162 1/2 First St., Corner Morrison.  
PORTLAND, OREGON.  
Please mention the Astorian.

### WASHINGTON LETTER

WASHINGTON, Oct. 8.—In discussing the charge made by the Forest Service for power permits and the probable action of the Trans-Mississippi Congress at San Francisco October 6th to 10th, in the matter of the conservation of water power, Gifford Pinchot, the United States Forester, expressed himself as follows in a recent letter: "Although I shall not be able to be present myself, I send a representative I am deeply interested in the Trans-Mississippi Congress and share your anxiety that the Congress may pursue such a course as will have a positive tendency to promote the active development and utilization of water power.

"The need of water power to conserve the other natural resources of the country, especially the mineral fuels, is thoroughly understood by the Forest Service. Thus the active development of power sites upon the National Forests, for which permits are issued, is always secured by imposing the condition that work shall be begun within a definite specified time and completed within another definite specified period. The policy of the Forest Service is to encourage water power development in every way consistent with the public interests involved.

"While the charge for power permits should be based, not only upon the services rendered by the Government in administering the Forests and conserving the water flow, but also upon the 'power value' of the land occupied, the charge imposed need not be onerous. You are entirely right in your belief that I do not desire to make the charges burdensome either to the power companies or to the people.

"On the contrary I have made careful inquiry of persons experienced in the practical development of power projects and am convinced that the charges have been fixed so low as to avoid by a wide margin any possibility of retarding power development. As explained in my letter of May 5, the action, or rather lack of action, by the power companies upon the suggestion that they submit to a fair investigation in order to determine the reasonableness of the present rate of charges, clearly indicates that their complaints are groundless.

"The only real grievance which the power companies have is that, under the Act of February 15, 1901, (31 Stat., 790) their permits must of necessity be revocable at the discretion of the Secretary of Agriculture, and with reference to this feature, as you are already well aware, I am in favor of such a change in existing law as would authorize the issuance of permits irrevocable, except for breach of conditions, for a fixed term sufficiently long to insure security of investment.

"Grants of valuable franchises and property rights such as were made gratis to the railroads when the natural resources of the country were thought to be inexhaustible can not now be seriously considered in connection with the development of water power to the country is coming to be more and more thoroughly realized and fear of a water power monopoly, instead of being looked upon as an absurd vagary, has taken a firm place in the thought and consideration of the people.

"I am entirely in accord with the position taken by the President in his message of February 25, when he says:

ference with the daily life of the people as the consolidation of companies controlling water power. Through lack of foresight we have formed the habit of granting without compensation, extremely valuable rights amounting to monopolies on navigable streams and on the public domain. The repurchase at great expense of water rights thus carelessly given away without return has already begun in the East, and before long will be necessary in the West also. No rights involving water power should be granted to any corporations in perpetuity, but only for a length of time sufficient to allow them to conduct their business profitably. A reasonable charge should of course be made for valuable rights and privileges which they obtain from the National Government. A fair share of the increase should be safeguarded for the benefit of the people, from whose labor it springs.

"I thank you for your letter, and for the interest you are taking in this very important public question."

### WIFE WAS ANXIOUS.

But Chairman Mack Had Recovered From Sudden Illness.

CHICAGO, Oct. 8.—Mrs. Norman E. Mack, wife of the chairman of the Democratic national committee, who was reported to have collapsed Tuesday night in his room at the Auditorium Hotel Annex from a hard cold and chill, reached Chicago last night. She proceeded anxiously to the Annex to cheer and aid her husband.

"Where is Mr. Mack?" she inquired with some trepidation when she found his room dark and vacant. "At the banquet," replied a clerk.

John I. Martin, learning of the arrival of Mrs. Mack, hastened to inform the chairman. Mr. Mack was not told of his wife's arrival, through being hemmed in by the banqueters and their cigar smoke to such a degree that Col. Martin's mission was made futile.

Mr. Mack was really ill Tuesday night, but whether his illness was caused by a delectable dish of cream or by an unusually black cigar given to him by a republican friend, he is unable to decide.

### BOMB THROWER SENTENCED.

NEW YORK, Oct. 8.—For the first time in many years a man who has thrown a bomb has been convicted in the general sessions court. He was at once sentenced to imprisonment for not less than nine years nor more than ten, the latter being the maximum penalty. His is Salvatore Sallina, 22 years of age, a barber.

At half past three o'clock on the morning of Sept. 18 a bomb was exploded in a hall way in Prince Street, forcing out the walls of that, and the adjoining building. Several persons were asleep in the building and there was much excitement, but no was injured. Sallina was arrested charged with the crime.

The jury did not believe his story, denying that he had thrown the bomb.

### BEST CATARRH DOCTOR

Has Cured Thousands—Will Cure You or Money Back.

This is the little Hyomei inhaler, the little doctor that has cured many thousands of sufferers from catarrh, bronchitis, asthma, hay fever, coughs, colds, and grip.

It's so easy and pleasant to cure yourself with Hyomei. Just pour a few drops in the little inhaler, and breathe it in. The healing, soothing and antiseptic air will reach every nook and crevice of the mucous membrane of the nose and throat; will stop the irritation almost immediately; will allay the inflammation; kill the germs and cure the disease.

"My wife has been using Hyomei for two months for catarrh and pulmonary trouble. She has received more relief and benefit than from any other treatment."—E. S. Parrett, Jeffersonville, O.

"Hyomei cured me of terrible earache and buzzing in the head. I would not be without it in the house for a single night."—Mrs. S. P. Fuller, Columbia, S. C.

T. F. Laurin, the druggist, sells Hyomei (pronounced High-o-me) and guarantees it. A complete outfit, including inhaler, only costs \$1.00, and an extra bottle of Hyomei, if afterwards needed, will cost but 50 cents.
