

POUNDS ON SPIT OFF JETTY

Standard Oil Barge No. 91 in Grave Predicament Off Mouth of River

ON TOWLINE OF MAVERICK

Worked Into Port and Safety by Captain Daniels and Low Lies Submerged Off Smith's Point—Damages Not Known.

Between 7 and 7:30 o'clock last evening, and practically at high tide on the bar, as the Standard Oil steamship *Maverick*, from the California coast, with the company's barge No. 91, on her steel hawser, was entering the Columbia river, the big barge, which was drawing 20 feet of water, struck heavily on the south spit off outer end of the jetty, and, according to Captain Daniels of the *Maverick*, continued to strike, but kept moving steadily all the time. The seas washed over her pretty stiffly and quickly filled her fore-peak, and this settling her by the head, caused her to pound the more, until it looked to him, as though he would never get her inside at all, but he kept the *Maverick* at full speed and finally got her over and out of the southerly set on the bar which, Captain Daniels said, was heavier than he ever saw it. The tow was brought up the bay to a point not far from the spot where the *Minnie E. Kelton* was grounded, and there the *Maverick* left her, as soon as one of the bay tugs, the *Callender* steamer *Melville*, Captain Jordan, had reached her in obedience to his wireless message to the city for assistance, the *Maverick* coming to her dock at the foot of Seventh street, where she tied up for the purpose of pumping oil into the company's tanks here. She will go on to the metropolis this morning, under pilotage of Captain Harry Emkins.

The master of the *Maverick* is of the opinion that the barge is badly injured and that when he cast off from her she was opened up forward, and that some of her bulkheads had sprung emptying their contents into the fore-peak, which with the water that poured into her from the sea-wash, puts the vessel in bad predicament, the extent of which will be developed under the survey that will, in all probability, at once be made in the premises.

Captain Daniels did not undertake to account for the accident, but it is evident that the barge must have swung out of her course and into shallower depths than those followed by the *Maverick*. The reports from the bar all of yesterday showed that it was smooth, the winds light and conditions generally favorable for the entry of such craft as those involved in this accident, and the fact that the *Maverick* herself was immune from the trouble, indicates that the

tow must have touched upon one of the spits off the end of the jetty and was driven there by the set of the tides to the south and of which Captain Daniels complained so forcibly.

The *Melville* will stand by the derelict until this morning, when it is thought steps will be taken to promptly pump her out and ascertain the scope of her injuries. She was submerged for most of her length when she came to an anchor last night, there being a foot or more of water on her decks, and well down by the head with the accumulation of oil from her strained bulkheads.

THE BLIND TO SEE.

Remarkable Case in California of Temporary Affection.

REDDING, Cal., May 13.—Miss Clara Cooper of Montaur, Iowa, was suddenly stricken blind on the eve of her departure for Iowa after a visit to friends here. When called Sunday morning it was found impossible to awaken her. An hour later she awoke naturally but could not see. At first it seemed to her that it was still night, but soon it dawned upon the young woman that she was totally blind. She can now distinguish light from darkness and physicians hold some hope that she may recover her eyesight. Up to the time that she awakened to find that she was blind Miss Cooper has never had any trouble with her eyes.

NATIONAL GRAIN GROWERS IN SESSION

DECIDED TO ESTABLISH A CHAIN OF WAREHOUSES IN GRAIN TERRITORY.

SPRINGFIELD, Ill., May 13.—At the second day's session of the National Grain Growers' & Cattle Raisers' Association here today, a plan to construct a chain of warehouses in the grain producing territories for the purpose of holding wheat for higher prices was indorsed. An invitation of the American society of equity farmers, promised co-operation with that organization. This is in line with the organization recently organized at Spokane.

HEAD OFF RIVAL.

Young Fellow Shoots To Stop Rival Reaching Sweetheart First.

STAMBAUGH, Mich., May 13.—Because he was afraid that Marrozzio Paryurate would reach Italy first and claim his sweetheart, Rosa Leonardi at Perugia, Joe Dascola is said to have shot and fatally wounded his rival. The wounded man is at the Mercy Hospital while an armed posse is searching the country for his assailant.

Friends of the dying man have sent a cablegram to his sweetheart and it is thought that she will make a race with death across the ocean in order to see her lover before he dies. There is little chance that she will win. Dascola is hiding in a swamp near here, while the Sheriff's forces with bloodhounds are seeking him.

