

There's a magic spell in the fumes of good, pure Coffee, the kind that refreshes and invigorates even by the odor alone. When the fragrance of our pure Coffee reaches the nostrils it creates a desire to taste at once the magnetic nectar from which the aroma comes. It is the same way with our choice Teas, which satisfy the desires of the most particular tea-drinkers.

BRYAN LEAVES NEW YORK.

SYRACUSE, Oct. 29.—Having delivered in this city the last speech of the campaign in the Empire State, Colonel Bryan is now speeding westward and in the morning will make another invasion of Ohio. Another feature in the connection with Bryan's arrival here was his initiation into the Order of Mystique Krewes of Kanono, a Syracuse Boosters' Club. Bryan was given the name "Heap Big Talk Papoose of the Platte," which interpreted means "Boy orator of the Platte."

The Bryan special arrived here early in the evening and found a big crowd on hand to welcome the candidate. After shaking hands with several hundred people he hurried away for two addresses scheduled for this evening. The principal gathering was at the Wieting opera house, where Judge Alton B. Parker also spoke. Bryan in his speech spoke of the fact that as the campaign is drawing to a close the Republicans were resorting to threats of panic. He discussed also the bank guaranty of deposits.

THE COWS BUTT IN.

NEW YORK, Oct. 29.—Five cows on their way to peaceful homes in Brooklyn came near breaking up the republican parade on the way to the Taft meeting at Madison Square Garden last night. The cows were being driven along Sixth avenue and came in contact with the parade moving towards the garden. The bands, the yelling and the red fire caused consternation among the cows and with their heads down they charged the marching Republicans. The marchers scattered in every direction and it was not until the police and the man who owned the cows rounded up the frightened animals that the parade continued. No one was injured.

HONOR TO WHOM DUE.

CHICAGO, Oct. 29.—Dr. John W. Hayward, member of the International Boundary commission of the United States and Mexico and a well known engineer, will be the dean of the Northwestern University Engineering school now being built upon the Evanston campus. Dr. Hayward was officially appointed head of the school at a meeting of the trustees last night and will take up his duties September 1, 1909. The new dean is a graduate of Cornell University of the class of 1889 and is well known in the engineering world.

IT'S A GOOD THING TO REFER to the reputation of a store before making any important purchases therein. Before you buy is the time to look up the matter. Ask questions. Find out if the store you intend patronizing keeps its pledges. Be sure that you learn if it sells the qualities it claims; if it treats its customers honestly and fairly, then, if satisfied, buy there. Do all the asking you wish about us among your friends, and that you will result in your coming here regularly.

RAILWAY MEN PLEASED WITH PROSPECTS

PRESIDENT EARLING OF THE "MILWAUKEE" VISITS THE WEST ON A TOUR.

LOOKS INTO ALL THE TRADES

Crops and Lumber Outlook Strike Him as Entirely Favorable and Satisfactory—Much Pleased With Surrounding Country.

NEW YORK, Oct. 29.—"Conditions along our lines in the West are satisfactory," said President A. J. Earling, of the Chicago, Milwaukee & St. Paul Railroad, on his return today from a trip through the west. "The crops have been good and they have added materially to the traffic of the railroads. So far as the movement of livestock is concerned the shipments of sheep have been restricted because of low prices. The movement of lumber is showing improvement, in fact very big improvement. This is through both the Pacific coast and of the Wisconsin Lumber districts. The merchandise movement, by which I mean drygoods, groceries, etc., is satisfactory. So far as I can see, however, the manufacturing plants have not started up to any large extent."

Regarding the report that the St. Paul had decided upon low export rates on goods destined for Oriental markets, in which traffic the St. Paul will be in a position to share as soon as its Pacific Coast Extension is completed, Mr. Earling said: "Our line to the coast will not be completed until July of next year and we have really given very little consideration to the matter of export rates on Oriental business. It will be time to consider that later. We have not entered into any special arrangements with the Canadian Pacific in reference to such export business and in fact we have not taken up the matter actively."

In preparation for the opening of its line through to the Pacific Coast, the St. Paul has undertaken the construction of a large number of freight cars in its own shops. This construction work in the past has been carried on only in the roads shops at Milwaukee. To meet the new demands cars will now be built also at the Minneapolis shops.

MAY BE TROUBLE.

Revolution And Reception Of American Fleet Likely To Clash.

AMOY, Oct. 29.—The supply ship Colucia returned to the harbor here at 4.30 o'clock this afternoon, having failed to secure connection by wireless telegraphy with the second squadron of the American battleship fleet now on its way here. Captain Patton says that the battleships are more than 200 miles away and will probably arrive tomorrow afternoon. The foreign consuls located here exchanged official calls with Prince Tu Lang, who is here as one of the official delegates by the Peking government to receive the American fleet. The Prince will today move his residence to the reception hall where the American admiral and the officers of the fleet will be entertained.

