TERSE TALES OF THE TOWN

Mr. Montgomery's Illness
A. Montgomery is still confined to his bed with illness, and while he was resting easily yesterday he was somewhat weak.

Little Child Dies
The infant daughter of Sheriff and Mrs. M. R. Pomeroy, not many weeks old, died yesterday afternoon. The little one had never been very strong. Announcement of the funeral will be made today.

Going To Seattle
Professor A. E. Clark is preparing to go to Seattle and other points in Washington for the purpose of inspecting the schools there and to look into the question of the educational exhibit at the exposition. He will return by next Thursday.

Bond Street Work
Contractor L. Lebeck stated yesterday that if the weather holds reasonably good he expects to be through with the improvement on Bond street, Eleventh to Twelfth, by next Wednesday. The thoroughfare will look much better with the new planking.

Baseball Game
There was a game of baseball played at the A. A. park yesterday afternoon between the senior and sophomore classes and the freshmen and juniors of the High School in which the former won by a score of 14 to 10. The boys are working hard and should be able to pick a good nine for this season.

Out of Danger
A telegram last evening to friends here stated that Mr. Hildebrand was practically out of danger. This was the first cheerful information heard in regard to his condition, and it is presumed that he now will improve rapidly. Mr. Hildebrand submitted to an operation at St. Vincent's hospital in Portland for gall stones, and it was found necessary to remove the gall.

Will Improve Property
The Rogers Trust Company, owner of the property on Tenth street, between Commercial and Duane, formerly occupied by the Peterson-Frye Logging Company, as office quarters, and which fell of its own volition not long since, is about to improve the lot by building upon it a neat 2-story frame house that will be a marked advance over the old structure.

ITS quite unpleasant to go home and learn that the color or pattern of your new suit doesn't please the "women folks."

Ladies! Look Here!

Why not come in with your husband, or brother, and help him pick out his spring suit. Others do it, and why not you? Remember, Easter isn't far off and you'll want him to look as nice as possible—and one can't look "right" in a hand-me-down suit.

Has Purchased Outfit
Samuel L. Lovell, the Alaska capitalist, has purchased all the drilling machinery and appurtenances owned by the company that was exploiting the oil fields up on Deep River, from J. D. Magner, the principal owner, and it will be brought out at once by Captain Babbidge on scows and barges and shipped hence to Seattle, and from there to Kattallo, Alaska, for use in the mines operated by Mr. Lovell.

Just a Sample
Yesterday a notarial commission reached this city for a well known citizen, and it bore the dual signatures of Mr. Benson in his capacities as Governor and Secretary of State; being signed by "Frank W. Benson, Governor," and attested by "Frank W. Benson, Secretary of State." It is quite a rarity in Oregon, and the holder of it intends to keep it as a souvenir of the extraordinary condition that once existed in Oregon.

To Review the Case
A writ of review was taken yesterday in the case of the city of Warrenton vs. Fred N. Broemser who was recently found guilty in that city of having used profane and abusive language toward one of the ladies of that town. The writ of review will bring the proceedings up to the circuit court, when the legality of the proceedings held before Judge Estabrook will be passed upon. Attorney Brownell is acting for Broemser and Attorney Eakin for the city of Warrenton.

Interesting Lecturer
Captain Henry Angel, of the Norwegian army, is in the city on his annual vacation, the guest of friends and countrymen here. He is a clever and interesting man of the world, and a lecturer of note; and his countrymen had a distinct pleasure on Thursday night, when he delivered one of his famous talks to them, in Uppertown. All who heard him were immensely pleased. He is touring the country and enjoying things generally, as he finds them.

In Probate Court
In the matter of the estate of A. D. Rockefeller, it appearing that the estate has been fully administered, all accounts paid, and nothing more to be done, the county court yesterday ordered that the accounts be accepted as final, the estate declared settled and the administrator discharged. In the matter of the guardianship of the estate and person of Mary Cusworth, the question

DO YOU KNOW WHY

So many people trade with us? Because our shop is clean; our meats are clean, and of the very best quality. Customers say our prices are right, and when they come once they come again and bring their friends.

of removing the present guardian was considered. A citation was issued requiring him to appear in court within 10 days to show cause why he should not be held in contempt of court for failing to respond to a previous citation; and also to show cause why he should not be removed as guardian. A. Dalgitty is the guardian.

Business Picking Up
When the O. R. & N. steamer Nahcotta, Captain Parker, docked at the O. R. & N. yesterday afternoon, she had on board 600 sacks of oysters for San Francisco delivery, which will go out on the Rose City. Captain Parker says that after the great earthquake and fire in San Francisco, the trade in oysters from here dropped off notably, some weeks but two or 300 sacks going out; but now the business has resumed almost normal conditions and is steadily increasing each week.

