**MINISTER SINKS VERY LOW, BUT RISES**

**PRESBYTERIAN PASTOR BECAME A DRUNKARD, BUT HAS BEEN ORDAINED.**

NEW YORK, April 17.—After having been dismissed from the Presbyterian ministry ten years ago for drunkenness the Rev. Dr. Harvey Graeme Furbay will be reordained at a meeting of the New York Presbytery next Monday.

Dr. Furbay, who is a graduate of Princeton theological seminary and besides holding the degree of doctor of philosophy, ten years ago was the pastor of the Oxford Presbyterian Church at Philadelphia at a salary of \$8,000 a year. Then his wife died and he sought dissipation to bring forgetfulness. He sank rapidly and on coming to New York was arrested several times for drunkenness and served time in various prisons for being a vagrant. This, of course, resulted in his dismissal from the ministry, but later he became interested in mission work and preached in the streets, aiding the derelicts in the city. Such a change came over him that he was appointed secretary of the Industrial Christian Alliance in Bleeker street, where his conscientious work attracted such favorable attention that it was decided that he would be valuable man again in the pulpit. When seen last night Dr. Furbay declined to discuss his case, but appeared extremely happy and said simply: "I earnestly hope to be able to re-enter the Presbyterian ministry."

**LABOR'S APPEAL.**

WASHINGTON, D. C., April 17.—In the District Court of Appeals next Monday arguments will be heard upon the appeal taken from the decision of Judge Wright, adjudging Samuel Gompers, Frank Morrison and John Mitchell in contempt for their alleged violation of the injunction granted against them upon the petition of the Bucks Stove and Range Company of St. Louis.

This is the case in which Messrs. Gompers, Morrison and Mitchell, as president, secretary and vice president, respectively, of the American Federation of Labor, were sentenced to jail by Judge Wright for contempt of court.

The case originated in November, 1907, when J. W. Van Cleave, president of the Bucks Stove and Range Company and also president of the National Manufacturers' Association, and who is known as one of the most active foes of organized labor, brought an action for \$240,000 damages against the American Federation of Labor and its executive council and at the same time applied for an injunction pending the determination of the original action, to prohibit the federation from in any way advising organized labor and its friends that the company is unfair to its employees.

On Dec. 23, 1907, the court made permanent an injunction forbidding the federation and its officers from continuing their campaign against the Bucks Stove and Range Company or publishing the name in the "unfair list."

Mr. Gompers and his associated labor leaders determined to make a firm stand against the writ of injunction. The official organ of the American Federation of Labor technically

During the work of changing the fog-signal at Tillamook Rock Light station from a steam siren to a first-class automatic air siren the regular fog-signal will be temporarily out of commission between April 20 and May 20, during which time, should fog or thick weather occur, a 6-inch steam whistle will be blown with the same characteristic as the present, viz: 5 seconds blast, 90 seconds silent interval, repeated. It is anticipated that the new air siren will be in operation not later than May 20th. The characteristic of this signal will be: 5 seconds blast, 40 seconds silent interval, repeated.

The steamer Sue H. Elmore arrived down from Portland last evening and will probably leave out for Tillamook this morning.

Swiftsure Lightship No. 93 will be taken to her station this morning.

The oil tank steamer Ascension left out yesterday for California.

The steamer schooner Yellowstone will probably go to sea this morning.

The Alliance arrived down from Portland last evening and will leave out for south coast points.

The lighthouse tender Columbine left out yesterday for south coast port carrying supplies for the various government stations. She will stop at Tillamook and will then proceed to Coos Bay to deliver the new lens for the new lighthouse at Cape Arago. She expects to be gone about two weeks.

**TWO MINERS KILLED.**

Third Man, Presumably Insane, Is Credited With The Deed.

SEARCHLIGHT? Nev., April 17.—Arthur S. Dow and Frank Orr, two mining men, were murdered yesterday at Newbury Mountain, 17 miles south of here. Another miner is credited with having committed the crime, it being reported that the acknowledged it to James McDonald, who brought the first news of the tragedy into camp. It is believed the deed was committed while the slayer was temporarily insane, as no trouble has been known to have existed between the men. A posse left Searchlight last night in pursuit of the supposed madman.

