NAVAL STORES OF THE UNITED STATES

COMPARATIVE STATEMENT OF RESOURCES AND FIGURES FOR YEARS 1908 AND 1907

WASHINGTON, March 8.—The production of more than 36,500,000 gallons of turpentine and more than 4,000,000 barrels of rosin with a valuation of more than \$14,000,000 for the turpentine and nearly \$18,000,000 for the rosin summarizes the output of the Naval Stores industry for 1908, according to the preliminary report of the United States Forest Service just completed. The study was provided for in a special appropriation of \$10,000 by Congress and the report contains the most complete and accurate statistics ever gathered for the Naval Stores industry in this country and covers the production for both 1907 and 1908, giving comparative figures for the two years.

Of the eight Southern states, each producing more than 200,000 gallons of turpentine and 25,000 barrels of rosin, Florida leads the list with 17,830,300 gallons of turpentine in 1908 against 15,572,700 gallons in 1907, and 1,932,114 barrels of rosin in 1908 against 1,774,370 barrels in 1907.

Georgia, Alabama, Mississippi, Louisiana, North Carolina, South Carolina, and Texas follow in the order named. The comparative report of the production by states is as follows:

While the figures show an increase of 2,408,200 gallons of turpentine and 288,962 barrels of rosin for 1908 over 1907, there was a marked decrease in the value of the product for 1908 as compared with the preceding year. This was due to the great decrease in the prevailing prices for turpentine for 1908 and the slight decrease in the prevailing prices for rosin during the same year. The value of the product for the two years follows: Turpentine, 1908, \$14,112,377.32; 1907, \$18,283,309.93; rosin, 1908, \$17,783,509.61; 1907, \$17,317,059.93; a difference in the value of the combined output of \$3,704,482.93 in favor of 1907.

The figures used in determining the value of turpentine and rosin for the two years are based on the marked quotations at Savannah the recognized naval stores market of the United States. The average price received for turpentine manufactured in 1908 was \$0.3857 per gallon, and in 1907 was \$0.5349 per gallon. The average price received for rosin in 1908 was \$4.14 per barrel and in 1907 was \$4.33 per barrel. The increase in production for 1908 over 1907 was due to more favorable weather and labor conditions than to increased operation. But few operators increased their operations, owing to the disorganized condition of the market at the time operations commenced. Figures upon which the report of production for the two years is based were secured

FIT FOR THE KING ARE OREGON APPLES

GREAT RUSH TO THE PACIFIC NORTHWEST OF HOME-SEEKERS.

(Special Correspondence.) Portland, Oregon, March 8th, 1909.—They are coming. People from every part of the United States and Canada are pouring into Oregon at the present time at a rate never before equalled, and there is evidence that the travel during the entire colonial period will be enormous. Many communities are busy sending out leaflets giving the low rate from twenty or twenty five points, others have the information printed at the top of their stationery and on their envelopes. Every reader of this paper should see that such a leaflet goes in each letter he sends to people at a distance. School boys and girls all over Oregon are doing their part. Remember this rate is good until the last day of April.

A most interesting acknowledgment of the apples sent by the Portland Commercial Club to King Edward comes in a letter, from Buckingham Palace, written by General D. M. Brobyn, Keeper of the Privy Purse to His Majesty King Edward, to one of Oregon's best known and most respected citizens, R. E. Brerton.

A little extract from General Brobyn's letter is interesting: "The five boxes of apples which were sent to His Majesty arrived quite safely and were thought very highly of by the King and others who tasted them. I write to convey His Majesty's thanks for the fruit."

Ontario is determined that the great Malheur project shall be realized. The people of Vale are co-operating with them—in fact all the citizenship of Malheur County is a unit, and there was never better evidence of their progressive spirit than the fact that they raised one evening last week the sum of \$2500.00 in twenty-five minutes—or at the rate of \$100.00 a minute—with which to advertise their resources. When one considers that Ontario has only 1500 population, this is one of the records.