PHILIPPINE TARIFF BILL IN HOUSE

Serious Opposition Made to the Bill by Several Representatives—Action Deferred Until Monday

WASHINGTON, May 13.—The house today was again in the throes of a tariff discussion the entire day being spent in consideration of the Philippine tariff bill. The bill encountered no serious opposition, although Harrison of New York, and Underwood of Alabama criticised it generally. After reading the bill had been concluded, further action was deferred until Monday. Clarke of Mis-

souri objected to an immediate discussion of the bill amending the organic act of Porto Rico in accordance with the president's suggestion in his recent message and the bill went over. Speaker Cannon's policy of not appointing a committee was upheld today by a substantial majority after Garrett of Tennessee had sought to have him directed to name the committee on insular affairs.

NEW YORK RACES YESTERDAY

Attendance Only About One-Half of Last Year But Enthusiasm Great as Ever

KING JAMES WINS THE RACE

Owing to Agnew Law no Bookmaking Permitted But Side Bets Were Made and no Record Kept Which Would be in Violation of the Law.

NEW YORK, May 13.—The long deferred and anxiously waited opening of the Metropolitan racing season which was coupled this year with the running of the classic Metropolitan handicap passed into turf history today with the winning of the Blue Ribbon event by S. C. Hildreth's four-year-old King James. From a field of 11 starters, Fayette, her maiden entry finished six lengths behind with Juggler entered by C. C. Smithson a close third.

The attendance was considerably slimmer than on previous Metropolitan handicap days. The entire number aggregated less than 10,000 but in view of the ban placed on track betting by the Agnew law, the falling off not so much as to cause surprise. The net results of the day was not materially altered, betting of a sort being tolerated. This new form however, is a travesty of former practice. Oral betting was permitted, layers of odds taking up their station on the coneshure in front of the grandstand and in whispers and by nods accepted wagers and gave odds. No money changed hands, the bookmakers trusting to the better to search him out and the better trusted to the bookmaker in the same fashion, which ever won.

POACHING JAPS.

Warned Out of Seal Fishing Limits Up North.

SEATTLE, May 13.—A cablegram from Cordova says that while en route from Juneau to Cordova on the steamer *Portland J. R. Willis*, Collector of Customs for Alaska warned a Japanese sealing schooner to leave the restricted fishing limits. The sealer was sighted in Yakutat Bay. Collector Willis boarded the vessel and found it to be the *Maza Maru* with a crew of 36 men. The captain claimed that he had put in for water but sealing implements were found on board and he was given six hours to put to sea under penalty of seizure. Collector Willis thinks that the sealer was waiting for the big herd of seals now going up the Alaska Coast. This is the second Japanese schooner found within the restricted fishing limits this Spring.

STUDENT LOST.

NEW YORK, May 13.—The police have been asked to look for Thomas P. Williams 18 years old, a Harvard student, who is reported to have strangely disappeared from the home of his uncle in Bethle, Conn. His sister in this city, with whom he made his home, said that he had suffered a breakdown from overstudy and that she feared he had wandered away without knowing where he was going.

WARE, THE BLUE!

CHICAGO, May 13.—Abraham Merinbaum, the pardon clerk in Mayor Busse's office, is sounding a warning against the use of blue blotters. Danger of blood poisoning exists from the chemicals used in preparing them he declared, and in support of his contention shows an infected finger which prevents his writing. Dr. Mowry, who attended him, declares cases of blood poisoning from colored blotters are frequent.

YESTERDAY'S BASEBALL.

Coast League.
Portland 6, Vernon 1.
Sacramento 1, Los Angeles 3.
San Francisco 0, Oakland 3.

Northwest League.
Spokane 2, Seattle 4.
Aberdeen 3, Vancouver 0.
Portland 1, Tacoma 5.

American League.
St. Louis-Philadelphia—Rain.
Detroit 4, New York 6.
Cleveland 1, Boston 8.

National League.
Philadelphia 4, Pittsburgh 6.
New York 4, Chicago 1.
Brooklyn 2, St. Louis 1.
Boston 3, Cincinnati 2 (12 innings.)

NAME IS RESTORED.

