**OCEAN, BAR,
BAY, DOCK
AND RIVER**

The dandy lighthouse tender Columbine, Captain Charles Richardson, commanding, entered port yesterday morning after a six weeks' cruise in Alaskan waters. All were well on board and glad to get back to Astoria. They experienced plenty of ice and snow and cold up there this trip, though the voyage down was very rough and tiresome. As they approached the Columbia river bar shortly after midnight on Friday, they ran into a succession of high gusts and heavy seas, which carried away everything movable from the Columbine's decks and smashed in the upper housing. All hands were on watch through the night of Friday, and when she was snugly berthed at the Ninth street dock, Captain Richardson made his way instantly to his cozy home on the Lewis and Clark, where a warm welcome awaited him and he had the chance to catch up in his sleep.

According to the Oregonian of yesterday the German ship Alexander Isenberg, wheat laden for Fal-mouth or Queenstown, for orders, will leave down today, for sea.

The French bark Eugene Schneider is to load lumber outward, foreign, at the Hammond Lumber Company's plant at Tongue Point, according to metropolitan advices.

The British steamship Uganda, sailed from Nanaimo and Victoria on Friday last for this port, and is expected to enter this morning. She will load out grain from Portland.

The Lurline made a good getaway last evening with plenty of business on both decks. Among her passengers up last night were Captain Johnston, B. C. McDonald, F. R. Sorsby and F. E. Clement.

The Columbia bar was too rough yesterday for the tug Wallula to get outside with the orders for the German training ship Herzogin Cecelie, and an effort will be made to reach her today.

The British ship Braboch is reported outside with Captain Woods, of the bar pilots, on board. She will probably be brought in today. She is cement laden from Antwerp. She was not in sight all of yesterday.

The big Asiatic liner Alesia got down from Portland yesterday morning with a big cargo of flour in her hold for Siberia, and she will get to sea the first moment the bar is passable for her.

The Rose City was the only steamship crossing out from this port yesterday; and she went away with good business of all kinds, especially in the passenger line.

The Norwegian steamship Admiral Borresen arrived in from the British coast yesterday, and proceeded on to Linton, where she will load out lumber for Shanghai.

The Brodick Castle is the next grain ship due down and out from the metropolis.

**EDITOR KARINEN WILL
RUN FOR COUNCIL**

ANOTHER SLIGHT SURPRISE IS THAT J. F. BOWERS WILL OPPOSE MR. BELLAND

Editor Fred Karinen of the Finnish newspaper, the Laanen Uutiset, will again be a candidate for the common council from the First ward for the two-year term. Mr. Karinen had announced his determination not to run, but friends have appealed to him to make the race and yesterday a petition asking him to run as an Independent candidate was filed in the office of the city auditor. Later in the afternoon Mr. Karinen formally accepted the nomination by petition.

F. J. Carney is Mr. Karinen's opponent, and both of these gentlemen are well known.

Another slight surprise in the political affairs of the city was the nomination by petition yesterday afternoon of John F. Bowers as a candidate on the Independent ticket for the council from the Fourth ward for the four-year term. This makes Mr. Bowers the opponent of Mr. Belland. Mr. Bowers is the chief engineer at the Clatsop mills. He has resided in Astoria about a dozen years and he believes there is a large number of citizens in the Fourth ward who wish that there be two candidates in the field.

Mr. Bowers, and his friends, unite in saying that there is nothing against Mr. Belland in any way except that his enforced absence from the city several months out of the year militates from his perfect usefulness as a councilman.

THROWS MONEY TO BIRDS

It is generally conceded that theatrical people, particularly those who are connected with the business staff, are spendthrifts when it comes to advertising. Nearly every showman has his hobby to attract public attention to his play and various methods are adopted to sway the public. But what appears to be a unique method of spending money by theatrical publicity was invented by Elmer Walters—practically throwing to the birds. Mr. Walters, among other successful plays, is the owner of "A Millionaire Tramp," and, as the title suggests a spendthrift, Mr. Walters, six years ago, conceived the idea of having his millionaire vagabond throw money from a carriage on the day of the show.

Every day during the season Mr. Walters' idea is put into execution, the advertising scheme having won the show many friends. It never occurred to Mr. Walters to figure the amount of money actually thrown into the street since the initial performance of the play until, questioned as to the amount by a newspaper man, date books and daily reports of expenditures were gone over for six years and total amount figured just \$13,230; \$2205 a year, or an average of \$9 per day.

**BALL GIVEN BY O. N. G.
LARGELY ATTENDED**

**MILITARY HOP AT FOARD &
STOKES HALL LAST NIGHT
PROVES SUCCESS.**

The first military ball given by the First Company Coast Artillery at Foard & Stokes hall last night proved to be a success both socially and financially. Quite a number of the younger set of Astorians were present despite the inclemency of the weather, who enjoyed themselves to the utmost whirling over the smooth floor to the music furnished by the company orchestra. Many of the members of the organization appeared in their uniforms, and several of the soldiers from Ft. Stevens were also present in their dress uniforms making a very pretty spectacle mingling with the young ladies who were mostly all attired in bright and becoming colors. A light luncheon was served later in the evening, consisting of cake, coffee and other light refreshments.

The management of the pleasant affair was under the direction of the following: Floor manager, Private Owen; floor committee, Sergeant Basel, Corporal Higgins, Corporal Gustafson, Private Skibbe and Private Utzinger; reception committee: Captain Aberferombie, Lieutenant Knobloch, Lieutenant Sutton and Private Lokan.

Silver Wedding

A very pleasant evening was spent at the Bethania church last night the occasion being the celebration of the silver wedding of Rev. and Mrs. Blessum. The reception was held in the basement of the church and a fine musical program was carried out upstairs. Recitations, vocal solos and singing by the choir added much to the enjoyment of the guests. Many pretty and valuable presents were made to the happy couple.

NEW TO-DAY

NAME MEANS SOMETHING.

When A. E. Petersen built and named the "Modern" barber shop, he meant that it should stand for what it was called. No patron has missed a single feature of the modern tonsorial parlor at that house; and every new device in the way of perfect comfort and service is constantly added as it develops. The latest is an expert bootblack, the best in the business; a qualification that makes his employment really modern.

The Clean Man.
The man who delights in cleanliness, and enjoys a good shampoo, haircut, and shave, always goes to the barber shop for the best.

New Location.

Steele & Ewart wish to announce that they have moved their electrical fixtures and wiring business from 426 Bond street to 441 Commercial (next to Astorian office), where all business will be transacted in the future. Their new fixture show room will be of the latest design in every respect. See opening announcement later.