Mill Is Prospering
While the lumber business is quiet and mills generally over the country are not running full blast, it is said that the Clatsop mills were never in more prosperous condition than now. In fact, it is said, they are doing exceedingly well. A few years ago the Clatsop mills went into the sash and door business, and while at first this did not succeed well, it has lately picked up to a wonderful degree and the mill has more orders than it can handle. If the accounts told of this mill's business are all true it really is doing a very fine business, and Astoria will be glad to know that one of its big industries is getting along so prosperously.

Store of His Own
O. G. Campbell, who for the past several years has been the prescriptive clerk in the Rogers pharmacy, will open a drug store of his own in Seattle and today Mr. and Mrs. Campbell will leave for the northern city. Their many friends here will regret to see them leave, though naturally glad that Mr. Campbell is to start out in business for himself. His Seattle store will be at 4559 California avenue, and they invite their Astoria friends to "remember the number" and call to see them while up there.

Fire Drill
There was fire drill at the High School yesterday, and the 400 pupils marched out at the sound of the gong in quick order. They made excellent time. All of the schools regularly hold these fire drills and doubtless the training would prove of the highest value in the event that a fire ever actually broke out, for the drills train the children to go out in perfect order instead of making a mad rush—and it is the panicky rushes that usually cause the worst trouble. When the gongs ring in the schools they naturally cause excitement, for it is never known by the teachers and pupils whether there is really a fire or not, but the pupils immediately drop their books and without an instant's hesitation form into lines and march out.

The Company Play
"The Captain and the Spy" given by the First Company at the Astoria Theatre, drew another good house last night, and in the audience were upwards of 150 of the regulars from Fort Stevens, who had come up especially for the purpose of attending the drama. The local company boys were greatly pleased at the compliment paid them by the visiting soldiers. The attendance last night was fully equal to that of the first night, and the play went off more smoothly the second night. The orchestral music was furnished by the Columbia orchestra and they gave fine satisfaction and the Company boys feel grateful to them for their fine services. The players have been congratulated by many for the excellent presentation of their play, and besides the fun and excitement they have had out of it, they will come out ahead with perhaps upwards of \$100 which will be used in purchasing necessities for the armory.

REALTY TRANSFERS

THE ASTORIA IDEA OF THE BOARD'S BLUNDER

AN INTELLIGENT FISHERMAN TELLS WHAT HE AND HIS BRETHREN WILL DO.

In conversation with a very intelligent fisherman of this city, yesterday a reporter for the Astorian was given to understand in terms that were not at all equivocal, that "the fishermen at this end of the Columbia River are unanimously against the recent action of the State Board of Fish Commissioners in receding from its order closing the Willamette and Clackamas rivers, for a number of reasons, chief of which are; that it is a piece of very bad faith to the Washington fishermen, whose representatives joined heartily in the inter-state agreement for joint legislative action looking to a rational and mutual closed season on the Columbia and its tributaries; a specific and deliberate discrimination against the fishermen on both sides the greater river; a sign of official weakness in being drawn into such a lapse from its plain duty under the law; an official blow to the industry generally, in that a special privilege is granted a certain section and certain people, when the actual desire of the majority in both states was for a full closed season for all concerned; that the real object of the closed season is vitiated entirely by permitting the salmon to pass all points on the lower river, only to be caught, killed and marketed on the upper reaches and streams; and lastly, that it lays the new joint-law open to radical misconstruction, evasion, and deliberate avoidance by the fishermen down this way, who will probably not hesitate to fish freely and openly during the period that has been conceded to the fishermen on the upper rivers. We believe we may go ahead and fish here for that time; and that no jury can be found in this county that will convict us of a violation of the law, which has been practically annulled by the very authority that was created to enforce and conserve it.

Saloon Ordinance
Councilman Curtis has prepared another ordinance in relation to the saloons which he intends to introduce in the council in lieu of the one vetoed by Mayor Smith. The new ordinance also seems to be subject to criticism, though the haste with which Mr. Curtis drafted it may explain why it is not a perfected measure. Judging from the remarks made by several councilmen there is now a manifest reluctance to rush into any matter of this kind, and probably if any such ordinance is passed it will only be after it has been studied carefully by a committee and all of the legal aspects of the matter gone into very thoroughly. If it be true, as surmised by some, that the statute in relation to Sunday closing is a dead letter, then it would be possible for the council to adopt an ordinance which would provide for Sunday closing on only part of the day, and it is known that such a comparative closing would please many. It is suggested that a closing from 2 o'clock Sunday morning to say 4 o'clock Sunday afternoon might be acceptable to many. At all events it is probable the council is not going to sit meekly by and have some ordinance, which may be very good, or may be very bad, rushed through.

