or address

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your

food lies like a lump of lead on your mind that at the bottom of all this there is but one cause-fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take some Diapepsin.

SAD HOME-COMING

Petrosino's Remain Due To Arrive In New York Next Thursday.
