

THESE Shoes are the Standard for Men's Footwear. They are made in every desirable leather and in styles that are right up to the minute.

Made on Right and Left Patterns so that the shoes follow the natural contour of the foot.

Counters are moulded with great care to the natural shape of the human heel thereby preventing the heel from slipping up and down in the shoe.

The heels are made right and left which keeps them from running over.

IS CRUSHED TO DEATH BY WAGON WHEELS

LAMENTABLE ACCIDENT TO GEORGE KNUDSEN OF SHERMAN TRANSFER COMPANY

While driving a heavily laden wagon down the Uniontown hill yesterday afternoon, George Knudsen, driver for the Sherman Transfer Company, was thrown under the wheels as the result of an accident to the brake, and he received injuries from which he shortly after died.

Apparently both the fore and rear wheels on one side of the wagon passed over his chest and literally crushed his life out. The accident was witnessed by one or more people, and kindly hands soon endeavored to render assistance.

The wagon is said to have carried perhaps over two tons, and as it neared the bottom of the Uniontown hill, the horses held it back with some difficulty, despite the fact that the brake was on.

With a sudden snap the brake broke. Knudsen was precipitated backward and fell to the ground. It was impossible for him to save himself, under the circumstances.

The wagon passed on and the crushed body of the unfortunate young man lay there in the street. With the brake broken the horses jumped ahead against the horses, but the patient and well trained animals are said to have done all they could to stop it.

When the unconscious form of the wounded man arrived at the hospital it was seen at once that his injuries were very bad. Dr. Finch was called and he hastily treated the injuries, but from the first it seemed inevitable that death would come at any moment.

The news of the frightful accident soon spread over the city, and on every hand last night were heard expressions of regret for the untimely death of the young man.

Notice of the funeral will be announced later.

FOOTBALL TEAM GETS LEAVE TO GO

BOARD SAYS BOYS CAN GO ON WEEK'S TRIP TO PORTLAND AND EUGENE.

At a meeting of the school board yesterday afternoon the question of granting permission to the High School football team to go to Portland and Eugene was again taken under consideration.

It is said the board showed no disinclination to grant the permission. Only one member is said to think that it might be better if the boys would stay at home instead of making a trip that will take them out of school for an entire week.

An incidental question has arisen in connection with the absence of the football team for one week. In the Astoria public schools there obtains what is termed the "honor system," and under this system all those pupils who have fulfilled certain requirements called for are passed from grade to grade without being compelled to take written examinations at the end of the terms.

"Pupils known as 'Honor Pupils' shall, at the end of each term, be promoted without examination, when they have fulfilled the following requirements: Excellent department, no tardiness, not to exceed five days' absence, all of which must be excused, and a general average of 85 per cent in scholarship, provided that they shall not fall below 70 per cent in any one study."

It will be observed that "five days' absence"—no matter what the cause may be—unless excuse is granted by the proper school authorities, will render all advantages under the honor system of no effect.

The boys of the football team naturally wished to secure permission from the board to leave for the week, for without that permission they would lose all advantages under the honor system.

But a question arises. Is it not a hardship on a boy or girl who may fall sick for six or seven days?

Under the rule the pupil who falls sick for any period over the five days must lose all the advantages of the honor system, while the football boys are excused for a full week merely to help carry out the school athletics.

There has been some criticism of this five-day rule, as there seems to be a disposition to think there perhaps should be an exception in the one case of accident or sickness. If boys are to be given a chance to go away for a week to play football and still may retain their claims on the honor system, it may not be too much to ask that a pupil who falls sick for six or eight days may also be granted some chance to retain the advantages of the rule.

Superintendent Clark said last evening that he thinks the rule should be changed in the case of sickness or accident. He will therefore propose some proper amendment to the board, whereby a pupil who is kept out by an unavoidable necessity may still be given a chance to be advanced without the written examination, especially in those cases where the pupil can and will "make up" for the time lost.

Mr. Clark said that in his opinion, and in the opinion of most of the teachers, the honor system has worked extraordinarily well. It assures attendance and promptness. Last year, for example, the average attendance reached 98.8 per cent a very high record.

LURLINE ON TIME.

Saves Life and Property of Ozias Winter of Skamokawa.

Wednesday night great excitement was afforded all who were on board

Copyright 1908 by Hart Schaffner & Marx

Smart Style is one of the prominent points in favor of our HART, SCHAFFNER & MARX clothes, the latest correct models are always shown in this line

There are no other clothes to excel them in excellence of quality, in perfection of tailoring and in fit.

Will satisfy you in clothes, blue or black or fancy weaves, finest goods made.

Suits priced \$20 to \$30. Overcoats \$18 to \$25.

Sweater Coats.

New line just in; the latest weaves and colors, fine for "chilly weather."

\$3.50 to \$5.00.

the steamer Lurline between Skamokawa and Cathlamet.

The steamer was wending her way up steamboat slough on her night trip when a fire was noticed on the south side of the roof of Ozias Winter's home, at the point where the Government light is kept.

The captain of the boat immediately gave the fire alarm on board and drew closely where a hose was gotten out and Acting Purser Bain, who was the hero of the occasion, assisted by the night purser, aroused the old gentleman from his slumbers and amid the yell of fire from all hands Mr. Winter emerged from the building in scanty attire and from that time on was kept busy dodging the streams of water which were being played upon the house.

Wm. Bailey, of Skamokawa, who was on board says that had it not been for the timely arrival of the boat the chances are both Mr. Winter and the home would have burned up, and that much credit is due to the Lurline officers and crew for their work.

QUARANTINE OVER.

SAN FRANCISCO, Oct. 22.—By direction of the surgeon general of the marine hospital the quarantine that has been maintained in all ports against leaving San Francisco harbor has been completely removed and today the ocean going craft will be able for the first time in fourteen months to come and go without use of rat guards, dock fenders and periodical fumigations.

THE NAME FIXED.

WASHINGTON, Oct. 22.—Hereafter in all naval communications and orders the Mariana or Ladrones islands will be designated simply as the Mariana Islands, instead of the Ladrones, by which they are most popularly known.

RATIONAL CURE FOR ECZEMA No More Dosing the Stomach—Cure the Skin Through the Skin.

When you have a scratch on your hand you wash it out and cleanse it and then the skin cures itself. You do not take blood medicine to cure a festered wound.

The best skin specialists today are agreed that the only way to cure the skin is through the skin.

The fact that eczema is a skin disease and not a blood disease is evident from statistics which show that nearly all eczema sufferers are perfectly healthy in all other ways except as to their skin.

You can prove immediately the relief of a true skin cure by using oil of wintergreen as compounded in D. D. Prescription.

This liquid attacks the disease germs, numbing them while building up the healthy tissue of the skin. We have now handled this meritorious and thoroughly scientific remedy for so long and have seen its reliable result so many times that we freely express our confidence.

At a Studio Tea. She put down her cup and rose. "Thanks awfully," she said, "for letting me see your academy picture, Mr. Brush—and goodby."