WASHINGTON, May 13.—By the end of the present week the name of Jefferson Davis will have been chiseled into the stone in famous Cabin John's Bridge 6 miles west of this city ex-President Roosevelt having given instruction to this effect previous to his retirement. As the bridge was built when Mr. Davis was Secretary of War his name was contained in the stone tablet in the structure, which is the aqueduct over which the district's water supply passes. During President Lincoln's administration and after Mr. Davis had become President of the Confederacy, the latter's name was chiseled out by some staunch adherent of the Union.

CHAMBER OF DEPUTIES AGAINST STRIKE

CLEMENCEAU'S POSITION IN POSTAL STRIKE ENDORSED BY LARGE A MAJORITY

PARIS, May 13.—The turbulent scenes in the session of the Chamber of Deputies today resulted in a victory for Premier Clemenceau when the government policy with regard to the postal strike was emphatically indorsed by a vote of 454 to 59 including also the government's insistence that postal employees and other functionaries have no right to strike. Immediately after the chamber passed a vote of confidence in the government by 365 to 75. The strikers received the rebuke with a shrug of the shoulders declaring it only served to bind closer their forces which would soon startle the country by big increases and rapid extensions. On the other hand it is intimated that the government has no other plans in view to offset any serious growth of the strike. Up to midnight there was no change in the situation. If anything it was in the direction of weakening the strike sentiment. The general impression is that if the movement does not make vast strides tomorrow, it is almost certain of complete failure.

WE MAY BE TONSILESS NATION YET

ADVOCATES CUTTING OUT TONSILS AND THROATS AGAINST TUBERCULOSIS

CHICAGO, May 13.—The wholesale cutting out tonsils and throats of everyone subject to tuberculosis, is advocated by physicians attending the 54th annual convention of the Illinois Homeopathic Medical Association. Tonsils clearly had no friends among the assembled physicians. One described them as things good for breeding microbes. Another declared that no use for them has ever been found and that the argement was general that their removal checked incipient tuberculosis.

"Twelve per cent of the children examined recently" said Dr. Richard H. Street, "were found infected with incipient tuberculosis. When the

ORDER RESCINDED IN RATE CASE

Reduction in Rates by Hill and Harriman Lines Will Injure Pacific Coast Cities

POSTPONED TEMPORARILY

At Present Rates Are in Favor of Eastern Jobbers and Prejudicial to Pacific Jobbers and Action of Rate Case Has Been Suspended.

SAN FRANCISCO, May 13.—Believing that a reduction in the freight rates to inland distributing points ordered recently by Hill and Harriman lines in accordance with the decision of the interstate commerce commission in so-called Spokane rate case will seriously injure the Pacific Coast cities to which no corresponding reduction has been made, William R. Wheeler, traffic manager of the Merchants' Exchange, wired the commissioners today asking for a stay in their approval of proposed rates until the coast cities have had an opportunity to show the injustice of new tariff. When the commission decided the Spokane rate case it ordered all railroads in revising their tariffs to take into consideration rates from Pacific coast to interior points so that business of coast cities would not be effected adversely, in short to keep an even balance between merchants competing for the same trade. Under the ruling Wheeler and others contend that advantage is now with eastern jobbing houses in intermountain district, and cities of the Pacific Coast especially San Francisco, will be at a special disadvantage.

WASHINGTON, May 13.—Supplemental order was issued today by the interstate commerce commission in the so-called Spokane rate case, by which the commission's order is postponed temporarily as to Chicago and Northwestern, Union Pacific, Oregon Short Line and the Oregon Railroad & Navigation Company. It is not unlikely that the order may be abrogated entirely so far as the lines mentioned are concerned as the plea made in their behalf that the distance between them from Chicago to Spokane is about 400 miles farther than via the Northern Pacific and Great Northern. Therefore it would be a great hardship upon them to compel them to haul freight from Chicago to Spokane at the same rates as given by the northern roads.

KILLED OVER CRAPS.

Young Negro Plays The Coon Game For All There Is.

BROOKLYN, Ill., May 13.—Neal Harris a negro, is held in Madison County Jail here in connection with the killing of Charles Cheatham, over a game of craps and it has not been decided whether Madison county or St. Clair County will prosecute. The men were throwing the dice Wednesday with the county line between them so that the approach of officers from either direction would enable them to transfer their operations to the unrepresented county. The Madison County coroner viewed Cheatham's body which had fallen into St. Clair County and refused responsibility. The St. Clair County coroner said the colored man was in Madison County and the case should be handled by Madison County.

