**May Enter a Bid—**  
C. W. Ide, who is the contractor now building two enormous reservoirs at Seattle was in Astoria yesterday looking into the matter of the proposed new reservoir that is to be constructed here. Mr. Ide said that he may possibly make a bid, and his evident purpose is to do so if conditions are satisfactory. Up at Seattle he is building one reservoir which will contain 60,000,000 gallons, while Astoria's will hold one-third of that.

**Down On Business—**  
Major McIndoe of the U. S. Engineering Corps, and now in charge of the Government jetty at the mouth of the Columbia, arrived down on the noon train yesterday, and after spending the afternoon looking over affairs at that great work, went back to the metropolis on the evening express. Major McIndoe says that the rock work has been forced to the limit this season, and that it will take another good season to conclude that phase of the work. Everything is going forward smoothly and without interruption of any sort and he is well pleased with progress to date, since he took over the huge enterprise.

**Hurt At Westport—**  
While working on the guy lines of the wireless station at Westport, Wash, yesterday morning, Captain Lunvoldt had the misfortune to have his right hand caught on a sharp hook, tearing the whole palm of the hand open before he could disengage it. The wound is an ugly and a dangerous one and immediate steps were taken to get the captain to the hospital at Aberdeen. The steamer Manette was sent at once to convey him to that city and he is now in careful hands and under skillful treatment. Captain Lunvoldt is a retired sea captain and runs a hotel at Westport, and is popular all along the Washington coast. This message was received yesterday afternoon by the United Wireless people on Smith's Point, to whom the Astorian is indebted for the courtesy of the information.

Mr. Rosenberg says he interviewed all the State officers next and nearest the matters in controversy. He had nothing to give out for publication, except to say that the situation has its cheerful prospects and he has hope of an advantageous issue for all concerned.

**Woman Becomes Insane—**  
Margaret Shepherd, wife of S. G. Shepherd, was declared insane in an examination before Judge Trenchard yesterday and she was ordered to be taken to the asylum at Salem. Mrs. Shepherd is 49 years of age. Her native country is Iceland. For four months she has realized that the present trouble might come upon her, and during that time she has been subject to hallucinations; she refuses nourishment now and has a fear of water. Worry is given as a predominating cause of her mental derangement. Dr. A. A. Finch made the medical examination. Ill health and mental perturbation seem to have brought on the trouble for Mrs. Shepherd. The case seems a sad one, as most of such cases do. The husband is a carpenter.

**Leg Badly Hurt—**  
Yesterday afternoon while trying to "catch on behind" one of the big wood wagons serving the Prael-Eigner Transfer Company, Erl, the 8-year-old son of Mr. and Mrs. Edward Erickson, caught his left leg between the wheel and the body of the wagon, and the member was badly twisted and bruised and sorely strained. He was taken to his home at once and Dr. Pilkington summoned, and he was made as comfortable as possible with such a badly used leg.

**Ho' Is Arrested—**  
H. Holt, well known in this city, and recently "vagged" by the police as an undesirable character, came down to Astoria from Portland yesterday and was at once taken into custody by police officers. Holt left town in lieu of spending a term of days in the city jail and his arrival back in the city was looked upon as a violation of his parole. Holt was for a time on the Portland fire department, and at another time gained no-
