"ASTORIA" DOWN AFTER HER PENNANT

BEAUTIFUL FISHERIES PATROL BOAT ARRIVED HERE LAST NIGHT.

Master Fish Warden H. C. McAllister arrived down at 9 o'clock last night, having made the trip in eight and one half hours. Deputy Brown was with him. He comes to receive the fine pennant pledged to the new "Astoria" by the local Chamber of Commerce and which is now complete and will be hoisted on the handsome patrol launch today. Warden McAllister also announces his determination to locate the new central hatchery of the State, either at Westport or on

Young's River, and has strong hope of securing the sum desired from the Legislature this winter. The Warden will return to the metropolis on this evening's express, and Deputy Brown will take the "Astoria" up tomorrow night.

COUNCIL DEALS

(Continued from page 5)

much to do in causing the Irving slide, and that unless it be stopped it would cause more trouble. To be able to control the blasting it was urged that the ordinance just introduced be passed to its third reading and made effective at once. An ordinance when money is not involved may be passed upon the same night of its introduction, provided all of the councilmen present vote affirmatively. One negative vote will stop it. When the question as to final passage was put last night one of

the councilmen voted no. He thus blocked this ordinance. Doubtless he may have felt that he had good reason to do so, but those who are being affected by the slide and hear the mighty detonations every few hours will probably regret that he felt compelled to put in his negative vote.

That this ordinance will be adopted at the next meeting is of course highly probable. Meantime the police under their powers presumably have every right to control the blasting when it is carried on in a dangerous manner.

It appears that every member of the council is anxious to aid in the matter of the Irving slide, the Hegardt communication was referred to the city attorney, city surveyor and the committee of the council.

NEED NEW SURVEY

G. L. Colwell was present at the meeting and upon invitation spoke in relation to certain surveys. According to him there are certain discrepancies apparent in the survey lines, particularly as regards lines in McClure's and Shively's. In certain places the whole ground has perhaps moved slightly during the course of years, and this movement naturally creates trouble in the lines. Dr. Logan indicated a familiarity with the matter also, and said that on one street where he has property the houses are now all in the street according to the survey. Dr. Logan thought there is some mix-up in the monuments. The matter was deemed of such importance that it was thought it should be definitely settled with precision at once. The session was referred to Mr. Tee, the city surveyor, for action.

GET SALOON LICENSE.

Without comment the license of C. J. Bertleson was granted. The committee had apparently become satisfied that under the charter there was no right to withhold it.

REFERRED BACK.

One assessment roll, in relation to the improvement of 9th street, at Kensington, was referred back. It was desired to make a light reduction in favor of Joseph Bernard.

COMMITTEE DISCHARGED.

Dr. Logan, speaking for the Charter amendment committee, asked that inasmuch as its labors were all over it be discharged. With some good humor the motion was acted upon.

EIGHTH STREET.

The leplorable condition of Eighth street was discussed. Those who have seen how the whole street is in the worst of shape, and is steadily growing worse. The new improvement of the block in front of the Higgins property has virtually been destroyed, also, by the heavy teaming that has been done on it during the past few weeks. The rucking of the street two years ago was then thought a fine job, but now one would hardly guess that it had ever been rucked. The work will have to be done all over again, and already there is a demand for some action. That much of the present deplorable condition can be directly traced to the heavy teaming over of the last few weeks is perhaps more than probable. The wagons kept dropping soft clay over the new improved block all the while, and then the wheels later would pick up clay and rocks, until much of the rocks were carried away. The whole street is covered with clay deposited there

by wagons. No effort is seemingly made by contractors to prevent the wagons from dropping clay. The councilmen seemed to feel the need of some action to control such matters in the future.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. T. F. Laurin, Owl Drug Store.

The General Demand

of the Well-Informed of the World has always been for a simple, pleasant and efficient liquid laxative remedy of known value; a laxative which physicians could sanction for family use because its component parts are known to be wholesome and truly beneficial in effect, acceptable to the system and gentle, yet prompt, in action.

In supplying that demand with its excellent combination of Syrup of Figs and Elixir of Senna, the California Fig Syrup Co. proceeds along ethical lines and relies on the merit of the laxative for its remarkable success.

That is one of many reasons why Syrup of Figs and Elixir of Senna is given the preference by the Well-Informed. To get its beneficial effects always buy the genuine—manufactured by the California Fig Syrup Co., only, and it sale by all leading druggists. Price fifty cents per bottle.

NARROW ESCAPE FROM DROWNING

MAN FROM YOUNG'S RIVER IS HAULED OUT OF COLUMBIA JUST IN NICK OF TIME.

An old gentleman, evidently hailing from the Young's River country, had a narrow escape from drowning last night at 9 o'clock, when he was hauled out of the Columbia river at the Julia B. slip by Contractor Miller and Arthur Collins, who, by good fortune were on the spot, along with Fireman S. W. Gaither of that steamer, to whose relief the other two came when the task of pulling the old man onto the slip was getting too much for Mr. Gaither.

Gaither and Collins had gone below on the Julia to fire up, and once the fires were going good, started back on deck, when they heard a strange noise and went to the slip to investigate. They found the old man (he was fully 70 years of age, and badly intoxicated), standing at the lower point of the slip evidently intending to go aboard the steamer for a sleep. He was told to go back onto the dock and in turning to do so, lost his footing and plunged into the river. Mr. Gaither climbed down the gang to his assistance and got him by the hand, but the man's weight (something over 200 pounds) was too much for him and he held him by the hand and called for aid.

to which Collins and Miller responded. The man was gotten to the dock and taken to a nearby saloon where he was warmed and dried and sobered.

He was too inebriated to give any name or address, or to say anything further than that the "river was pretty damned cold." He can thank his star of fortune, if he has any, that these good men were within ear shot of him at the critical moment.

The Color Line

As displayed upon our shelves, will give you every shade of paint that you may require for any purpose—in-door or out. These paints are well ground in fine Linseed Oil, with selected white lead. They are uniform in quality and spread very smoothly, covering a large surface. The durability of this paint is well known in the trade. Convenient sized cans in all popular colors. If you will try these once you will always use them.