Viceroy Song, fearing the revolutionists, who have made many threats, has returned aboard the cruiser Hai Yung where he will remain during the reception.

INSURES HER TROUSSEAU.

CHICAGO, Oct. 29.—A dispatch to the Record Herald, from Elkins, W. Va., says: Miss Katherine Elkins today took out a fire insurance policy covering the wardrobe which is believed to be her trousseau. The amount of the policy is not made known but it covers a wardrobe and jewels and extends only for a month. It was the intention of Senator and Mrs. Elkins to return to Washington the latter part of next week but on receipt of a cablegram today Mr. Elkins decided to remain here for some time longer.

HOLY PILGRIMAGE.

NEW YORK, Oct. 29.—Steamship officials are busy figuring on the transportation of the largest Roman Catholic pilgrimage to the holy land that has ever left this country, which will take place next year. It is stated that two large steamships will be required to transport the pilgrims to Europe.

NORTH SIDE NEWS

Miss L. M. Williamson, of Ilwaco, is the accredited representative of The Astorian and will take care of all items of news, orders for subscriptions and all kinds of printing.

Mrs. Wiese of Ocean Park spent a day or two in Ilwaco this week visiting with Mr. and Mrs. Chas. Eckert. Gordon Bowen, who for the past year has been employed as stenographer in the office of the Ilwaco Railroad Company, left the first of the week for McGowan, Wash., to accept a similar position with J. P. McGowan & Sons.

W. A. Fowler left Monday for Astoria where he spent a day or two on business after which he went to Young's river to look over and cruise some timber in that locality.

Dorsey B. Smith, a former superintendent of the Ilwaco Railroad, was in Ilwaco the first of the week, visiting friends and shaking hands with his old acquaintance. He returned to his home in Portland on Wednesday.

Prof. McKline, a slight-of-hand performer, showed Monday and Tuesday evening in the Ilwaco opera house. His shows were well attended and he had several very clever acts which were readily appreciated by those present. Owing to a matter of a business nature, which necessitated his presence in another town, he was unable to show Wednesday, as he had intended doing.

Mrs. Parks is having some repair work done to her home on Lake street, this week. It is being reshingled, which, she deems necessary if it is to withstand the severe storms experienced here in the winter.

Mr. and Mrs. Charles Eckert contemplate leaving Ilwaco in the near future for a small place near the Dalles, Oregon. Mr. Eckert has accepted a position with Dorsey B. Smith. He will leave either Monday or Tuesday and his wife and daughter will follow in a week or two.

The weather, so far this week, has been very favorable for hunting and owing to the good marksmanship of some of the hunters they and their friends have been feasting on wild game.

Mrs. Belle Lee of Seattle, president of the Rebekah Lodge, arrived Wednesday afternoon for a visit with the Ilwaco Fraternity Rebekah Lodge. A large number of the members were out to lodge, regardless of the storm after the regular meeting refreshments, consisting of cream cake, potato salad, sandwiches and coffee, were served in the banquet room. The members dispersed about midnight, feeling that the few words of encouragement spoken by their president would assist them in doing better work in the future than they have done in the past. Mrs. Lee returned to her home Thursday morning.

Edward Saunders is employed in the clothing store of the Wise Brothers, while the junior partner of the firm is spending a short vacation in Oregon.

If report be true, it is said that J. C. Warner has sold his ranch at the head of the bay for the sum of \$15,000. This was formerly known as the Hutton ranch, but was purchased not very long ago by J. C. Warner and since has been his home.

W. A. Fowler returned Thursday on the launch from a short business trip to Astoria and Youngs river.

Why Colds Are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. It is the same with all infectious diseases. Diphtheria, scarlet fever, measles and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Remedy. The many remarkable cures effected by this preparation have made it a staple article of trade over a large part of the world. For sale by Frank Hart and leading druggists.

Needs no breaking in

Yesterday we fitted a customer in one of our new Red Cross models. As she left she said, "Wrap up my old ones. I'll wear these instead."

The Red Cross Shoe is comfortable the moment you put it on!

Its sole, made of specially tanned leather, is flexible. It doesn't bind, cramp or "draw" the foot. It fits like a glove and bends with your foot, just as your glove moves with your hand. This fall

"It bends with the foot"

RED Cross Patent Collar Lace, \$4.00

Get Style and Comfort Get Both

Come in and try on the Red Cross. Know for yourself what it means to the thousands of women who wear it, who would not be induced to go back to stiff sole shoes.

Slip your foot into the Red Cross,—that's the only way you will ever realize what a wonderful difference it does make! You wouldn't believe a shoe could be so comfortable.

We have it in all styles—High Shoes, \$4 and \$5; Oxfords, \$3.50 and \$4.