Comparatively few people of the "Beaver State" realize that Forest Grove is nationally known as the source of America's most perfect archery bows. Pacific Yew, which grows to perfection in Oregon, is the material used, and Captain F. S. Barnes fashions it with skilled hand into bows sought by experts all over this continent and even abroad. Though almost seventy years of age, the Captain is himself a splendid archer, and such an enthusiast in his chosen craft that he makes personal trips to the mountains each year to select Yew of just the proper grade and grain—the altitude at which the tree grows is an important factor. Occasionally a bow of rare accuracy and highest speed is created and these are dignified with names. "Cyclone" and "Whirlwind" are famous among archers.

"HOUNDED" TO DEATH

NEW YORK, March, 9.—A man who, the police say, was Thomas Murphy, one of the cleverest of the old time pick-pockets committed suicide last night by shooting himself through the heart. He fired the shot while sitting on a bench in a park in Harlem. Two policemen who were attracted by the noise, arrived in time to see his body roll off onto the sidewalk. Murphy had made preparations for death, having recently gone to an undertaker and left instructions for the cremation of his body. A peculiar statement was found on his person, telling of his experiences with the police and how he was "hounded" by the police. He was 60 years old and formerly a bookmaker.

NOT ON YOUR LIFE.

SALT LAKE CITY, March, 9.—A bill prohibiting football at all state institutions passed the House of Representatives yesterday, but it has small chance of passage in the Senate.

Grand Program At Grand.

The Grand moving picture house is offering one of the finest bills of the winter season this evening; a special feature being a beautiful Bible story of "Saul and David"; a vivid and startling Indian romance, entitled "Mogg Megone"; and a screaming comic, "His Coat Came Back." The songs for the evening are, "You Can't Stop Your Heart Beating For the Girl You Love," and "Asleep in the Deep." The scenic views deal with historic Mount Vernon. The bill changes again tomorrow.

ZION IN TURMOIL

CHICAGO, March 9.—Zion City and the Christian Catholic Apostolic Church, of which Glenn Voliva is general overseer, have been thrown into a turmoil over the expulsion of John Taylor one of the presiding elders, who is accused of circulating literature, hostile to the Voliva regime. For a long time the thirty different factions into which Zion City's population has been split, had lived in comparative peace, each following its own plans and purposes, but these anonymous dodgers have opened a new avenue for trouble. An effort is being made to bring about peace.

AMUSEMENTS

Local playgoers are promised something out of the ordinary run of dramatic offerings in Daniel Sully's new play, "The Matchmaker" which will be seen at the Astoria Theatre, next Sunday evening. In this play Mr. Sully appears as the pastor of a little church in an Idaho cattle town, where his lot is cast among a rough

DANIEL SULLY IN "THE MATCHMAKER"

lot of typical Western characters; he breaks up a lynch party, straightens out tangled love affairs and takes an active part in shaping the destinies of all who come within his sphere of influence. The role of Father Daly suits him admirably and the play is undoubtedly the best and most satisfactory he has ever presented.

HOME STORIES BEST

CHICAGO, March 9.—American Folk Lore, rather than foreign stories will be used in the circulating libraries reading rooms of Chicago and at the public library in the future, as a result of a resolution adopted by the board of trustees. The books which have been used almost exclusively during the "Story hour" which the trustees have set aside each day hitherto have been of foreign character.

NASAL CATARRH.

T. F. Laurin Sells the Great Remedy That Cured Mrs. Karberg

Here is a very simple yet wholly sincere statement of a Michigan woman, who was cured by using Hyomei—the no cure no pay remedy for catarrh, asthma, hay fever, croup, coughs and colds.

"A bad case of catarrh was cured for me by the use of Hyomei. The trouble affected my head, nose and eyes, and was very annoying and disagreeable, and the cure, from the use of Hyomei, was very gratifying. Hyomei has from me a strong recommendation and endorsement."—Mrs. E. Karberg, 213 Kingsley St., Ann Arbor, Mich., Nov. 16, 1908.

Thousands of just such letters are in existence, and thousands more would be but for the desire to avoid publicity. If you have catarrh, bestir yourself and drive it out of your system. Kill outfit, including inhaler, is only \$1.00 at T. F. Laurin, Owl Drug Store.

