

### BEAUTIFUL ART WORK FOR CAPITOL

WISCONSIN'S ASSEMBLY WILL HAVE VERY HANDSOME DECORATIONS.

ARE IN NEW YORK CITY NOW

One Figure Typifies Wisconsin, And Another a Jesuit Father, While Other Figures Represent the Past, Present, and Future of the State.

NEW YORK, Oct. 31.—The nearly completed decoration for the assembly room of the Wisconsin state capitol, painted by Edwin A. Blashfield, has been placed on exhibition in New York and is attracting much attention.

It will remain on exhibition for only a few days. The decoration symbolizes the past, present and future of the state and contains three groups of figures, set in a handsome grove of pine trees.

The figure typifying Wisconsin is seated on a rock in the center of the composition, surrounded by other figures, which represent Lake Superior, Lake Michigan, the Mississippi river, a number of the early explorers of the Northwest and one of the Jesuit Fathers who first worked among the Indians. The figure of Wisconsin is in almost full light; the others are in partial or complete shadow. In the right hand hand corner is a "color guard" of one of the Wisconsin regiments in the Civil War, and a couple of Indians covering their eyes from the light of advancing civilization. This group symbolizes the past of Wisconsin, from the earliest times until the middle years of the last century. Directly in front of the central figures stands "The present" pointing toward the dim white buildings of the capitol, seen in the distance and a group of lumbermen, miners and farmers, on whom the prosperity of the state now depends. At the extreme left stands the figure of "The Future," guarding her lamp and by her side a figure typical of the "Conservation of Force," whose gesture indicates her wish to preserve the great trees of the forest.

#### CHANCE FOR SPEED.

Foreign Autos Will Be Invited To Try New York's Cement Track.

NEW YORK, Oct. 31.—If the plans now being considered are successful, New Yorkers will have an opportunity to see the fast automobiles and famous drivers that have been sent to America to take part in the grand prize race without going to Savannah. It is proposed to have a series of tests of speed to take place on the new motor parkway on Long Island, in which cars entered for the grand prize will try their speed against the Vanderbilt sup and motor parkway sweepstakes cars. It is the intention to run the cars over a two mile straightaway course on the cement parkway with the object of establishing new records for short distances. All of the foreign cars in the Savannah race will be invited to participate and suitable prizes will be invited to participate and suitable prizes will be offered. In addition to the two two mile tests, it is suggested that races of one mile and one kilometer be arranged.

#### METCALF MAY RESIGN.

CHICAGO, Oct. 31.—A dispatch to the Tribune from Washington, D. C., says:

A rumor that Victor H. Metcalf, Secretary of the Navy, had resigned because of ill health and was to be succeeded by T. H. Newberry of Detroit, floated into Washington from Detroit yesterday.

At the White House a statement was made that nothing was known there of the reported change. Mr. Metcalf is ill at his home in Washington.

It has been the understanding here that Secretary Metcalf would leave office at the close of the Roosevelt Administration. The remainder is believed to be a case of coming events casting their shadows before.

#### KEEN CONTEST ON.

New York Millionaires Will Elect Aero Club Officers.

NEW YORK, Oct. 31.—Up in For-

ty Second Street there is an election campaign going on that, at least by those immediately interested, is being fought out more vigorously than the great national campaign now drawing to a close. On Monday night the annual election of the Aero Club of America will be held and it is among the members that the campaign is being waged.

Some time ago, a number of the more enthusiastic boys of the Aero Club formed a second organization under the name of the American Aeronautic Society and it is these members who are now attempting to secure control of the older organization. They claim that the original club is not taking the place that it should take in the active practical work of aviation and giving practical aid to those who are making progress in the art of air navigation.

The Aero Club has 300 members, the combined wealth of whom is said to be \$400,000,000, and its members includes some of the most prominent men in the East.

#### WHITE SLAVE TRAFFIC.

Government Makes What Is Believed To Be Important Arrest.

CHICAGO, Oct. 31.—The arrest last night of Joseph Michel, alias Michel the Mysterious, in connection with the government's crusade against the "White slave" traffic, promises to furnish one of the most important cases in the batches of prosecutions brought by United States Commissioner Mark A. Foote, and in default of \$25,000 bail Michel was sent to jail for a preliminary hearing next Friday.

Michel's wife, Mariette Michel, was arrested some time ago and held to the grand jury under \$5000 bonds. She waived a preliminary hearing and prevented the arrest of her husband sooner by declaring that she was the owner of two houses and that her husband was merely a bartender. The government claims to be able to prove otherwise now.

Michel was formerly in partnership with Alphonse Dufour, who with his wife recently forfeited bonds of \$26,500 and fled to Paris. However, in June, when Mr. Sims started his raids, Michel was the sole owner of two resorts, it is said, wherein five alien women are said to have been harbored.

In some manner Michel had been apprised of the raids and just before the arrival of the government detectives, it is said, he spirited the women away. The names of the women were procured and government officers in every large city were told to be on the lookout for them.

Yesterday afternoon Mr. Sims was notified by wire that the women wanted had been arrested in an eastern city and a warrant was sworn out for Michel's arrest.

United States District Attorney Sims now is working on the theory that Michel's house was used as a clearing house for "White slaves," and that they were brought from Paris to Chicago and then sent back to New York and other eastern cities. This theory is based on information received in the telegram asking for the arrest of Michel.

#### COUNTING THE CASH.

Hamilton Fish's Resignation Compels Accounting.

NEW YORK, Oct. 31.—Following the resignation of Hamilton Fish as assistant treasurer of the United States in charge of the sub-treasury here, a corps of bookkeepers under the direction of United States Treasurer Treat today began checking over the books of the office. While this task is a big one, it does not compare with the work required to count the cash in the vault which work will be taken up as soon as the checking of the books as been completed.

There is in the vaults approximately \$173,000,000 in gold coin, \$17,000,000 in currency and \$80,000,000 in silver coin and all of this must be counted and verified piece by piece. The money is in sealed bags and packages but the mark on each of these must be verified by the actual counting of the contents. The work will probably require at least a month. The counting

is only done when an assistant treasurer leaves the office. Mr. Fish resigned as assistant treasurer in order to accept a nomination for congress.

#### GETS HEAVY DAMAGES.

CHICAGO, Oct. 31.—In one day after a broken trolley pole fell on the head of Mrs. Julia Konold, her hair, naturally a chestnut brown, was turned completely white and the expression of her face changed from the bloom of middle age to that of a woman fifteen years her senior. The accident occurred on December 21, 1904. In Judge Tuthill's court yesterday a verdict for \$19,000 was rendered in her favor against the Union Traction Company, owners of the line on which she was injured. The verdict is one of the largest ever returned in favor of a woman in a personal injury case in the history of Chicago.
