

## COST MORE FOR BREAKFAST FOOD

### Payne Tariff Bill as Amended in Senate Increases Duty on Food Products

## TO BE USED IN CONFERENCE

### Changes Made by Senate Committee For Purpose of Compromise When Conference Committee is Appointed to Complete Bill For Final Passage.

WASHINGTON, D. C., April 13.—In the house statement that the Aldrich amendments to the Payne tariff bill tended to increase duties on luxuries and reduce what on necessities is taken with a grain of salt. Republican members of the ways and means committee pointed out today what they regarded as inconsistencies in the line of reason. For instance, it was pointed out by one that the necessities reduced by the senate committee were spices and cocoa, which ways and means committee made dutiable for revenue purposes. On the other hand corn, wheat, barley, rye and other agricultural products, many of which are used on the breakfast table have been greatly increased, while increased duties on cheap gloves and hosiery have been taken up by senate finance committee.

The general opinion in the house is, that the amendment to restore Dingley rates is intended partly at least for use in conference. In other words it is regarded as being for trading purposes. Several other changes made by the senate committee are interpreted in the house to be for the purpose of obtaining a compromise on the bill when it is in conference. The message from the house asking that the Payne bill be sent back for correction to petroleum schedule will be received Thursday. The senate however, will not likely permit it to go back.

## FIVE HUNDRED THOUSAND

### One Hundred Families Burned Out and Rendered Homeless While the Militia Guard Personal and Household Effects to Keep Away Thieves.

ROCHESTER, N. Y., April 13.—Swept along by a 25-mile gale, a fire today destroyed several sections of this city and did damage estimated at \$500,000. For a time it was feared that a great portion of the city would be burned out and aid was summoned from Buffalo and Syracuse. Several engines were sent from those cities, and arrived in time to assist materially in checking the flames.

One hundred families are homeless tonight and the militia was called out by the mayor to guard what little the homeless saved of their personal and household effects, as it was feared irresponsible persons would attempt to steal the property. A heavy rain set in and while it helped to extinguish the blaze, it worked a hardship on the homeless. The fire started in the Palmer building, a four-story brick structure used for manufacturing interests, and from this, a second fire was started by sparks from the original fire which carried them more than a mile and lodged in the Dutch Reformed church.

## BIG WRESTLING MATCH

### Gotch And Mahmut Will Meet In Chicago.

Gotch has not only refused to accept the \$2000 for his end of the privilege, but says that he will not permit pictures to be taken at all. He claims that the intense heat under the mercury lights necessary causes a terrific strain on the men who have to grapple beneath them.

Wrestlers and followers of the game are arriving from other cities. Dr. Roller of the Pacific Coast, who has already met Gotch, will be at the ringside to challenge the winner. Ernest Siegfried, the "German oak" will be presented by Martin Julian. He also wants to take on the victor. "Americus" as Gus Schoffey is known, is also here. "Doc" Hollum of Memphis is one of the promoters who will be on the scene. Horace Leech, former manager of Gotch, got in and said that a big delegation was coming from Buffalo, Minneapolis, Milwaukee and St. Paul. Claude Johnson is bringing a party of nearly 300 from Kansas City.

Yesterday's seat sale exceeded the \$10,000 mark. Referee Smith has explained several points in the rules to the principals, dwelling particularly on the necessity of avoiding rough work. Rough work in wrestling will be barred by the police hereafter, just as if the games was prizefighting. This decision has followed the recent bout between Leo Pardello and Galoni, who showed a desire to "mix things"

the prominent members of the Rock River conference, is dead here of old age.

Four displeased women are disseminating word throughout the city today that Congress in general is not conversant with the book of Washington etiquette pertaining to the rules of "How to treat a woman when she comes to present a petition."

"They ducked when they saw us coming—that describes their official movement. They ducked."

So Mrs. E. M. Henderson describes the department of the members when the women wandered through the capitol in search of whom they might address.

"Chairman Payne of the ways and means committee gave orders: 'When those women come here from Chicago tell them I am out.'

"That is the way we were to be received by him. But it happened when we were going past the door of the committee room Congressman Payne himself came running out on his way to the elevator. He saw us coming with Congressman Foss and he tried to take to the tall timber but he was too late. Mr. Foss called to him that there were some women whom he would be delighted to meet, and he had to stand fire then.

"Speaker Cannon, when he saw us said something about the price of hats we had on being about \$60 and so why not stockings six cents a pair higher than the 2 cents we pay now. How can you argue against things like that?"