EMMANUEL MOVEMENT IS ABLY DISCUSSED

SEVERAL NOTED MEN DISCUSS QUESTION OF IMPORTANCE TO CERTAIN CHURCHES

BOSTON, May 13.—Quackery menacing the church was seen in the Emmanuel mentally and spiritual healing movement by Health Officer Darlington in an address before the Episcopal congress. Dr. Darlington's attack on the new psychotherapy was made during the discussion of the idea in which it was strongly defended by Rev. Lyman F. Powell of North Hampton. Darlington said the church had at times suffered many times from quackery and if psychotherapy becomes a function of church the opportunities of such people are multiplied. Rev. Powell said that the Emmanuel movement is the first intelligent and systematic movement to save psychotherapy to scientific medicine by placing on the physicians for determination of the time and instances in which it is to be employed.

WINNING WOMAN'S LOVE THEN IN JAIL

REAL ESTATE BROKER SENTENCED TO FIVE YEARS IN THE PENITENTIARY.

KANSAS CITY, May 13.—Charles E. Nord, a real estate broker, accused of winning the love of a number of women in various cities of the United States and inducing them to part with their money, was sentenced today to five years in the penitentiary. He was charged with obtaining money under false pretenses from Miss Carrie Hamilton, a Kansas City milliner. He had also obtained sums of money from other women who did not care to prosecute him on account of the notoriety.

SHIVELY WILL NOT RESIGN OFFICE

Does Not Care For Special Session of Legislature But Will Stand Pat on His Record

SEATTLE, May 13.—On his way to Spokane to answer to indictments returned against him by the grand jury there, insurance Commissioner Shively stopped at Seattle today. "I will not resign my office," he said. "I have given full consideration to the importance of a special session of the legislature, if one is called, and also to the significance to me if its purpose is impeachment. I realize fully what it will cost the people of this

SENATE CHANGES ORE DUTY

Iron Ore Placed on the Free List in the House has Duty Put on in Senate

BAILEY'S CHARACTERISTIC

Votes For Tariff on Ore as the Best Way to Deal With That Organization as They Will Eventually Land in the Penitentiary.

WASHINGTON, May 13.—After a day devoted to a discussion of the duty on iron ore, the senate adopted, by a vote of 61 to 64 the recommendations of the committee on finance for a duty of 25 cents per ton. The house had placed that article on the free list. The Dingley rate was 40 cents per ton.

Party lines were entirely eliminated in the vote today as 17 democrats voted aye and 12 republicans voted no. During the day Senator Bailey announced that he proposed to vote for the duty on iron ore as a revenue measure declaring that free ore did not affect the prosperity of the United States steel corporation and added, that even if it did there is a better way to deal with that organization, which is by the enforcement of the anti-trust law against it. He declared he expected to see this law enforced and expressed confidence that eventually the officers of the steel corporation would be either in the penitentiary or fugitives from justice. For the first time there was a suggestion looking or the fixing of the date for a vote on the tariff bill but it came to naught because of the objection of Senator Beveridge.

N. P. EXTENSION.

SEATTLE, May 13.—H. C. Nutt, general manager of the Northern Pacific on the lines west of Trout Creek, Mont., says the Northern Pacific has for many years contemplated running a short line through the Lolo Pass to the Snake River. It has made several surveys which makes it easy for it to file a survey on its line in either Idaho or Montana, and in this way they are far ahead of the other roads that are seeking to penetrate that region.

FOR COMMISSION CONTROL.

SEATTLE, May 13.—Former Governor Joseph W. Folk in a lecture at the University of Washington last night advocated the commission form of government for municipalities. He said that the great advantage of government by commission is that it centralizes power. He also made an attack upon the liquor forces and the saloons.

SHIVELY WILL NOT RESIGN OFFICE

Does Not Care For Special Session of Legislature But Will Stand Pat on His Record

SEATTLE, May 13.—On his way to Spokane to answer to indictments returned against him by the grand jury there, insurance Commissioner Shively stopped at Seattle today. "I will not resign my office," he said. "I have given full consideration to the importance of a special session of the legislature, if one is called, and also to the significance to me if its purpose is impeachment. I realize fully what it will cost the people of this