A Cleaner That Cleans.
W. H. Fellman, the well known furniture man, is at the head of the carpet cleaning industry in Astoria, because he possesses the best and only Vacuum carpet cleaner in the city. He will send it to any house, on demand, at moderate rates, and clean your carpets on the floor, without an atom of dust appearing anywhere in the process, and to the saving of household drudgery in this line, for the women of the homes. It is the cleaner that cleans, and operates quickly, silently, and admirably. Drop in and leave your order.

The Man Who Eats.
The man who eats does so with the expectation of being satisfied. To this end he seeks the best possible place to gratify his normal appetite at most rational expense. These things account for the steady stream of people to and from the portals of the Palace Restaurant in this city. The reputation of the Palace is founded immovably upon the certainty and amplitude of the service it renders to every purse, and appetite, big and little. Open day and night. Commercial streets, opposite the Page building.

PERSONAL MENTION

Attorney John A. Lee of the Columbia Trust Company of Portland, is in the city on business.
Mr. and Mrs. Fred W. Prael of Portland, with their children, are in the city and guests at the home of Mr. and Mrs. Dick Prael.
Giles B. Johnson, the city agent of the Astoria & Columbia River Railroad Company, is due home from his month's outing in the wilds of Michigan tomorrow.
G. B. Madison of the Empire Lines was a business visitor in this city yesterday.
L. D. Templeman of Portland was in the city on business yesterday and was quartered at the Occident.
G. T. Engerby of Portland spent the day here yesterday, on matters of business.

AMUSEMENTS

Elks Show Gets Compliment.
The Elks' big show, "A Night in Bohemia," the musical comedy which T. P. Getz and R. K. Love of the Empire Amusement Bureau, New York, are staging for the local theatrical line. "Rosy Rambler," "No Cake Comes Too High For Me," "Sis Hopkins Lament," "We'll Wander in the Bright Moonlight," "Honest Little Girl I'm Strong For You," "When the Right Little Girl Comes Along," "Violet Was a Maiden Fair," "The Teddy Girl's March," "Hinkee Dee," "The Old Bohemian Dream," "The Girls From Gay Paree," "What's the Use," "Toot Toot, Good Bye," "Want You Come Back," "Take a Car," and "My Dream of the U. S. A." are equal to any seen in the big New York productions. The Pony Ballet who appear in "Hinkee Dee" and the "Rough Rider March" will be a big surprise as they are trained to the minute and enter into the spirit of the drills with bright eyes and laughing faces. Yesterday General Givaboosteki, a Russian soldier, who went through the Russian-Japanese war and who is here for a few days on business for the Russian government visited the rehearsal yesterday and was simply carried away with what he saw. "It's wonderful," he said, "how these young ladies learn so quickly. These young misses—nearly all still in their teens, march so accurately and perform in two

weeks' training what it has taken old soldiers years to accomplish. It is simply marvelous."

BODY AND MIND

SAN FRANCISCO, March 26—In a lecture on "What is the Matter with Medicine and the Church," Dr. William Fitch Henry of the Cooper Medical College before the student body of Stanford University, said: "The soul and the body are so intimately combined that one suffers simultaneously with the other." He discussed Christian Science and the "Emmanuel movement" at length and concluded with the statement that doctors must in the future make use of the spiritual as well as material remedies.

TRAVELS OF A PIN

Took Long Journey Through A Woman's Body.
CINCINNATI, March 26—After traveling for four months through the body of Mrs. Oakla Bay Jennings piercing the walls of the stomach and penetrating the lungs, a glass headed steel pin accidentally swallowed by Mrs. Jennings, again made its appearance in her mouth and has been extracted. Mrs. Jennings was walking along the street one day about four months ago when she swallowed the pin. Within a few days her lungs became affected and she was attacked with severe coughing spells. Her condition grew worse and within the past several weeks she almost lost her voice. Wednesday night she was seized with a severe choking attack, threw up her hands and called to her husband for assistance. The woman put her hand to her mouth and extracted the pin from the soft palate, from which one end of it projected. The pin had made a complete circle in the woman's body. It had become very rusty and a hard substance had accumulated on it, making it almost twice as large as it originally had been.
Mrs. Jennings experienced instant relief upon its extraction and is hopefully looking forward to complete recovery.

Auction Sale.
The Ladies Aid Society of the First Lutheran church will have an auction sale of fancy articles in the church this evening, March 27. Coffee and cake will be served.

Dance—Logan's Hall—Saturday, March 27. Music by Pacific orchestra.