GIGANTIC SWINDLE IS BROUGHT TO LIGHT

NEW YORK SUBWAY TICKETS TO BE COUNTERFEITED—PRINCIPALS BAGGED.

NEW YORK, March 9.—Secret service men employed by the Interborough Rapid Transit Company have unearthed a gigantic scheme to swindle the company by means of counterfeit subway and elevated railway tickets. Three men and women were placed under arrest yesterday afternoon and a small hand press, two dies and 15,000 tickets were confiscated.

It is alleged that although few bogus tickets have been sold so far, those behind the scheme had made elaborate arrangements to dispose of them by the thousands at a so-called club near 149th street and Third avenue, at the rate of 2 1-2 cents apiece. More than a week past detectives noticed that a number of counterfeit tickets were in boxes of the subway and an investigation was begun. They were traced to the 149th Street station and this led to the arrest of Henry J. Torrens, who lived with his young wife in West 44th Street. The wife was also taken into custody.

Torrens, it is said, admitted that he began the alleged swindle on Washington's Birthday.

The counterfeit tickets for the subway are a good imitation, but the elevated tickets are too light in color. They were apparently made in Brooklyn, where Michael Rubinski and Samuel Rubinski, making the total four prisoners, were arrested after Torrens and his wife had been arrested.

LAWS AS FINALLY PASSED.

OLYMPIA, March 9.—Appropriations approved by the house today aggregated \$1,600,000, of which \$1,200,000 is from the state road funds. The omnibus appropriation bill, which will be introduced tomorrow, will carry close to \$6,000,000 in addition to \$459,000 already appropriated from the general fund. The bills finally passed today were those requiring supreme judge to wear gowns; to authorize the serving of liquor with meals in first class cities, and the life insurance code. The house defeated the senate bill giving prosecuting attorneys power to issue warrants of arrest and the senate defeated the bill for re-submission of the constitutional amendment defeated at the polls last election proposing to change the taxation section of the constitution that permit assessments of corporation property for state purposes only, and permit the fixing of reduced levies on moneys and credits. The senate passed the house bill prohibiting the shooting of upland birds except prairie chickens, amend amending it so that it applies only to certain counties. President Ruth of the senate, today ruled out of order the resolutions providing for the investigation of the insurance department, and was sustained on appeal. The resolution was a copy of the one introduced yesterday, except it did not authorize the investigation of any other department. The resolution defeated yesterday will come up for reconsideration tomorrow.

Success in Life

Facts For Sick Women

We know of no other medicine which has been so successful in relieving the suffering of women, or secured so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound. Almost every woman you meet has either been benefited by it, or knows some one who has.

In the Pinkham Laboratory at Lynn, Mass., are files containing over one million one hundred thousand letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound.

Lydia E. Pinkham's Vegetable Compound has saved many women from surgical operations.

Lydia E. Pinkham's Vegetable Compound is made exclusively from roots and herbs, and is perfectly harmless.

The reason why it is so successful is because it contains ingredients which act directly upon the female organism, restoring it to healthy and normal activity.

Thousands of unsolicited and genuine testimonials such as the following prove the efficiency of this simple remedy.

Minneapolis, Minn.:—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women, I felt sure it would help me, and I must say it did help me wonderfully. Within three months I was a perfectly well woman."

"I want this letter made public to show the benefits to be derived from Lydia E. Pinkham's Vegetable Compound."—Mrs. John G. Moldan, 2115 Second St. North, Minneapolis, Minn.

Women who are suffering from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

LET US TELL YOU ABOUT Tungsten Electric Lamps

Greatest advance in lighting method since the invention of incandescent lamps.

EXAMPLE— 32 C. P. Ordinary electric lamp consumes 110 watts per hour 32 C. P. "Tungsten" electric lamp consumes 40 watts per hour

Saving 70 watts per hour By using "Tungsten" lamps you can get 275 per cent increase in light for the same cost or in other words can save the same quantity of illumination for 35 per cent of the cost of lighting with ordinary electric lamps.

The Astoria Electric Co
