TERSE TALKS OF THE TOWN

Off For The Nehalem—

Mr. and Mrs. J. H. Luukinen will leave today for a two weeks' outing in the woods and valleys of the Nehalem country and expect to enjoy every moment of their absence from the city.

Want a Postoffice—

There is a general and popular movement over on the West Side to have a postoffice established by Uncle Sam, at the store of Mrs. Georgia Pennington, at Morrisons Station, and with every prospect of success.

Studying At Portland—

Miss Ida S. Empo, of Alberta, in Clatsop county, is one of the latest arrivals at the Holmes Business College, Portland, where she has entered for a combined course. She is making good progress with her studies.

Home Made Happy—

At 9:15 o'clock last evening, the home of Mr. and Mrs. Victor Carlson, at 2462 Date street in this city, was made happy by the arrival of a fine boy baby. Mother and son are reported as doing well. De Estes was the physician who aided and abetted the stork.

Fire Up The River—

When the steamer Lurline touched at Bush's Landing on her way from Portland yesterday afternoon, the warehouse and barn of D. W. Bush were in flames and past saving. There were 30 tons of old hay in the structure and this obviated even an approach to the premises.

In Behalf Of City—

City Surveyor A. S. Tee was running a line yesterday morning on the Lurline dock and the A. & C. right of way, in the interest of the city's alleged relation in the suit for damages entered by Miss Anderson for reported injuries received in a fall during the Regatta of 1907.

Will Plead Guilty—

It is announced from the district attorney's office that Emil Janssen, the Belgian longshoreman who cut and slashed four or five Hindus, will plead guilty to the charge of assault with a deadly weapon. His trial was set for Wednesday morning at the opening of the circuit court.

Important, Tomorrow—

The regular meeting of the Chamber of Commerce will be held Monday evening the 28th at 8 o'clock at which time the Port of Astoria bill which has been printed will come up for final consideration. According to the last meeting it will be a special order of business at this meeting to name the members who will serve as the Port of Astoria Commission. Printed copies of the bill will be put in the hands of all the members who attend this session. As the matter is one of prime importance to the citizens it would be well to have as large a number of these interested persons as possible.

Will Improve Property—

Hon. W. F. McGregor has decided to thoroughly improve his fine 180-acre ranch up on the Young's River, opposite the Warnstaff place, and make it habitable and productive. He will have it cleared and fenced and duly cultivated; build a home there for himself, and one for his tenant, fence it and do all things requisite to make it valuable, as stock, and careful nurture can do it. He went up there yesterday, with a man employed to start the improvements, and will not cease until he spent several thousands upon the property.

New Teacher—

J. H. Brayton of Chicago has been selected as one of the teaching force of the High School department. He comes very highly recommended in the branches which he is expected to teach, and it is also expected that he will be able to take a leading part in developing the athletics of the High School. It is apparent that there has come a keen realization of the benefits to be secured as a result of a proper athletic spirit in the school. Mr. Imel, the principal, is also said to be capable and interested along these lines.

Pushing Its Claims—

G. Ziegler, the well known singer, and, one of the leading members of the Astoria Philharmonic Society, is working earnestly to secure new members of that admirable organization, and urge the attendance of all concerned, at the meeting on next Wednesday evening at Logan's Hall, when the first rehearsal for the great November concert will take place. It is very essential that all interested in this splendid work should be out and he is working with commendable assiduity to compass a general gathering at that time and should be cordially encouraged.

Went To Svenson—

Mayor Wise went to Svenson last night to attend a social session of the Svenson Redmen's Lodge. Others from Astoria had planned to go but at the last minute were deterred, so that there was but one representative from here in answer to the invitation from the up-river town. Mayor Wise left up on the evening train, and at 8 o'clock began making a talk to the session there, and stopped a little before 9 o'clock, just in time to catch the night train back to town. He says there was an excellent meeting, many being present who were not members but are interested in the work of the order.

COURT IS ADJOURNED TO WEDNESDAY

GRAND JURY IS STILL IN SESSION, BUT NO FURTHER REPORT IS MADE YET.

At the close of the session yesterday, Judge McBride adjourned court until Wednesday morning at 10 o'clock, when the case of the State against Emil Janssen is set for trial. Judge McBride found it necessary to go to Hillsboro on Tuesday, it is said, and therefore the session was adjourned over until the day following.

The case of L. Darling vs. Mrs. Millie Taylor, D. H. Welch, the Tallant-Grant Company, et. al., occupied the attention of the court most of the day yesterday and no other case was tried. For this case a jury was called and it returned a verdict last evening for the plaintiff in the sum of \$99.50, as against all of the defendants, except the Tallant-Grant Company, and as to them the case was dismissed.

