Just What You Have Been Looking For

Have you been having trouble to get a butter that you could depend upon always being good? "FERNDALE" is a brand that you can rely upon at all seasons of the year and every day in the year.

The reasons for this are: in the first place we use nothing but the very best quality of cream, no two or three weeks old cream in our goods, then it is made up in a scientific manner by one of the best butter-makers in the world, a man who is not only a graduate of 'he best dairy school in the United States but one who has had over 20 years of experience in buttermaking. Then, too, our butter is clean, from the time the cows are milked until it is made into butter and packed in our dirt proof cases, we watch every stage of the handling and making in the most careful manner.

Now which kind of butter had you rather use, the kind that is made this giving to the play the required of any kind of cream that can be bought, in rather an indifferent way by a butter-maker that does not understand the hygienic principals of buttermaking? Or would you rather have a butter that you know is right from start to finish? Remember "FERNDALE" costs no more than the other kind. Talk it over with your Grocer and see what he says about it.
