**Sergt. Witte, The Russian Ambassador, as a Chaperon For Miss Cameron.**

When the great Witte, Russian Ambassador, was in America as an envoy from Russia to negotiate terms of peace with Japan he attended the theatre which Miss Cameron was playing in and wished to meet the clever young artiste. Upon being introduced, Count Witte expressed great pleasure in witnessing Miss Cameron's performance and desired that she make a tour of the old world. The incident was forgotten for the time, but strange to say that two days afterward Miss Cameron received an enormous offer for an extended tour of the old world and accepted it. When the time came for Miss Cameron to sail she booked her passage on the Kaiser Wilhelm der Grosse and started her voyage, when to her great surprise Count Witte and his entire staff were aboard the same steamer. The peculiar coincident led to much pleasure in the meeting on board and Count Witte and Miss Cameron have been very good friends ever since. Through the influence of the Count, Miss Cameron's receptions everywhere aboard were cordial and friendly.

At a benefit concert given on the steamer en tour Miss Cameron was the star performer and the Count and his escort the most liberal contributors.

Miss Cameron did not appear in St. Petersburg for in the height of her European success she was re-engaged for so many weeks in halls and she played in London, Berlin, Paris and Johannesburg and her tour, which was for a limited number of weeks, ended before reaching that point, and American engagements prevented a renewal of additional European contracts.

**THE FIGURE.**

How Too Much Fat May Be Safely Reduced At Home.

"Oh, that this too, too solid flesh would melt!" cry the ladies nowadays as they try to squirm into a princess frock. How much would the too generously proportioned dame not give up for four inches less in the waist-line as she compares herself with the more fortunate 125 pound sister. Various devices are suggested to arrest

the flesh producing tendency and keep the figure trim, including exercising, walking and dieting as well as numerous patented remedies, but there are objections to all of these. Exercising is hard work and takes up precious time; dieting is distasteful and a real punishment, and most of the patent remedies are dangerous to health.

The very best thing for the over-fat, whether male or female, is a simple home receipt: 1/2 oz. Marmola, 1/2 oz. Fluid Extract Cascara Aromatic, 31 oz. Peppermint Water, which can be obtained at small cost. This should be taken a teaspoonful at a time after meals and at bedtime, and results will be both speedy and certain. This is a harmless mixture that cannot bring on any stomach troubles nor cause the dried-up wrinkled appearance of those who starve or take "patent reducers" to get thin. On the contrary, although it often takes the fat off at the rate of a pound a day, it is really very beneficial to the system, cleansing the blood and causing the complexion to become fair and beautiful. The cost of the three ingredients is a mere bagatelle, and one may, if they prefer, get them separately and mix them together at home.

**IMPRISONED IN WELL.**

Ranch Hand Has Frightful Experience but Is Rescued.

SAN FRANCISCO, Sept. 5.—Thirty-six hours imprisoned in a well which he had been repairing, was the experience of Albert Schwartz, a ranch hand employed near Point Reyes. Schwartz went into the well on Wednesday, lowering himself down with a rope run through a block. The block became detached and the man was a prisoner thirty-five feet below the surface standing in the water at the bottom. Despite his cries and struggles to reach the top by cutting steps in the walls, the man was forced to stay in the well until 36 hours had passed when his employer happened to go to the well and saw him at the bottom and rescued him, stiff with cold and nearly exhausted with hunger and fatigue.

**JAPS AFTER RIGHTS.**

SAN FRANCISCO, Sept. 5.—Manager Taniguchi of the New World, Japanese paper published in this city,

yesterday secured warrants for the arrest of S. T. Mikuriya and B. Ito, editors of another Japanese paper, the Telegraph, on a charge of criminal libel. A warrant was also issued for the arrest of K. S. Kuwabara, owner and manager of the Telegraph on complaint of M. Onoda, plaintiff, alleging that \$280 given by him to the defendant for the purchase of type for the paper had been misappropriated.

**THE MORROCCAN ISSUE.**

BERLIN, Sept. 5.—The delay in the issuance of the joint French and Spanish note to the powers relative to the situation in Morocco is due to the French proposals which prolong the amendments made by Spain to the negotiations. Spain, it is learned officially here, thinks it is wiser not to require Mulai Hafid to accept so many conditions as France first suggested.

The position taken by France ten days ago is believed to have been materially changed in consequence of the attitudes taken by Germany and Spain.

**AIR SHIPS COLLIDE.**

NEW YORK, Sept. 5.—Six mechanics, propelling two airships at the final rehearsal of the "Battle in the Skies," were injured last night at the Hippodrome, when two ships were in collision, the smaller one being completely wrecked and the larger one badly crippled. The men were thrown out of the ships onto the stage. Edwin Clarke, the baritone, was in the smaller ship, but saved himself from injury by catching hold of a rope ladder. The accident was caused by the misplacing of a switch on an electric board controlling the current that operated the stage ships. The accidents made it necessary to defer the opening of the playhouse, which was to open tonight, until next Thursday night.