Judge McBride had set Monday morning for the time of passing sentence upon Robert Casey, the Olney man convicted of assault on a young girl, but this matter will now necessarily also pass over to Wednesday morning.

The grand jury did not complete its labors yesterday as had been expected, and it had a busy day of it. It is said to be probable that it will complete its work by Monday night. Several police officers were called before the body again yesterday and it is assumed that the question of Sunday closing is up for consideration. Members of the Civic Improvement League have also been subpoenaed in this behalf.

PASSING OUR DEBTS ON IS UNFAIR POLICY

The following communication was handed into this office last evening by a well known citizen, and speaks plainly for itself, and is therefore published without comment:

"Editor Astorian:—I take the Astorian, and have read in it about the seawall to be made. I say if we are going to have a seawall let the men who own the water lots build it and pay for it. Seems to me there is a nigger on the fence somewhere, and these people who own lots are putting up a job on the men who have invested their hard earnings in hill homes. Does this crowd think we on the hill are suckers enough to vote a tax on ourselves for the next 40 or 50 years, to build and keep in repair an old wooden wall along the mudflats. I heard a man who works for the city say, 'Let the children pay for it!' I'll bet that man didn't have to pay any of his father's debts, anyhow I know I didn't have to pay any of my father's bills, and I am sure I am not going to leave any debts behind for my children or anybody else's children to settle, if I can help it. I just can't understand how any man owning a home on the hillside could be sucker enough, or fool enough to vote for a bill that would tax himself for eternity for something that would not benefit him. Does this water-land crowd think we have honey to feed the birds? If they have money to burn let them build their own seawalls and not ask us for help."
"HILL TAXPAYER."

THE BEST OBTAINABLE.

A Few Interesting Facts About The Stove Business.

The old reliable stove man of Astoria, W. C. Laws & Company, had almost decided to go out of the stove business, but at the solicitation of many of their old customers have put in an entire new line of stoves, ranges and heaters. In the heating line and also in the old-fashioned good cast-iron cook stoves the old name of Bridge & Beach manufacturing Co. may be seen.

In steel ranges they think they have found the best that can be had in the market, at least they say they will risk their reputation on them, they are called the "RENOWN" range and are made by the Independent Stove Company Co, Detroit, Mich., and have all the modern improvements. They will be an exhibition after Tuesday.

FIRST COMPANY IS IN ENCAMPMENT TODAY

SHAM BATTLE IS SCHEDULED AT 2 O'CLOCK THIS AFTERNOON AT YOUNG'S RIVER

The First Company, Coast Artillery is in camp today at a point near the Young's River bridge. The boys marched out last evening, a considerable number of them going in a body at 4 o'clock, and the others leaving for the camp as soon as their workaday duties permitted them to go. The encampment will be conducted on strictly military lines, and the time will not be passed in fun only. There will be drilling, and this afternoon a sham battle is scheduled to take place at 2 o'clock. For the purpose of seeing that the soldier boys don't go hungry, a cook has been employed and he will see that there are beans for breakfast, dinner and supper and for any and all luncheons. Probably there will be something besides beans, too, but it would hardly be a regular encampment if the beans were not the main dish.

The members of the company have looked forward with considerable interest to this encampment and if it passes off pleasantly and in the profitable manner that is hoped for, it is planned to have others of a similar nature at frequent periods.

Probably there will be a goodly number of visitors at the encampment today, especially if the day is pleasant. There will be no difficulty in finding the camp by simply taking the road to the bridge.

CLOTHING SHOW FOR MEN

Exhibit of the Latest New York Style.

Judd Bros. have just opened their New York Style Show for Men and Young Men.

Clothes of all kinds and descriptions of the very latest fashion are being shown.

The greatest tailors of New York, Alfred Benjamin & Co., whose models are imitated all over the country, have furnished the garments now on exhibition.

The men who design the Benjamin clothes are widely known as the creators of real New York Style. And Judd Bros. have been fortunate

enough to get their very best productions for the exhibition of Correct Clothes for Men and Young Men.

Fashion has dictated high colors, which are very pleasing to the eye, and which will be extensively worn.

Striped patterns are very frequent and produced by tailors whose fingers are constantly on the pulse of fashion. They are certain to be worn by correct dressers.

There are many other fabrics; each one smacks of true style; that is, New York Style.

With this Style Show being held here just at the beginning of the season, there will be absolutely no excuse for any man in Astoria, not being fully up to the metropolitan standard in matters of dress.
