The North German Lloyd training ship Hergozin Sophie Charlotte, was hauled from her anchorage off the Tongue to a berth alongside the O. R. & N. piers, where she took on stores and water. Captain Glund yesterday received his orders for the continuance of his voyage, and they direct him to proceed hence to Port Phillip's Head, on the Australian coast, where he will receive final orders as to where to load wheat for Europe. She will probably take the steam again this morning, and leave out on her long 6000 mile voyage tomorrow morning. The ship was the cynosure of thousands of interested eyes yesterday, having been thrown open to the public. Ladies and gentlemen swarmed on board, and under the courteous guidance of her officers and cadets, saw everything of interest from stem to stern. She is a beautiful vessel and kept up to the highest standards of utility and cleanliness. The very "pink of condition" covers the situation exactly. She has everything to make her officers and men happy and contented, including a fine ship's library of 6000 volumes, a fine band of 28 pieces, a splendid galley and a long list of dietary articles, bath rooms, and all manner of accessories. She is one of a tremendous fleet owned by her company, which comprises 163 huge steamships, of which the Kaiser Wilhelm der Gross is, or should be, the flagship; 67 coasting steamers, on the China coast; 170 huge river lighters; 50 steam tugs, and two training ships, the other one being the "Hergozin Cecelia." The officers and cadets of the ship, including everyone on board, has been on shore, and the people of Astoria have received them cordially at all points socially and commercially, and are exceedingly glad they came, and what is more, hate to see them leave. They are a fine, frank, pleasant group of people and a credit to the profession they stand for.

**ASTORIA ELEVEN MEET SOLDIERS TODAY**

**EIGHT OF LAST YEAR'S TEAM IN LOCAL LINE-UP AND GOOD GAME PROMISED**

The Astoria Athletic Club football eleven will play a team from Fort Stevens on the grounds up on the heights at 3:30 o'clock this afternoon, and a good game is promised.

The soldiers should be in excellent trim, as they have a first class coach in Lieutenant Farnsworth, an old football man, and in addition they have a big crowd of men to choose from.

The Astoria Athletic Club team, as they designate themselves, is mostly made up of last year's eleven and contains some good material. They have been practicing only a week or so, and most of their work has been in-doors, but because of the fact that a majority of them have played together before it is expected they will be in fairly good shape for today's game. The local team has the weight, and ought to put up a stiff game.

Eight of last year's players will be seen in the Astorian line-up today, which is as follows:

Center, L. Johanson; right guard, F. Larson; left guard, L. Gramms; right tackle, L. Carlson; left tackle, S. Johanson; right end, H. Larson; left end, N. Jeldness; quarterback, Geo. Holmes; left half, J. Bays, manager; right half, H. Graham; full back, R. Graham, captain.

The game will be called promptly at 3:30 o'clock. An admission fee will be charged.

**ASTORIA HIGH DEFEATS PORTLAND TEAM**

**LOCALS WIN SECOND GAME FROM ACADEMY ELEVEN BY SCORE OF 12 TO 6.**

By a score of 12 to 6 the Astoria High school eleven defeated the Portland Academy team on the Athletic grounds yesterday afternoon. This is the second defeat the Portland eleven has met at the hands of the Astoria boys this season, the first score having been 11 to 4.

It was the first game of the season on the home grounds and those who saw the event sized up the High school team as containing the material for a likely team. Some of the plays were brilliant, though on the other hand there were plays and occasions when things didn't go well. In the first half the Astoria eleven had things all their own way. Though lighter, they simply walked through the lines of the Portland Academy eleven. In this first half the local team was seen at its best. They outplayed and out generalled the visitors at every turn, and, most surprising of all, kept breaking through their defenses with methodical regularity. While away on their trip in the valley the Astoria eleven won a reputation for grit and that up and doing courage that counts in a football game, and during this first half they showed quite a bit of this. The faster the home team played the better work they seemed to do. Some of the individual work was very good, while the team work seemed of the very best.

When the first half ended the Astoria High had 12 to its credit and the visitors had nothing.

At the opening of the second half the visitors showed at once that they had something up their sleeves. They went at it like tigers. Besides, it looked as if the Astoria boys came out weaker than when they went in. Right at the commencement of the second half the local boys drove the ball down near the goal, and the spectators looked for a repetition of the tactics of the first half, but the Portland boys "fooled" them.

From this time it looked as if the Portland boys would score and in a moment they did. The remainder of the game was see-saw work from one end of the field to the other, with each side getting into bad holes many times and getting out of them by sheer luck or flukes. It was quite plain that the Portland boys were teaching their opponents a wholesome respect for their grit, too, and the locals no longer seemed to break through their lines at will.

All in all the game was a good one. There was enough open work and running with or kicking the ball to make it interesting to the spectators, while things moved fast enough to keep everyone on the alert.

There were no serious injuries, though several of the players were knocked out temporarily, and one of the local players was put out of the game for assaulting one of the Portland players.

**MARSHFIELD-ASTORIA LINKED BY WIRELESS**

**MAYOR STRAW AND MAYOR WISE UTILIZE THE GREAT NEW AGENCY.**

The completion of the new United Wireless Telegraph station at Marshfield, on Friday, the 13th instant, inspired Mayor E. E. Straw, of that city, to initiate the wireless service, with a message to Astoria through its mayor, in the following terms:

"Marshfield, Or., Nov. 13, 1908.

"To Herman Wise, Astoria, Or. Marshfield extends greetings to your city and thanks United Wireless for making us closer neighbors.

"(Signed), E. E. STRAW."

To which happy call Mayor Herman Wise despatched the following over the aerial course of the United lines:

"Astoria, Or., Nov. 14, 1908.

"Mayor E. E. Straw, Marshfield, Or. Astoria appreciates your kind greetings and also thanks United Wireless for having brought us closer together.

"(Signed), HERMAN WISE, Mayor."

And thus another link is forged by the intangible essences of air and electricity.
