#### HAWKING MACHINES.

Catarrh Sufferers Are Nothing But Hawking, Spitting and Blowing Machines, Says an Authority.

It is possible that in these days when cleanliness and sanitary reform is being preached in the churches, schools and at public gatherings, that thousands of people will continue to suffer from catarrh, when there is an absolutely certain remedy always on hand.

Hyomei (pronounced High-o-mei) is a pleasant, medicated and antiseptic air. Breathe it in and it will cure catarrh. It will stop foul breath, watery eyes, and crusts in the nose, in a few days.

It is guaranteed by T. F. Laurin to do it or money back, and such a guarantee ought to be strong enough for anybody.

#### Entirely Cured by Hyomei.

Having suffered from catarrh for about two years, and having tried numerous remedies without any satisfactory results, I finally tried Hyomei, and am glad to state that after using about one and one-half bottles I am entirely cured. I have recommended it to others with satisfactory results. —C. N. Lindsay, 407 East First avenue, Mitchell, S. D.

A complete Hyomei outfit, consisting of a strong, hard rubber pocket inhaler and a bottle of Hyomei, costs only \$1, and extra bottles, if afterwards needed, cost only 50 cents each at T. F. Laurin or direct, by mail, charges prepared, from Booth's Hyomei Co., Buffalo, N. Y.

Hyomei also cures, Asthma, Bronchitis, Coughs and Colds, Croup of Infants, and any inflammatory disease of the respiratory tract.

#### A Surprise Party—

A genuine and interesting "surprise party" was given to Mr. and Mrs. Patrick Shea last night as a sort of a housewarming for their new residence on Eighth street. About twenty participated in the surprise, and they brought with them a supper of just the right kind. After the surprise had worn off a little bit the guests settled down to cards and other games, and all passed a delightful evening. The Sheas have been in their new home only a little over one month.

### WRIGHT AEROPLANE

(Continued from page 1)

nounced that Wright was not seriously injured. He was suffering from a fracture of the left thigh and several ribs on the right side were fractured. Both men received deep cuts about the head. Wright dictated a message at the hospital and directed it to be cabled to his brother at Le-

mons, France, and telegraphed his sister and father at Dayton, Ohio, assuring them he was all right. Wright announced several days ago he would take Selfridge, who is secretary of the Aerial experiment association and an aviator himself, on his next flight. The young officer was delighted to have the opportunity. He was to have left here Saturday for St. Joseph, Mo., where he was to assist Lieutenant Foulers in operating the Baldwin airship at the coming army maneuvers. Selfridge was expecting his mother, who lives in San Francisco, to arrive in Washington this month. He is a nephew of Admiral Selfridge, and has a brother who is an officer in the navy. Wright yesterday replaced the propellers which he had been using with another pair, the blades of which were six inches longer. They were used for the first time today, and many who witnessed Wright's flights believe the accident was due to the change. An examination of the propeller showed that the blade had been broken off half the distance from the hub. Shortly before starting today's flight Wright received a refusal of a life insurance company to issue a policy on him because of his dangerous pursuit.

SAN FRANCISCO, Sept. 18.—Lieutenant Selfridge was a son of E. A. Selfridge, a retired merchant. Lieutenant Selfridge has for years past devoted himself to the study of aeronautics, and had gone so deeply into the subject that he was considered by Dr. Bell, a specialist on air navigation, to be one of the best informed men in the country on that subject. Lieutenant Selfridge was a native of this city, 26 years of age, and unmarried.

#### WILL GO TO JAPAN.

LOS ANGELES, Cal., Sept. 17.—Five members of the Chamber of Commerce of this city are to take a trip to Japan in response to the invitation of the Chambers of Commerce of that country. Those who were appointed are J. J. Bergin, A. P. Griffith, S. I. Merrill, A. C. Billeke and J. T. Fitzgerald. Mrs. Bergin, Mrs. Billeke and Mrs. Fitzgerald will accompany the party.

