held in Shanghai, China, beginning with the New Year. France, Germany, the United States, China, Japan, Portugal and Great Britain already have named delegates to the conference. Originally the idea was to have represented at the conference those nations which have territorial possessions in the Far East, but as opium is produced both in Turkey and Persia, it was regarded as desirable that those countries be asked to join in the work of the international commission. The whole subject of the opium traffic is to be discussed from an economical, moral, and scientific point of view, with the object of reaching, if possible, some agreement for the control of the traffic in the Far East. Good results already are apparent from the agitation for the suppression of the vice of the opium smoking habit. The conference is an outcome of the suggestions of Secretary Root and the cordial manner in which the governments have responded to the invitations to take part in its deliberations is very gratifying.

PROUD OLD G. A. R.

TOLEDO, Sept. 4.—Not for three years will the G. A. R. ask Congress for further relief of measures. It appeared to be the consensus of opinion of the leaders that too much hammering for pension bills and relief measures might soon create undignified impression in the minds of congressmen and reflect discredit on the civil war veterans at the time in their lives when they would need most assistance at the hands of the nation they helped to save. Salt Lake City will be the next meeting place.
