and have reduced them **one-fourth**

This in black, green, navy, brown, red and tan. This means the greatest bargains in the cloak line in Astoria. A cloak at these prices makes a very desirable Christmas present.

**OCEAN, BAR,
BAY, DOCK
AND RIVER**

When the Alliance reaches here this morning, en route to Coos Bay, she is likely to be in command of Captain E. W. Mason, who succeeds Captain Ben W. Olsen, the popular master of the Alliance ever since Hardwick left her. Captain Olsen has accepted the command of the Plant liner Nann Smith, and will run that steamer between Coos waters and the Bay City in the future. He leaves this run with a fine reputation for ability, courage and caution and with a popularity wholly deserved; and there are hundreds hereabouts to wish him abounding success wherever his profession may call him. The Alliance will take away from here as passengers the following named people: Alfred Finell, Fred Hager and E. Mickelson. She will sail at 5:30 o'clock this morning. Captain Mason, who will probably take command of the Alliance, is one of the best known passenger men on the Coast. He made an enviable reputation as captain of the Costa Rica, which operated between Portland and San Francisco for the San Francisco & Portland Steamship Company.

The steamer R. D. Inman entered port yesterday morning early and went on up the river to load out from Portland.

The steamer Lurline went up last evening on spot time with plenty of business on both decks, and the following named people as passengers, for a starter: E. B. Gregg, Mrs. T. W. Potter and H. G. De Graff. Vic Delquist, the genial night purser, was on watch as usual, and it is said he had delightful company in the person of a young lady who is making the trip with the purpose of changing her name to Delquist; but then this is only dock-rumor and there may be nothing in it; but if there is, the genial officer has lots of good wishes down this way and so has his (alleged) bride.

The Viking, a new and powerful little steam launch, is ready for launching at the boat yards of Wilson Brothers. She is destined to take the place of the Flyer, in the service of the Astoria Lumber Company.

The steamer F. S. Loop arrived in port yesterday morning after a hard run up the coast, from San Francisco. She docked at the Callender and put off about 15 tons of general merchandise, and then went on to the metropolis. She left San Francisco on Tuesday afternoon last at 2 o'clock, and reached the Columbia bar at midnight on Friday.

The steamer Eureka was among the port yesterday morning, from the California port of that name. She did not tarry here very long and went up stream.

The Portland-Asiatic liner Arabia, bound for Hong Kong and Shanghai, is due down this morning on her way out, and will probably get better despatch than her fleet-sister the Alesha.

The steamship Senator departed from this port for San Francisco at 4 o'clock yesterday morning. Will Benoit, a well known young Astor-

ian went to Southern California on the Senator.

A CLATSOPIAN TALKS IN VIGOROUS TERMS

SUBSTANCES OF ADDRESS DELIVERED BY DR. OWEN ADAIR IN PORTLAND

The Astorian is pleased to be able to submit the text of Dr. Owens-Adair's recent address before the Oregon State Woman's Suffrage convention, in Portland, and to commend its careful perusal to every thinking man and woman in the country:

"I am not here to make an address, only a few minutes talk. It would be superfluous to tell you that I am in favor of equal suffrage for everybody, who knows me, knows that. To use an old homely expression, 'I have always been doubled and twisted and died in the wool.' I have never been much of a talker, but I have been a worker. A very radical and aggressive worker. I have always followed out my conscience, and have thereby many times shocked the sensitive nerves of my friends and the public as well.

"But the public is not so easily shocked as it was 40 years ago. I have lived a long time in Oregon. I think I was present at the birth of the new Northwest. I worked hand in hand with the editor through all those stormy, stormy times. But there are no more battles of scorn, abuse and derision to be fought. Tar and feathers, rotten eggs, together with such lovely epithets, 'Blue stockings, breeches and crowing hens' have been relegated to the past, never to return again.

"Today it is brains versus idleness and ignorance. We have nothing now to discourage us, nothing to make us cross and ugly. For the work now is a pleasure and not a deprivation. Just stop and measure the future by the past. Where will we be 40 years hence? This is an age of rapid progress. We are going ahead with leaps and bounds. Think of it. Women are found in almost every avenue of industry today. The trades and professions are open to her, and she is proving her ability in all directions. There are many ways to work a problem, and we will solve this voting problem. Unity and numbers always give strength, and bring success. We have both. The leaven of forty years ago has not only leavened these United States but the United Kingdom as well. All over the universe today women are rising up and taking hold with hands and brains, of everything that comes within their reach and they are demanding equal shares, equal pay and equal rights with men. I don't feel half so badly as I did 30 years ago because I am not allowed to vote, because I know the better class of men, men of brains and education are willing and anxious for women to vote. It is because the low and ignorant that oppose us and they are unfortunately in the majority. But with the better element behind us, we will overcome the opposition. Where there is a will, there is a way, and we will find the way. I believe all the sorrows and struggles of our lives, are blessings in disguise, the struggles, the sorrows, the smoke and the fire through which the pioneer women have passed have given to women all the opportunities which women possess and enjoy today. Woman's work has ever been for the good of humanity.

"Four years ago a prominent club-woman startled and shocked her associates by declaring that there should be a law requiring physicians to destroy at birth all deformities. The Oregonian sent out reporters all over Portland to interview both men and women on the subject. I said to my friend, 'Now is my chance for which I have waited 20 years.' I sat down and wrote my views on that vital question and read my notes to her. She said, 'Doctor, the Oregonian will not publish that. It's too broad.' 'I believe the Oregonian will publish it, but if it does not, just remember it will not be many years till every great paper of this borderland will be willing to publish and discuss this vital subject. I am proud to say that the Oregonian did publish that letter. It introduced it with large, appropriate and attractive headlines. Now contrast the editor of the Oregonian with the doctor of 20 years ago, who accompanied me through our state asylum. After passing out of that pitiful and loathsome ward, I said, 'Oh, doctor, where is this to end?' 'It is hard to tell,' he said. 'Well, said I, if I had control here as you have, I would see to it that these poor, miserable creatures would have the only chance for their sanity.' He looked at me with perfect amazement and said, 'You would not recommend that, would you?' 'I beg of you not to mention it to my wife for she would be shocked.' 'Oh, I am not going to talk of this to your wife, but I want to tell you right now, that I hope the time will come when I will be permitted to use my pen and my voice in this direction for the purification and preservation of our nation.

"Two years ago I called upon the Legislature through the columns of the Oregonian to enact a law to prevent propagation, through steriliza-

tion of criminals, idiots, insane and all that class of defectiveness. From the prominence given my communication by the Oregonian the subject was taken up by the Washington press and also by Eastern papers. I went to the Legislature and succeeded in getting such a bill introduced in the House, which I consider a great step in advance, and now my co-workers, I ask your assistance. Give me your council, go with me to Salem. Use your pens and study the subject. The press will stand behind us. The newspapers are the great educators of the people. The pen is mightier than the sword. The great dailies, the weeklies and monthlies that are sent out by the tens of thousands are the creations of great minds that have been made great by constant thought and application."

NAME MEANS SOMETHING.

When A. E. Petersen built and named the "Modern" barber shop, he meant that it should stand for what it was called. No patron has missed a single feature of the modern tonorial parlor at that house; and every new device in the way of perfect comfort and service is constantly added as it develops. The latest is an expert bootblack, the best in the