#### SHE'S A CITIZEN.

German Courts Not Satisfied With Contralto's Marriage to American.

NEW YORK, Sept. 17.—Application having been made by Mme. Ernestine Schumann Heink Rapp, the contralto, before Judge Ten Eyck in the Common Pleas Court at Newark, N. J., for final citizenship papers, op. U. S. District Attorney Wm. S. Gregg's position was made by Special Assistant He declared that Mme. Schuman Heink Rapp's marriage to Mr. Rapp, she became an American citizen and the court agreed with him that she could not be made a citizen again. Algernon T. Sweeney, her counsel, entered a demurrer asking permission to file a brief. The case was set down for argument on October 15th.

It was brought out that the citizenship papers were necessary to satisfy the German courts. It was said that they refused to recognize that Mme. Schuman Heink's marriage made her a citizen. The singer explained that it was not only to satisfy the German courts that she wanted the papers, but because she wished to feel that she was an American citizen.

#### PHILLIPS HELD FOR KILLING

NEWARK, N. J., Sept. 18.—Walter C. Phillips, confidential secretary for John Leonard, retired iron and steel founder of Montclair, N. J., was held for the grand jury in \$10,000 in causing the death of Leonard, who was shot and killed yesterday. Phillips

#### QUINBY IS NOMINATED

CONCORD, N. H., Sept. 18.—The political strife which split the Republican party in New Hampshire into three factions came to an end today when Henry B. Quinby was nominated for Governor by the State convention. Two ballots were necessary.

#### EDISONS' BIG TALK.

Says Airships Will Be Carrying Passengers Across Ocean Soon.

SALT LAKE, Ut., Sept. 17.—"Within five years airships will be carrying passengers across the ocean in eight-hour trips, 200 miles an hour. Aerial flight will be commercialized in that time."

"The North Pole can and will be reached in a forty eight hour trip. The perfected helicopter will be able to encircle the globe in a week."

These statements were made yesterday by Thos. A. Edison, the inventor, in the course of a talk on aerial navigation.

"Neither the aeroplanes now owned by the Wright Brothers nor any airship built along the principle nor along the idea of the dirigible balloon will ever be of practical use or success commercially," he said. "The successful machine must be automatic in operation. The human part of it must be reduced to mere mechanism, as in the case of the automobile and steam engine. Otherwise the dream of skimming the clouds must ever remain a dream."

#### BAD BLAZE AT SPOKANE

Lodging House Fire Endangers the City and Costs Two Lives

SPOKANE, Wash., Sept. 17.—A special to The Spokesman Review from Couer d'Alene City, Idaho, says: In a fire discovered at an early hour this morning the Franklin Block was leveled to the ground, a loss of \$20,000 sustained and it is believed two men were burned to death. Gus Layton and Jacob Scogland are missing. They are known to have been sleeping in the rooming house when the fire started. They have not been seen since the fire, although every other person in the building has been

accounted for.

The fire started in a lodging house on the second floor of the building, and before an alarm was turned in it had gained such headway that the building was doomed. By the time the department arrived the building was a mass of flames, and it was also feared that the Hotel Idaho, the Couer d'Alene Bank and Trust Building and the Calquohoun Hardware Company block would go, as all three were ablaze, but by strenuous work they were saved.

#### RACE HORSE SAVED.

Jumped Overboard, And Was In The Water Five Hours.

SEATTLE, Wash., Sept. 17.—After keeping afloat for five hours in the choppy waters of Puget Sound, Rantan, a thoroughbred race horse which jumped overboard while being conveyed by schooner to Victoria, was discovered by a party of stevedores under a wharf, clinging with its teeth to a pile. The animal, on board the steamer became frightened and leaped into the water. When last seen, he was headed for the West Seattle shore and a searching party, after cruising about in a dense fog, gave him up for lost. The horse appeared well nigh exhausted when rescued but will apparently be as sound as ever.

There is no means of telling how long he had the assistance of the pile in keeping afloat.