The launch Hazel and Helen, built by Driscoll Bros. for the Miller Sands Co. was successfully launched yesterday morning. The launching was a complete success and was witnessed by a large number of people.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Orino Laxative, and I think it is the best remedy for constipation and liver trouble." Foley's Orino Laxative is best for women and children, as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion. Owl Drug Store, T. L. Laurin.

The British ship Aberfoil with a cargo of lumber for Peru went down to the lower harbor yesterday and will probably be towed to sea this morning.

Morning Astorian, 60 cents per month, delivered by carrier.

The Norwegian ship Jethon left out yesterday in ballast for Comax, B. C., where she will take on a cargo of coal for Mexico. Upon her return she will come to Astoria for a cargo.

The steamer Senator arrived down from Portland yesterday afternoon and left out for San Francisco. This is the first trip of the day runs.

The Eureka left out yesterday with a full cargo for Eureka, Cal.

obeyed the order regarding the publication of the unfair list, but each month Mr. Gompers had vigorous editorials on the subject and also delivered a number of public speeches outlying his position in the matter. As a result of these proceedings the three principal officers of the Federation were cited before Judge Wright, who found them guilty of contempt of court in their alleged violation of the injunction and sentenced them to jail for one year. It is the appeal from this decision that will be argued by Alton B. Parker of New York before the District court of Appeals Monday.

**A METHOD OF TESTING MARKSMANSHIP**

**WAR DEPARTMENT HAS DECIDED TO PUT INTO USE A UNIQUE DEVICE.**

NEW YORK, April 17.—Proficiency in marksmanship on the part of the enlisted men of the army is sought by the military authorities and to this end after a thorough test made by the Board of Ordnance and fortification of the War Department has been decided to use the subtarget gun machine and recording rifle rod outfits in the training of soldiers in the use of small arms.

Gordon Franklin Bell, chief of staff, has issued a circular to the service stating that the ordinance department will issue on requisition one subtarget gun machine to each squadron of Cavalry and Battalion of Infantry and not to exceed ten recording rifle rod outfits for small arms sighting and aiming instructions to each troop of cavalry and to each company of infantry, coast artillery, engineers and signal corps. About fifty thousand dollars has been spent by the department for this apparatus. With the subtarget rifle machine soldiers may practice shooting in doors without a rifle range and without the use of shells. The machine may be described as a rifle with a captive bullet, the course of which from rifle to target is visible. The objective target is located sixty feet from the marksman. The gun holder is so constructed that it is impossible to secure a point of rest with which to steady the gun in aiming. The rifle is held, aimed and discharged in the ordinary way. No ammunition is used and all danger from accident is eliminated.

**GAMBLERS MAKE MILLIONS.**

Patten Pool Has Cleared Up Millions On Wheat Deal.

CHICAGO, April 17.—"The Patten pool has cleaned up between \$4,000,000 and \$5,000,000 on the May wheat deal," says the Tribune in a news article today.

"Jim" Patten has pocketed fully two thirds.

"The market experts estimate that the broker and his coterie have sold to the public twenty million bushels of May wheat at an average profit of twenty cents, giving them a profit of \$4,000,000 and besides this he has made a substantial profit in July wheat, to say nothing of the September and December opinions which he has scalped in the market for a profit of from two to five cents, making his total winnings not much under \$5,000,000."

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. Owl Drug Store, T. F. Laurin.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting "own make" or other substitutes. The genuine contains no harmful drugs and is in a yellow package. Owl Drug Store, T. F. Laurin.

**TO PROTECT INVENTORS.**

Bill Introduced Exempting From Seizure Any Letters Patent.

WASHINGTON, April 17.—An amendment to the patent laws is proposed by Senator McEmery who has introduced a bill exempting from seizure for debt of any kind of letters patent or any interest in them issued by the United States the ownership of which is vested in the original inventor, or conceiver, of the thing patented.

Exception is made, however, to debts voluntarily contracted by the original inventor by mortgage hypothecation, or pledge of such letters patent. It is also provided that the exemption shall not apply to the proceeds arising from the sale of the letters patent nor to any product of them "in whole or part, that may be disseminated from such letters patent."

**Lived 152 Years.**

Wm. Parr—England's oldest man—married the third time at 120, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Pa., Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes, "after taking six bottles of Electric Bitters. For 30 years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a Godsend to weak, sickly run-down or old people. Try them. 50c at Charles Rogers & Son's drug store.

Morning Astorian, 60 cents per 60 cents per month by carrier.
