The steamer Argo, Captain Jones, arrived down from Portland yesterday evening and docked at the Callender, leaving out for Tillamook Bay at 9 o'clock, with a heavy line of freights.

The steamer Alliance was due to arrive in from Coos Bay last night but will probably not get here before this morning. She was delayed in entering the Coos waters by a fractious bar.

The tender Columbine made a getaway last evening on her run to the lower coast after waiting several days for a passable bar.

ILWACO

L. D. Williams returned Monday morning from a short business trip home accompanied by his daughter, Eleanor, who has been visiting with friends in Portland for two or three weeks.

James Vaughn, Joe Markham, Ernest Samples and Fred Hines, arrived Saturday from the Nasel to spend a few days in Ilwaco. They returned to work Tuesday morning.

Mrs. H. Hoagli and son of Seaside Oregon, arrived Tuesday for a visit with her parents, Mr. and Mrs. Sylvester Simmons.

H. H. Uruh, who has been quite ill for the past few days, is now able to be up and around.

A series of pictures, were illustrated Sunday evening at the Presbyterian Church, illustrating life among the people of India; their habit of living, idols, temples, etc., also showing the great good that is being accomplished yearly by the missionaries.

The pictures, besides, being interesting, were, also, very beneficial.

Henry Kaylor, of Long Beach, who has been very ill for some time, is rapidly recovering, and was a visitor to Ilwaco the latter part of last week.

Ralph Grable, who has been engaged in fishing on the Nasel for the past two months, returning to this city the latter part of last week.

SHUTTING ST. JOHN'S.

While only a few hours remain before the quaint old chapel of St. John's is to be forever sealed to its worshippers by the trustees of Trinity and its sacred site devoted to more lucrative commercial uses, public indignation against this act is to-day running high. Straight as the spine of the little house of worship, this incident has pointed out the business dealing of this group of churchmen for all New York to see.

OUTDOOR OPERA.

Never in his career has Oscar Hammerstein offered a better comic opera attraction than the spectacular street brawl in which he has seen fit to engage with a belligerent crowd of newspaper men here. To-day the final act in court has yet to be produced, though an amused audience is eagerly waiting for the next outbreak of fuss and fisticuffs.

TAFT TO TEE.

Every man in town who swings a brassie is today hailing the announcement that President-elect Taft has accepted honorable membership in one of the golf clubs down on Staten Island. While the golfers of the Fox Hills have stolen a march on thousands of their brethren throughout the metropolis in this coralling Big Bill as a clubmate, it is not believed that they will long retain exclusively this honor.

Quite a crowd of Ilwaco people went to Astoria Sunday, afternoon on the launch Hilda I. to see the "Lieutenant and the Cowboy" Sunday evening at the Astoria theatre. Among those who went, are Mr. and Mrs. A. A. Seaborg, Miss Edith Whitecomb, Messrs. Emanuel Porter, Markham, Hedrick, Wise, O'Brien Arthur Hawkins, Grable, Gold and Eli Nort.

DR. ADAIR SATISFIED WITH AMENDMENT

HER FAMOUS BILL PASSES THE SENATE AND IS NOW BEFORE THE HOUSE.

The following cheerful letter has just been received from Dr. B. Owens Adair, of this county, with regard to her bill, now one of the famous provisions before the Oregon Legislature.

It is a substitute for her original measure, and to the casual reader seems to have been shorn of all its essential strength; but if the good doctor is satisfied with this, as an "opening wedge" as she calls it, then no one else may justly complain of it. It is Senate substitute bill No. 68, and is now before the House of Representatives. Her letter is as follows:

"Salem, Or., Feb. 1, 1909.

"Editor Astorian: "With great pleasure I now send you a copy of my bill which has just passed the Senate by two-thirds majority. I cannot express my great satisfaction for this victory, and I have fine hope of success in the House. One of the members of the House said: 'I hope we may pass it with at least 48 votes.'

"This is a substitute for my first bill, at my own request, for I found that it would be impossible to pass the first bill. The Oregonian says

WORK FOR WEALTHY.

No budding millionaire has stepped forward to accept Judge Finn's offer of appointment as his unsalaried probation officer since young Jay Gould was squelched by a stern parent in volunteering his services. Though this ambitious stripling of the House of Gould had been quoted as enthusiastically offering to take the disagreeable duties of this police court post for shrewd old "Battery Dan" Finn, his father has managed to keep him out of reach of reporters ever since and it is believed to-day that the judge will have to look elsewhere for a volunteer.

the committee spoiled the bill by amending it. But there is a great deal in this bill, and it will be an opening wedge for many improvements, if it becomes a law. I shall stay here till I know the fate of the bill; then off to Olympia.

"I visited the O. A. College last Saturday with the members of the Legislature. Which confirms the opinion which I have had for many years that is, that an agriculture college is of far more worth to any State, than a university.

"DR. OWENS-ADAIR."

Following is the amended text of the measure as it passed the Senate:

"A BILL

"For an act entitled an act to prevent procreation of confirmed criminals, insane persons, idiots, imbeciles, and rapists; providing that superintendents and boards of managers of institutions where such persons are confined shall have the authority and are empowered to appoint a committee of experts, consisting of two (2) physicians, to examine into the mental condition of such inmates, and to define who shall be deemed confirmed criminals within the provisions of this act.

"Be it enacted by the people of the State of Oregon:

"Be it enacted by the Legislative Assembly of the State of Oregon:

"Section 1. From and after the passage of this act it shall be compulsory for each and every institution in the State entrusted with the care of confirmed criminals, insane persons, idiots, rapists and imbeciles, to appoint upon its staff, in addition to the regular institutional physicians,

two (2) skilled surgeons of recognized ability, whose duty it shall be, in conjunction with the chief physician of the institution, to examine the mental and physical condition of such inmates as are recommended by the institutional physician and board of managers. If, in the judgment of this committee of experts and the board of managers, procreation is inadvisable and there is no probability of improvement of the mental condition of the inmate, it shall be lawful for the surgeons to perform such operation for the prevention of procreation as shall be decided safest and most effective; but this operation shall not be performed except in cases that have been pronounced unimprovable.

"The term "confirmed criminals," as contained in this act, shall be deemed to apply to and include all persons serving a third term in any penitentiary or penal institution upon conviction of a felony."

A GRISLY SPECTACLE.

NEW YORK, Feb. 3.—Passengers in the Pennsylvania Railroad station at Jersey City were horrified last night to see the head of a man lodged on the cowcatcher of a locomotive as it drew into the depot. Employees of the railroad, seeing that there had been a tragedy, had the head, together with few scraps of clothing removed to the morgue and an investigation was begun. It developed that the victim was W. Weber, general foreman of a grain company, who had been struck at Rahway, N. J., early in the evening. His mangled body was picked up near the scene of the accident, but the head, it was noticed, had been carried into the station at Jersey City.
